IV. Background on TPPC:

EPA's Office of Pesticide Programs (OPP) has significantly expanded resources devoted to Tribal programs and projects over the past two years. OPP and EPA's Office of Enforcement and Compliance Assurance (OECA) are working closely with EPA's Regional Offices, Tribes and Tribal organizations to develop and implement pesticide programs and projects meeting individual or regional Tribal needs.

Through a series of meetings with OPP, Tribes across the country have expressed a need for an official tribal pesticide group to address tribal pesticide program and technical issues at the national level. In response to this need, OPP has worked with Tribes and

various Tribal organizations to form a national group called the Tribal Pesticide Program Council (TPPC). The TPPC will work closely with EPA Offices and Regions, EPA's Tribal Operations Committee (TOC) and other national groups.

The general membership of the TPPC currently includes approximately 30 Tribes with EPA pesticide programs and a number of Tribes with pesticide interests. The group is led by an Executive Committee of 11 tribal representatives, elected from the general membership.

TPPC issues include pesticide registration, training, enforcement, certification, ground water, disposal and spray drift, among others. The TPPC will also work cooperatively with EPA/OPP to ensure that federal pesticide regulations are effectively applied to Tribal land. The structure of the TPPC should ensure that tribes with less experience can benefit from those with established programs and more experience.
