This Notice also lists the following information:

Title of Proposal: Study of Rent Burden of Residents Living in HOME-Assisted Rental Units.

Description of the need for the information and proposed use: The Department is conducting, under a contract with Abt Associates, Inc., a study of the rent burden of residents living in rental housing developed under the HOME Program. The main objective is to examine the rent burdens of residents living in HOME-assisted units. Rent burden is the percentage of gross income paid toward rent and utilities. Because the rents in HOME-assisted units are unrelated to individual household income but are based instead of affordable rents for households earning 50 percent or 65

percent of area median income adjusted for family size, residents can have high rent burdens, even if their unit is in compliance with rent standards. The study of rent burden will yield important information about the affordability of rental housing developed under the Home Program.

Agency Form Numbers, if Applicable: None.

Members of the affected public: Residents sampled in 250 properties that are selected for the study.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The researchers will administer a one-time telephone survey to 1,000 residents. The interviews are expected to last five minutes, for a total burden hour estimate of 83.3 hours.

Status of the proposed information collection: Awaiting OMB approval.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: April 18, 2000.

General Deputy Assistant Secretary for Policy Development and Research.
