

insurance contracts, and to Qualified Plans; (b) differences in tax treatment or other considerations may cause the interests of various Variable Contract owners participating in an Insurance Products Fund and the interests of Qualified Plans investing in that Insurance Product Fund to conflict; and (c) the Board will monitor the Insurance Product Fund for any material conflicts and determine what action, if any, should be taken.

10. Each Insurance Products fund will comply with all provisions of the 1940 Act requiring voting by shareholders (for these purposes, the persons having a voting interest in shares of the Insurance Products Fund). In particular, each such Insurance Products Fund either will provide for annual shareholder meetings (except insofar as the Commission may interpret Section 16 of the 1940 Act not to require such meetings) or comply with section 16(c) of the 1940 Act (although none of the Insurance Products Fund shall be one of the trusts described in section 16(c) of the 1940 Act), as well as with sections 16(a) of the 1940 Act and, if and when applicable, section 16(b) of the 1940 Act. Further, each insurance Products Fund will act in accordance with the Commission's interpretation of the requirements of section 16(a) with respect to periodic elections of Board members and with whatever rules the Commission may promulgate with respect thereto.

11. If and to the extent that Rules 6e-2 and 6e-3(T) are amended, or Rule 6e-3 under the 1940 Act is adopted, to provide exemptive relief from any provision of the 1940 Act, or the rules promulgated thereunder, with respect to mixed or shared funding, on terms and conditions materially different from any exemptions granted in the Order requested in this Application, then the Insurance Products Funds and/or Participants, as appropriate, shall take such steps as may be necessary to comply with Rules 6e-2 and 6e-3(T), as amended, and Rule 6e-3, as adopted, to the extent such Rules are applicable.

12. The Participants, at least annually, shall submit to the Board such reports, materials, or data as the Board may reasonably request so that such Board may fully carry out the obligations imposed upon them by the conditions stated in this Application. Such reports, materials, and data shall be submitted more frequently if deemed appropriate by the applicable Board. The obligations of the Participants to provide these reports, materials, and data to the Boards shall be a contractual obligation of all Participants under the agreements

governing their participation in the Insurance Products Funds.

13. If a Qualified Plan or Qualified Plan participant should become an owner of 10% or more of the assets of an Insurance Products Fund, such Qualified Plan will execute a fund participation agreement which includes the conditions set forth herein to the extent applicable. A Qualified Plan or Qualified Plan participant will execute an application containing an acknowledgment of this condition upon such plan's initial purchase of shares of any Insurance Products Fund.

Conclusion

For the reasons stated above, Applicants believe that the requested exemptions, in accordance with the standards of section 6(c) of the 1940 Act, are appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the 1940 Act.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

DEPARTMENT OF STATE

[Public Notice 3342]

Bureau of Educational and Cultural Affairs Request for Proposals: College and University Affiliations Program

SUMMARY: The Office of Global Educational Programs of the Bureau of Educational and Cultural Affairs in the Department of State announces an open competition for an assistance award program. Accredited, post-secondary educational institutions meeting the provisions described in IRS regulation 26 CFR 1.5019(C) may apply to pursue institutional or departmental objectives in partnership with foreign counterpart institutions with support from the College and University Affiliations Program. These objectives should support the overall goal of the Program: to strengthen mutual understanding and cooperation among U.S. and foreign educational institutions on specified themes of common interest to the United States and to the participating

colleges and universities. The means for achieving the objectives of the applicant and its partner(s) may include teaching, scholarship, and outreach to professionals and other members of the communities served by the participating institutions.

Program Overview

Underlying the specific institutional objectives of projects funded by this program should be the goals of encouraging the growth of freedom and democracy, economic stability and prosperity, or environmental cooperation. Innovative strategies to address these underlying concerns in the pursuit of clearly defined institutional objectives are encouraged. Outreach from academic institutions to larger communities of citizens and practitioners to extend understanding about these issues is also encouraged.

The Bureau supports institutional linkages in higher education through the College and University Affiliations Program, for which this Request for Proposals invites applications for funding in FY2001. The College and University Affiliations Program operates in cooperation with the Fulbright Senior Scholar Program; the U.S. institutions of current and former participants in the Fulbright Program are encouraged to apply. Other college and university teachers and administrators with knowledge of educational institutions in other countries are also encouraged to build on this knowledge with support from the Bureau through the College and University Affiliations Program.

Separate Requests for Proposals for institutional linkages in higher education with the New Independent States of the former Soviet Union (N.I.S. College and University Partnerships Program and the N.I.S. Community College Partnerships Program) are being published this fiscal year. For further information about these N.I.S. programs, refer to the "Foreign Country and Location Eligibility" section of this solicitation.

Applicant Objectives

While the benefits of the project to each of the participating institutions may differ significantly in nature and scope, proposals should outline well-reasoned strategies leading to specific objectives for each participating U.S. and foreign department or institution as a whole.

For example, proposals may describe the parameters and possible content of new courses, new research or teaching capacities or methodologies, new or
