Title of Proposal: Brief Survey of HUD Lead Hazard Control Grantees

OMB Control Number: Not applicable.

Need For the Information and Proposed Use: This information collection is required to assist in the design of a study to evaluate the effectiveness of lead hazard control interventions performed on private housing by a sample of the recipients of HUD lead hazard control grants (grant recipients include state or local governments). A similar study has been completed for a sample of 12 recipients of LHC grants from Rounds 1 and 2 of the grant program (awards made in 1992 and 1993). A new evaluation study is needed to assess the effectiveness of LHC interventions performed by a sample of LHC grants from Rounds 3 through 7 of the program. The new evaluation is needed to assess factors or conditions that could not be assessed in the completed study (*e.g.*, novel intervention protocols, communities in different geographic areas).

A brief survey will be conducted of potential study participants to provide information to be used in selecting a sample of final study participants. This research should contribute to an eventual reduction in the national prevalence of childhood lead poisoning.

Agency Form Numbers: None.

Members of Affected Public: State or local government recipients of HUD lead hazard control grants during Rounds 3-7 of the grant program (1994-2000).

Total Burden Estimate (first year):

Total Estimated Hours: 375.

Task	Number of respondents	Frequency of responses	Hours per response	Burden hours
Respond in writing to survey questions	125	1	3	375
