

or selling devices or processes covered by this patent.

*Title:* Method and Apparatus for Multi-Sensor, Multi-Target Tracking Using a Genetic Algorithm.

*Inventor:* David Hillis.

*Patent Number:* 6,055,523.

*Issued Date:* April 25, 2000.

*Title:* Tridirectional Inverter.

*Inventor:* Thomas F. Podlesak.

*Patent Number:* 6,052,292.

*Issued Date:* April 18, 2000.

*Title:* High Brightness Optical Parametric Amplifier Array.

*Inventors:* Suresh Chandra, Geraldine H. Daunt and Michael J. Ferry.

*Patent Number:* 6,052,218.

*Issued Date:* April 18, 2000.

#### Availability of a Novel Target Technology for Exclusive, Partially Exclusive or Non-exclusive Licenses

**AGENCY:** U.S. Army Research Laboratory, DoD.

**ACTION:** Notice of availability.

**SUMMARY:** The Department of the Army announces the general availability of exclusive, partially exclusive or non-exclusive licenses relative to a novel target technology as described in the U.S. Patent #5,669,608; Device for Locating the Position of Impact of a Projectile; issued 23 September 1997; Thomson, et al. Licenses shall comply with 35 U.S.C. 209 and 37 CFR 404.

**FOR FURTHER INFORMATION CONTACT:**

Michael D. Rausa, U.S. Army Research Laboratory, Office of Research and Technology Applications, ATTN: AMSRL-CS-TT/Bldg. 434, Aberdeen Proving Ground, Maryland 21005-5425, Telephone: (410) 278-5028.

#### Intent To Grant an Exclusive or Partially Exclusive License to Whithner Corporation

**AGENCY:** U.S. Army Research Laboratory, DoD.

**ACTION:** Notice of Intent.

**SUMMARY:** In compliance with 37 CFR 404 *et seq.*, the Department of the Army hereby gives notice of its intent to grant to Whithner Corporation, a corporation having its principle place of business at 6300 Blair Hill Lane, Baltimore, MD 21209, an exclusive or partially exclusive license relative to a patented ARL technology (US Patent #5,669,608; Device for Locating the Position of Impact of a Projectile; issued 23 September 1997; Thomson, *et al.*).

Anyone wishing to object to the granting of this license has 60 days from the date of this notice to file written objections along with supporting evidence, if any.

**FOR FURTHER INFORMATION CONTACT:**

Michael D. Rausa, U.S. Army Research Laboratory, Office of Research and Technology Applications, ATTN: AMSRL-CS-TT/Bldg. 459, Aberdeen Proving Ground, Maryland 21005-5425, Telephone: (410) 278-5028.

#### Department of the Army

#### Intent To Prepare a Supplemental Environmental Impact Statement (SEIS) to the Central and Southern Florida Project (C&SF) Comprehensive Review Study Integrated Feasibility Report and Programmatic Environmental Impact Statement on the Water Preserve Areas (WPA) Feasibility Study

**AGENCY:** Army Corps of Engineers, Department of Defense.

**ACTION:** Notice of intent.

**SUMMARY:** The Jacksonville District, U.S. Army Corps of Engineers, intends to prepare a Supplemental Environmental Impact Statement to the C&SF Comprehensive Review Study Integrated Feasibility Report and Programmatic Environmental Impact

Statement on the Water Preserve Areas Feasibility Study. The study is located in Palm Beach, Broward, and Miami-Dade Counties east of the Water Conservation Areas and generally west of existing developed areas. The study will investigate concepts to capture and store excess surface waters by backpumping water from the lower east coast urban areas that is normally discharged to tide via the C&SF Project canal system. The C&SF Comprehensive Review Study demonstrated that the Water Preserve Areas concept is an integral part of the Everglades restoration plan.

**FOR FURTHER INFORMATION CONTACT:**

Questions about the proposed action and SEIS can be answered by William Porter, Planning Division, U.S. Army Corps of Engineers, P.O. Box 4970, Jacksonville, Florida 32232-0019, Telephone 904-232-2259, or Fax 904-232-3442.

**SUPPLEMENTARY INFORMATION:** a. *Project Features and Scope:*

The WPAs feasibility study will evaluate the size, location, and operational aspects of the components of the Comprehensive Plan of the C&SF Project Comprehensive Review Study within the WPAs study boundary to provide for the optimum ecosystem restoration function. Other water-related needs and issues which will be addressed in the detailed engineering design of the WPAs include: water supply/use, water quality, seepage barriers, salt water intrusion, urban development impacts, and the presence of exotics in the proposed WPAs. This WPAs Feasibility Study will contain feasibility level analyses including General Design Memorandum level engineering and design. Some of the tasks associated with the preparation of this report will include surveys and mapping, geotechnical investigations, design optimization, economics, environmental analyses, and real estate analyses. A supplemental National Environmental Policy Act document will be prepared. A Project Management Plan has been prepared that details schedules, funding requirements, and identifies resource needs.

b. *Scoping:* The scoping process as outlined by the Council on Environmental Quality is being utilized to involve Federal, State, and local agencies, affected Indian Tribes, and other interested private organizations and parties. A Scoping Letter has been sent to interested Federal, State and local agencies, interested organizations and the public, to request their comments and concerns regarding issues they feel should be addressed in the SEIS. Interested persons and

organizations wishing to participate in the scoping process should contact the U.S. Army Corps of Engineers at the address above. Significant tissues anticipated include: flood protection and water supply for the project area; reduced drainage of the Everglades and reestablishing natural hydropatterns within existing natural areas, providing short hydroperiod wetlands to increase spatial extent, and providing a buffer between the Everglades and the increasingly urbanized lower east coast area. Public meetings held over the course of the study will be announced in public notices and local newspapers with exact locations, dates, and times.

c. It is estimated that the SEIS will be available to the public by summer 2001.

**James C. Duck,**

*Chief, Planning Division.*

### Department of the Army; Corps of Engineers

#### Intent To Prepare a Draft Environmental Impact Statement (DEIS) for a Dam Safety Assurance Study, Tuttle Creek Lake Project, Manhattan, Kansas

**AGENCY:** U.S. Army Corps of Engineers, DoD.

**ACTION:** Notice of Intent.

**SUMMARY:** The purpose of this study is to consider the economic, environmental, and social impacts that may occur as a result of various alternatives being considered in a dam safety assurance study, to consider embankment seismic remediation, under the authority of Section 1203 of the water Resources Development Act of 1986 (Pub. L. 99-662), Tuttle Creek Lake Project, Manhattan, Kansas.

#### FOR FURTHER INFORMATION CONTACT:

Questions regarding the proposed study and DEIS can be answered by the Project Manager, Mr. David L. Mathews, telephone number (816) 983-3696, Chief, Dam Safety and Support Section, Geotechnical Branch, U.S. Army Corps of Engineers, 700 Federal Building, 601 E. 12th Street, Kansas City, Missouri 64106-2896.

**SUPPLEMENTARY INFORMATION:** 1. The Kansas City District (KCD), Corps of Engineers, is undertaking a Dam Safety Assurance Study, to consider embankment seismic remediation measures, under the authority of Section 1203 of the Water Resources Development Act of 1986 (Pub. L. 99-

662, for the Tuttle Creek Lake Project, Manhattan, Kansas.

2. KCD's study will evaluate the no-action alternative as well as various structural alternatives to determine:

- a. Seismic remediation costs and benefits;
- b. Regional social and economic impacts; and
- c. Environmental impacts and mitigation measures.

3. Reasonable alternatives KCD will examine include the feasibility of various structural measures to address dam safety issues concerning seismic stability of the Tuttle Creek dam.

#### 4. Scoping Process.

a. A public workshop will be held at Manhattan, Kansas in the Fall of 2000. The exact date, time, and location of the workshop will be announced when the details are finalized. Additional workshops will be held as the study progresses to keep the public informed. Coordination meetings will be held as needed with affected/concerned local, State, and Federal governmental entities.

b. These workshops and meetings, as well as any meetings which were previously held regarding this project, will serve as the collective scoping process for preparation of the DEIS. No formal "scoping" meeting will be held.

c. Draft documents forthcoming from the study will be distributed to Federal, State, and local agencies, as well as interested members of the general public, for review and comment.

d. Significant issues to be analyzed in depth include evaluations of:

- (1) Dam safety;
- (2) Impacts to fish and wild resources;
- (3) Recreation;
- (4) Navigation; and
- (5) Water supply.

e. Environmental consultation and review will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as per regulations of the Council of Environmental Quality (Code of Federal Regulations, 40 CFR Parts 1500-1508), and other applicable laws, regulations, and guidelines.

5. The anticipated date of availability of the DEIS for public review is January 2002.

**Gregory D. Showalter,**

*Army Federal Register Liaison Officer.*

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. EG00-172-000, et al.]

#### CPV Gulfcoast, Ltd., et al.; Electric Rate and Corporate Regulation Filings

July 5, 2000.

Take notice that the following filings have been made with the Commission:

##### 1. CPV Gulfcoast, Ltd.

[Docket No. EG00-172-000]

Take notice that on June 23, 2000, CPV Gulfcoast, Ltd., c/o Competitive Power Ventures, L.P., 4061 Power Mill Road, Suite 700, Calverton, MD 20705, filed with the Federal Energy Regulatory Commission (Commission) an amendment to the June 15, 2000 application for determination of exempt wholesale generator status pursuant to Part 365 of the Commission's regulations.

The amendment identified the following informational changes: (i) CPV Gulfcoast, Ltd. is the name of the Applicant rather than CPV Gulfcoast, L.P. and (ii) that the nominally rated 250 MW natural gas fired combined cycle generating facility will consist of one (1) F class combustion turbine, one (1) heat recovery steam generator and a single steam turbine.

*Comment date:* July 26, 2000, in accordance with Standard Paragraph E at the end of this notice. The Commission will limit its consideration of comments to those that concern the adequacy or accuracy of the amended application.

##### 2. Southern Company Services, Inc.

[Docket No. ER00-2998-000]

Take notice that on June 30, 2000, Southern Company Services, Inc., as agent for Georgia Power Company (Georgia Power), tendered for filing the Purchased Power Agreement between Georgia Power and LG&E Energy Marketing, Inc. (LEM) dated October 6, 1999 (the Agreement) pursuant to the Commission's authorization for Georgia Power to sell power at market rates under the Market-Based Rate Tariff, FERC Electric Tariff, First Revised Volume No. 4 (Supersedes Original Volume No. 4). The Agreement provides the general terms and conditions for capacity and associated energy sales from Georgia Power to LEM commencing on June 1, 2000.

*Comment date:* July 21, 2000, in accordance with Standard Paragraph E at the end of this notice.
