SUPPLEMENTARY INFORMATION:

Title: MACT Subpart KK, National Emission Standards for the Printing and Publishing Industry (OMB Control No. 2060-0335; EPA ICR No. 1739.03) expiring 03/31/00. This is a request for extension of a currently approved collection.

Abstract: The Maximum Achievable Control Technology (MACT) for the Printing and Publishing Industry were promulgated on May 30, 1996 (61 FR 27131). These standards apply to the following facilities in 40 CFR part 63, subpart KK: publication rotogravure, product and packaging rotogravure, and wide-web flexographic printing presses at major sources. The effective date is May 30, 1999 for sources existing on May 30, 1996. For new sources or reconstructed sources after May 30, 1996, the effective date is start-up or May 30, 1996, whichever is later.

These standards of performance for this category of major sources and area sources of hazardous air pollutants are required by section 112 of the Clean Air Act. Facilities may meet the standards by materials substitution, by installing control devices, or by a combination of both. The information that is required to be submitted to the Agency or kept at the facility is needed to insure compliance with the regulation. These include initial one time notifications, performance tests plans and reports and records of maintenance and shutdown, startup, and malfunctions. The required notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. The reviewing authority may then inspect the source to check if the pollution control devices are properly installed and operated, leaks are being detected and repaired and the standard is being met. Performance test reports are needed as these are the Agency's record of a source's initial capability to comply with the emission standard, and serve as a record of the operating conditions under which compliance was achieved. For facilities that install CMS there are performance test, and maintenance reports. Excess emissions reports are submitted semiannually. Responses to the collection of information are mandatory.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed

in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 7/29/99 (64 FR 41110); no comments/ comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 192 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of publication rotogravure, product and packaging rotogravure, or wide-web flexographic printing presses.

Estimated Number of Respondents: 135.

Frequency of Response: one time notifications, semiannual reports.

Estimated Total Annual Hour Burden: 52,495

Estimated Total Annualized Capital, O&M Cost Burden: \$403,000

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1739.03 and OMB Control No. 2060-0335 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, Office of Environmental Information, Collection Strategies Division (2822), 1200 Pennsylvania Ave., NW, Washington, DC 20460; and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: January 11, 2000.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Reporting and Recordkeeping Requirements for National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings, EPA No. 1765.02, OMB No. 2060-0353, expires March 31, 2000. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before February 24, 2000.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Sandy Farmer at EPA by phone at (202) 260-2740, by E-Mail at Farmer.Sandy@epamail.epa.gov or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1765.02. For technical questions about the ICR contact Mark Morris at (919) 541-5416.

SUPPLEMENTARY INFORMATION:

Title: Reporting and Recordkeeping Requirements for National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings (OMB Control No. 2060-0353; EPA ICR No. 1765.02), expiring March 31, 2000. This is a request for extension of a currently approved collection.

Abstract: The information collection includes initial and periodic reporting necessary for the EPA to ensure compliance with Federal standards for volatile organic compounds in automobile refinish coatings. Respondents are manufacturers and importers of automobile refinish

coatings and coating components. Responses to the collection are mandatory under 40 CFR part 59, subpart B—National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings.

The information collection includes initial and periodic reporting necessary for the EPA to ensure compliance with the promulgated federal rule for automobile refinish coatings. The rule will be enforced through random sampling of coatings to determine VOC content. All manufacturers and importers of coatings and coating components subject to this rule must submit an initial report. The initial report must include the name and mailing address of the manufacturer or importer. The rule requires that containers of all subject automobile refinish coatings and coating components display the date of manufacture or a code indicating the date of manufacture. All manufacturers and importers of subject coatings and coating components must submit an explanation of all date codes used on automobile refinish coating and coating component containers. Date code explanations can be submitted with the initial report. Thereafter, respondents must submit explanations of any new date codes within 30 days of their first use. The EPA is required under section 183(e) of the Clean Air Act (Act) to regulate VOC emissions from the use of consumer and commercial products. Pursuant to section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation (60 FR 15264). Automobile refinish coatings were included in Group 1 of the list, and the standards for such coatings were promulgated on September 11, 1998 (63 FR 48806). The reports required under the rule enable the EPA to identify all coating and coating component manufacturers and importers in the United States, and to determine which coatings and coating components are subject to the rule based on dates of manufacture. Agency enforcement personnel will use the information collected to identify manufacturers and importers subject to the rule and to determine which coatings and coating components are subject to the rule by dates of manufacture.

All information submitted to the EPA for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in 40 CFR part 2, subpart B—Confidentiality of Business Information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information

unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on August 27, 1999 (64 FR 46906); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2.2 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers and importers of coatings/components for Automobile Refinishing.

Estimated Number of Respondents: 10.

Frequency of Response: Annual.

Estimated Total Annual Hour Burden: 22 hours.

Estimated Total Annualized Capital, Operating/Maintenance Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1765.02 and OMB Control No. 2060-0353 in any correspondence. Ms. Sandy Farmer, U.S. Environmental Protection Agency, Office of Environmental Information, Collection Strategies Division (2822), 1200 Pennsylvania, NW, Washington, DC 20460; and Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: January 19, 2000.

Oscar Morales,

Director, Collection Strategies Division.

Board of Scientific Counselors, Executive Committee Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C., App. 2) notification is hereby given that the Environmental Protection Agency, Office of Research and Development (ORD), Board of Scientific Counselors (BOSC), will hold an Executive Committee Meeting.

DATES: The meeting will be held on February 9-10, 2000. On Wednesday, February 9, the meeting will begin at 9 a.m., and will recess at 4:30 p.m. On Thursday, February 10, the meeting will reconvene at 8:45 a.m. and adjourn at approximately 1 p.m. All times noted are Eastern Time.

ADDRESSES: The meeting will be held at the Washington Monarch Hotel, 2401 M Street, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Shirley R. Hamilton, Designated Federal Officer, U.S. Environmental Protection Agency, Office of Research and Development, NCERQA (MC 8701R), 401 M Street, SW., Washington, DC 20460, (202) 564-6853.

SUPPLEMENTARY INFORMATION: Agenda items will include, but not limited to: Discussion on ORD's Particulate Matter^{2.5} Research Program and BOSC subcommittee Draft Reports on Particulate Matter, and SAB and BOSC subcommittee Review of ORD's Science to Achieve Results (STAR) Program. Anyone desiring a draft BOSC agenda may fax their request to Shirley R. Hamilton, (202) 565-2444. The meeting is open to the public. Any member of the public wishing to make a presentation at the meeting should contact Shirley Hamilton, Designated Federal Officer, Office of Research and Development (8701R), 1200 Pennsylvania Avenue, NW., Washington, DC 20460; or by telephone at (202) 564-6853. In general, each individual making an oral presentation will be limited to a total of three minutes.
