## NUCLEAR REGULATORY COMMISSION

### Notice of a Website for the Interagency Steering Committee on Radiation Standards

**SUMMARY:** This notice announces the website for the Interagency Steering Committee on Radiation Standards (ISCORS) at [www.iscors.org](http://www.iscors.org). ISCORS was formed in response to an October 27, 1994, letter from Senator John Glenn to the U.S. Nuclear Regulatory Commission (NRC), U.S. Environmental Protection Agency (EPA), and the Office of Science and Technology Policy (OSTP). In this letter, Senator Glenn charged EPA and the NRC, in coordination with the Committee on Interagency Radiation Research and Policy Coordination (CIRRPC), to develop a plan for a "path forward" to address the inconsistencies, gaps, and overlaps in current radiation protection standards. ISCORS is also one of the committees OSTP recommended for achieving the goals of the now defunct CIRRPC.

The objectives of ISCORS include:

- (1) Facilitating a consensus on acceptable levels of radiation risk to the public and workers;
- (2) Promoting consistent risk assessment and risk management approaches in setting and implementing standards for occupational and public protection from ionizing radiation;
- (3) Promoting completeness and coherence of Federal standards for radiation protection; and
- (4) Identifying interagency issues and coordinating their resolution.

Since its inception, NRC and EPA have co-chaired ISCORS. The current co-chairs are John T. Greeves, NRC, and Frank Marcinowski, EPA. In addition to NRC and EPA, ISCORS membership also includes senior managers from the Department of Defense, Department of Energy, Department of Labor's Occupational Safety and Health Administration, Department of Transportation, and Department of Health and Human Services; representatives of the Office of Management and Budget (OMB), OSTP, and the States are observers at meetings.

ISCORS meetings involve pre-decisional intragovernmental discussions and, as such, are not normally open for observation by members of the public or media. However, summary meeting notes are available in NRC's Public Document Room and now will be made available at the website. ISCORS meets approximately once each calendar quarter.

The full ISCORS committee establishes subcommittees to conduct the committee's technical work. The full committee establishes these subcommittees as needed to address specific issues of concern or significant interest to ISCORS. ISCORS has formed the following subcommittees: Cleanup; mixed waste; recycle; risk harmonization; sewage sludge; naturally occurring radioactive materials (NORM); and Federal guidance. The subcommittees minutes and activities will also be available at the website.

## RAILROAD RETIREMENT BOARD

### Proposed Collection; Comment Request

**SUMMARY:** In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

*Comments are invited on:* (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to

the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

*Title and purpose of information collection:* Vocational Report; OMB 3220-0141.

Section 2 of the Railroad Retirement Act (RRA) provides for payment of disability annuities to qualified employees and widow(ers). The establishment of permanent disability for work in the applicants "regular occupation" or for work in any regular employment is prescribed in 20 CFR 220.12 and 220.13 respectively.

The RRB utilizes Form G-251, Vocational Report, to obtain an applicant's work history. This information is used by the RRB to determine the effect of a disability on an applicant's ability to work. Form G-251 is designed for use with the RRB's disability benefit application forms and is provided to all applicants for employee disability annuities and to those applicants for a widow(er)'s disability annuity who indicate that they have been employed at some time. Completion is required to obtain or retain a benefit. One response is requested of each respondent.

The RRB proposed non-burden impacting formatting and editorial changes to Form G-251. The completion time for Form G-251 is estimated at between thirty and 40 minutes per response. The RRB estimates that approximately 6,000 Form G-251's are completed annually.

**FOR FURTHER INFORMATION CONTACT:** To request more information or to obtain a copy of the information collection justification, forms, and/or supporting material, please call the RRB Clearance Officer at (312) 751-3363. Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 North Rush Street, Chicago, Illinois 60611-2092. Written comments should be received within 60 days of this notice.
