BILLING CODE 4510-30-M**DEPARTMENT OF LABOR****Employment and Training Administration****Wagner-Peyser Act Final Planning Allotments for Program Year (PY) 2000**

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: This notice announces the final planning allotments for Program Year (PY) 2000 (July 1, 2000 through June 30, 2001) for basic labor exchange activities provided under the Wagner-Peyser Act.

FOR FURTHER INFORMATION CONTACT:

Timothy S. Felegie, Office of Workforce Security, 200 Constitution Avenue NW., Room S-4231, Washington, DC 20210. Telephone: (202) 219-5653 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: In accordance with Section 6(b)(5) of the Wagner-Peyser Act, 29 U.S.C. 49e(b)(5), the Employment and Training Administration is publishing final planning allotments for each State for Program Year (PY) 2000 (July 1, 2000, through June 30, 2001). Preliminary planning estimates were provided to each State on February 17, 2000. Funds are distributed in accordance with formula criteria established in Section 6(a) and (b) of the Wagner-Peyser Act. Civilian labor force (CLF) and unemployment data for Calendar Year 1999 are used in making the formula calculations.

The total amount of funds currently available for distribution is \$761,735,000. The Secretary of Labor shall set aside up to 3 percent of the total available funds to assure that each State will have sufficient resources to maintain statewide employment services, as required by Section 6(b)(4) of the Act, 29 U.S.C. 49e(b)(4). In accordance with this provision, \$22,312,050 is set aside for administrative formula allocation. These funds are included in the total planning allotment. The funds that are set aside are distributed in two steps to States which have lost in relative share of resources from the prior year. In Step 1, States which have a CLF below one million and are below the median CLF density are maintained at 100 percent of their relative share of prior year resources. The remainder is distributed in Step 2 to all other States losing in relative share from the prior year, but which do not meet the size and density criteria for Step 1.

Postage costs incurred by States during the conduct of employment

service (ES) activities are billed directly to the Department of Labor by the U.S. Postal Service. The total final planning allotment reflects \$18,000,000, or approximately 2.36 percent of the total amount available, withheld from distribution to finance postage costs associated with the conduct of ES business. Pursuant to Section 7(b) of the Act, 29 U.S.C. 49f(b), ten percent of the

total sums allotted to each State shall be reserved for use by the Governor to provide performance incentives for public ES offices and programs; service for groups with special needs; and for the extra costs of exemplary models for delivering job services.

Differences between preliminary planning estimates and final planning allotments are caused by the use of

Calendar Year 1999 data as opposed to the earlier data (12 months ending September 1999) used for preliminary planning estimates.

Signed at Washington, DC, this 16th day of May, 2000.

Raymond L. Bramucci,
Assistant Secretary.

BILLING CODE 4510-30-M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

Washington State Standards; Notice of Approval

1. Background

Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under Section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On January 26, 1973, notice was published in the **Federal Register** (38 FR 2421) of the approval of the Washington plan and the adoption of subpart F to part 1952 containing the decision.

The Washington plan provides for the adoption of State standards that are at least as effective as comparable Federal standards promulgated under section 6 of the Act. Section 1953.20 provides that where any alteration in the Federal program could have an adverse impact on the at least as effective as status of the State program, a program change supplement to a State plan shall be required.

In response to a Federal standard change, the State submitted by letter dated November 9, 1994, from Mark O. Brown, Director, to James W. Lake, Regional Administrator, a State standard amendment comparable to 29 CFR 1910.269, Electric Power Generation, Transmission and Distribution, as published in the **Federal Register** on January 31, 1994, (59 FR 4320), and subsequent corrections published in the **Federal Register** on June 30, 1994 (59 FR 33658). The State standards were adopted by Administrative Order 94-16 on September 30, 1994, with an effective date of November 20, 1994. A review of the standard revealed

discrepancies and the submission was returned to the State for correction. On April 22, 1998, the State submitted by letter from Michael A. Silverstein, Assistant Director, to Richard S. Terrill, Regional Administrator, corrections to the discrepancies. The State standard amendments were adopted by Administrative Order 97-17 on March 6, 1998, with an effective date of May 6, 1998. A review of the amendments revealed new discrepancies and the submission was returned to the State for correction. On June 15, 1999, the State submitted by letter from Michael A. Silverstein, Assistant Director, to Richard S. Terrill, Regional Administrator, the requested corrections. The corrections were adopted by Administrative Order 99-04 on April 20, 1999, and became effective on August 1, 1999. The State standards are contained in Chapter 296-45 WAC, Safety Standards for Electrical Workers. OSHA has determined the following major differences between the State and Federal standards: (1) The State standards did not adopt provisions for live-line bare-hand work. The State requires that rubber gloves be only used on voltages of 5,000 or less between phases. (2) The State standards contain numerous supplemental requirements such as that for underground residential distribution. The State standards also incorporate the requirements of the 1997 National Electrical Safety Code (NESC) (ANSI-C2), Parts (1), (2) and (3) by reference.

On its own initiative, the State of Washington has submitted by letter dated July 27, 1998, from Michael A. Silverstein, Assistant Director, to Richard S. Terrill, Acting Regional Administrator, an amendment to its Construction Safety standard at WAC 296-155-130 for below the hook rigging. On December 18, 1998, the amendment was returned to the State for clarification of several issues. On February 22, 1999, in a letter from Michael A. Silverstein, to Richard S. Terrill, Regional Administrator, clarification was submitted and the standard was found to be comparable to Federal OSHA standards. The main difference is the State amendment was made so the rigging codes would be easier to follow and be located in one place in the Construction Safety standards rather than in various parts. The State's submission was adopted by Washington Administrative Order 96-20 on June 15, 1998, and became effective on August 15, 1998.

On its own initiative, the State has submitted by letter dated March 26, 1999, from Michael A. Silverstein, Assistant Director, to Richard S. Terrill,
