

FEDERAL RESERVE SYSTEM**Sunshine Act Meeting**

AGENCY HOLDING THE MEETING: Board of Governors of the Federal Reserve System.

TIME AND DATE: 10:00 a.m., Wednesday, June 21, 2000.

PLACE: Marriner S. Eccles Federal Reserve Board Building, 20th and C Streets, NW., Washington, DC 20551.

STATUS: Closed.

Matters to be Considered:

1. Personnel actions (appointments, promotions, assignments, reassignments, and salary actions) involving individual Federal Reserve System employees.

2. Any matters carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION: Lynn S. Fox, Assistant to the Board; 202-452-3204.

SUPPLEMENTARY INFORMATION: You may call 202-452-3206 beginning at approximately 5 p.m. two business days before the meeting for a recorded announcement of bank and bank holding company applications scheduled for the meeting; or you may contact the Board's Web site at <http://www.federalreserve.gov> for an electronic announcement that not only lists applications, but also indicates procedural and other information about the meeting.

Dated: June 14, 2000.

Robert deV. Frierson,

Associate Secretary of the Board.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Seleda Perryman, CDC-Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

Exposure to Aerosolized Brevetoxins During Red Tide Events—New—National Center for Environmental Health (NCEH). *Gymnodinium breve* is the marine dinoflagellate responsible for extensive blooms (called red tides) that

form in the gulf of Mexico. *G. breve* produces potent toxins, called brevetoxins, that have been responsible for killing millions of fish and other marine organisms. The biochemical activity of brevetoxins is not completely understood and there is very little information regarding human health effects from environmental exposures, such as inhaling brevetoxin that has been aerosolized and swept onto the coast by offshore winds. The National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC) is planning to recruit 100 people who work along the coast of Florida and who potentially will be occupationally exposed to aerosolized red tide toxins some time during the year following recruitment.

NCEH plans on administering a baseline respiratory health questionnaire and conducting pre- and post-shift pulmonary function tests during a time when there is no red tide reported near the area. When a red tide develops, we plan to administer a symptom survey and conduct pulmonary function testing (PFT) on a group of study participants who are working in the area where the red tide is near shore, and on a control group of study participants who are not working in an area where the red tide is near shore (i.e., are not exposed to the red tide). We will then compare (1) symptom reports before and during the red tide and (2) the changes in baseline PFT values during the work shift (differences between pre- and post-shift PFT results without exposure to red tide) with the changes in PFT values during the work shift when individuals are exposed to red tide. In addition, we plan to assist in collecting biological specimens (inflammatory cells from nose and throat swabs) to assess whether they can be used to verify exposure and to demonstrate a biological effect (i.e., inflammatory response) from exposure to red tide. There are no costs to respondents.

Respondents	No. of respondents	No. of responses per respondent	Average burden per response (in hrs.)	Total burden
Pulmonary History Questionnaire	100	1	20/60	33
Symptom Questionnaire	100	20	5/60	167
Nasal and throat swabs	100	20	5/60	167
Pulmonary Function Tests	100	20	20/60	667
Total	1034

Dated: June 12, 2000.

Kathy Cahill,

Associate Director for Policy, Planning, and Evaluation, Centers for Disease Control and Prevention (CDC).

[Program Announcement 00136]

Landmine Survivor Peer Support Networks in Five Mine-Affected Countries; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2000 funds for a cooperative agreement program for "Landmine Survivor Peer Support Networks in Five Mine-Affected Countries".

B. Eligible Applicant

Assistance will be provided only to Landmine Survivors Network (LSN). No other applications are solicited.

LSN is the most appropriate and qualified organization for conducting activities under this program because:

1. LSN has existing staff, both domestically and internationally, trained in public health and social sciences related to landmine survivors.
2. LSN has a significant global presence, allowing it to coordinate with local governments and international organizations in the implementation of projects related to landmine survivors.
3. LSN has a singularly high level of expertise and experience in working with landmine survivor issues.
4. LSN has an existing field presence including peer support networks in four of the five countries identified in this announcement (Bosnia, Ethiopia, Mozambique and Jordan).
5. LSN has established itself as a leader in the Non-Governmental Organization (NGO) community as a provider of support to individuals, families, and communities injured by landmines, giving it the resources and contacts to implement the program with the support of professional networks in the NGO community.

Note: Public Law 104-65 states that an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, cooperative agreement, contract, loan, or any other form.

C. Availability of Funds

Approximately \$1,200,000 is available in FY 2000 to fund this award. It is expected that the award will begin on or about September 30, 2000 and will be made for a 12-month budget period within a project period of up to 3 years.

D. Where To Obtain Additional Information

Program technical assistance may be obtained from: Brad Woodruff, International Emergency and Refugee Health Branch, National Center for Environmental Health, Centers for Disease Control and Prevention, 4770 Buford Highway, NE (F-48), Atlanta, GA 30341-3724, Telephone number: 770-488-3523, Email address: baw4@cdc.gov

Business management technical assistance may be obtained from: Mattie Jackson, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention, Room 3000, 2920 Brandywine Road, Atlanta, GA 30341-4146, Telephone number: 770-488-2718, Email address: mij3@cdc.gov

Dated: June 12, 2000.

John L. Williams,

Director, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC).

CDC Advisory Committee on HIV and STD Prevention: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), the Centers for Disease Control and Prevention (CDC) announces the following committee meeting.

Name: CDC Advisory Committee on HIV and STD Prevention.

Times and Dates:

8:30 a.m.-5 p.m., June 29, 2000.

8:30 a.m.-3 p.m., June 30, 2000.

Place: Marriott Atlanta Century Center, 2000 Century Boulevard NE, Atlanta, Georgia 30345.

Status: Open to the public, limited only by the space available. The meeting room will accommodate approximately 100 people.

Purpose: This Committee is charged with advising the Director, CDC,

regarding objectives, strategies, and priorities for HIV and STD prevention efforts including maintaining surveillance of HIV infection, AIDS, and STDs, the epidemiologic and laboratory study of HIV/AIDS and STDs, information/education and risk reduction activities designed to prevent the spread of HIV and STDs, and other preventive measures that become available.

Matters To Be Discussed: Agenda items include issues pertaining to (1) national syphilis elimination efforts (2) strategic planning for HIV Prevention and (3) CDC's HIV Prevention efforts in Africa and India.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Paulette Ford, Committee Management Analyst, National Center for HIV, STD, and TB Prevention, 1600 Clifton Road, NE, m/s E-07, Atlanta, Georgia 30333. Telephone 404/639-8008, fax 404/639-8600, e-mail pbf7@cdc.gov.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** Notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Dated: June 12, 2000.

John Burckhardt,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.
