

Historic Preservation Officer, and the White Mesa Ute Tribal Historic Preservation Officer. The results of the staff's appraisal are documented in an Environmental Assessment placed in the docket file. Based on its review, the NRC staff has concluded that there are no significant environmental impacts associated with the proposed action.

### Conclusions

The NRC staff has examined the actual and potential environmental impacts associated with the reclamation plan and has determined that the action is: (1) Consistent with requirements of 10 CFR Part 40; (2) will not be inimical to the public health and safety; and (3) will not have long-term detrimental impacts on the environment. The following statements support the FONSI and summarize the conclusions resulting from the staff's environmental assessment:

1. An acceptable environmental and effluent monitoring program is in place to monitor effluent releases and to detect if applicable regulatory limits are exceeded. Radiological effluents from site operations have been and are expected to continue to remain below the regulatory limits.

2. Present and potential risks from the reclamation were assessed. Given the remote location, the small area of impact, and the past activities on the site, the staff has determined that the risk factors for health and environmental hazards are insignificant.

### Alternatives to the Proposed Action

The proposed action that the NRC is considering is approval of IUC's Reclamation Plan and the amendment to a source material license issued pursuant to 10 CFR Part 40. The principal alternatives available to the NRC are:

1. Approve the license amendment request as submitted; or
2. Amend the license with such additional conditions as are considered necessary or appropriate to protect public health and safety and the environment; or
3. Deny the request.

The NRC staff has concluded that there are no significant environmental impacts associated with the proposed action. Therefore, alternatives with equal or greater impacts need not be evaluated. The staff considers that Alternative 1 is the appropriate alternative for selection. A technical evaluation report will be completed with respect to the criteria for reclamation, specified in 10 CFR Part 40, Appendix A.

### Finding of No Significant Impact

The NRC staff has prepared an Environmental Assessment for the proposed reclamation plan for NRC Source Material License SUA-1358. On the basis of this assessment, the NRC staff has concluded that the environmental impact that may result for the proposed action would not be significant, and, therefore, preparation of an Environmental Impact Statement is not warranted.

The Environmental Assessment and other documents related to this proposed action are available for public inspection and copying at the NRC Public Document Room, in the Gelman Building, 2120 L Street NW., Washington, DC 20555.

### Notice of Opportunity for Hearing

The Commission hereby provides notice that this is a proceeding on an application for a licensing action falling within the scope of Subpart L, "Informal Hearing Procedures for Adjudications in Materials and Operator Licensing Proceedings," of the Commission's Rules of Practice for Domestic Licensing Proceedings in 10 CFR Part 2 (54 FR 8269). Pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing. In accordance with § 2.1205(c), a request for a hearing must be filed within thirty (30) days from the date of publication of the **Federal Register** notice. The request for a hearing must be filed with the Office of the Secretary either:

(1) By delivery to the Rulemaking and Adjudications Staff of the Office of the Secretary at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852; or

(2) By mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Attention: Rulemaking and Adjudications Staff.

Each request for a hearing must also be served, by delivering it personally or by mail to:

(1) The applicant, International Uranium (USA) Corporation, Independence Plaza, Suite 950, 1050 Seventeenth Street, Denver, Colorado 80265;

(2) The NRC staff, by delivery to the Executive Director of Operations, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, or by mail addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

In addition to meeting other applicable requirements of 10 CFR Part 2 of the Commission's regulations, a

request for a hearing filed by a person other than an applicant must describe in detail:

(1) The interest of the requestor in the proceeding;

(2) How that interest may be affected by the results of the proceedings, including the reasons why the requestor should be permitted a hearing, with particular reference to the factors set out in § 2.1205(g);

(3) The requestor's area of concern about the licensing activity that is the subject matter of the proceedings; and

(4) The circumstances establishing that the request for a hearing is timely in accordance with § 2.1205(c).

Any hearing that is requested and granted will be held in accordance with the Commission's "Informal Hearing Procedures for Adjudications in Materials and Operator Licensing Proceedings" in 10 CFR Part 2, Subpart L.

Dated at Rockville, Maryland, this 23rd day of December 1999.

### Request for Public Comment

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension:

Rule 17a-6, SEC File No. 270-433, OMB Control No. 3235-0489

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Rule 17a-6 (17 CFR 240.17a-6) permits national securities exchanges, national securities associations, registered clearing agencies, and the Municipal Securities Rulemaking Board (collectively, "SROs") to destroy or convert to microfilm or other recording media records maintained under Rule 17a-1 (17 CFR 240.17a-1), if they have filed with the Commission a plan to destroy or dispose of records and the Commission has declared such plan effective.

There are currently 23 SROs required under Rule 17a-1 to maintain certain records and that could receive relief under Rule 17a-6: 8 national securities exchanges, 1 national securities association, 13 registered clearing agencies, and the Municipal Securities Rulemaking Board. Assuming that one of these respondents might file a plan to destroy or dispose of records, or an amendment thereto, in a given year, such filing would require approximately

40 hours per respondent to complete. Thus, the total compliance burden is 40 hours. At an approximate cost per hour of \$100, the resulting total related cost of compliance for these respondents is \$4,000 per year (40 hours × \$100/hour=\$4,000).

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Direct your written comments to Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549.

Dated: December 28, 1999.

Rule 15g-5, SEC File No. 270-348, OMB Control No. 3235-0394

Rule 17a-8, SEC File No. 270-53, OMB Control No. 3235-0092

Rule 17Ac2-1 and Form TA-1, SEC File No. 270-95, OMB Control No. 3235-0084

Rule 19d-2, SEC File No. 270-204, OMB Control No. 3235-0205

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is publishing the following summary of collections for public comment. The Commission plans to submit these existing collections of information of the Office of

Management and Budget for extension and approval.

Rule 15g-4 requires brokers and dealers effecting transactions in penny stocks for or with customers to disclose the amount of compensation received by the broker-dealer in connection with the transaction. It is estimated that approximately 270 respondents incur an average of 100 hours annually to comply with the rule.

Rule 15g-5 requires brokers and dealers to disclose to customers the amount of compensation to be received by their sales agents in connection with penny stock transactions. It is estimated that approximately 270 respondents incur an average burden of 100 hours annually to comply with the rule.

Rule 17a-8 requires brokers and dealers to make and keep certain reports and records concerning their currency and monetary instrument transactions. The requirements allow the Commission to ensure that brokers and dealers are in compliance with the Currency and Foreign Transactions Reporting Act of 1970 ("Bank Secrecy Act") and with the Department of the Treasury regulations under that Act. The reports and records required under this rule initially are required under Department of the Treasury regulations. Additional burden hours and costs are not imposed by this rule.

Rule 17Ac2-1 is used by transfer agents to register with the Commission, the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, or the Federal Deposit Insurance Corporation, and to amend their registration. It is estimated that on an annual basis, the Commission will receive approximately 250 applications for registration on Form TA-1 from transfer agents required to register as such with the Commission. Included in this figure are amendments made to Form TA-1 as required by Rule 17Ac2-1(c). Based upon past submissions, the staff estimates that the average number of hours necessary to comply with the requirements of Rule 17Ac2-1 is one and one-half hours, with a total burden of 375 hours.

Rule 19d-2 prescribes the form and content of applications to the Commission by persons desiring stays of final disciplinary sanctions and summary action of self-regulatory organizations ("SROs") for which the Commission is the appropriate regulatory agency. It is estimated that approximately 30 respondents will utilize this application procedure annually, with a total burden of 90 hours, based upon past submissions. The staff estimates that the average number of hours necessary to comply
