

15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on August 16, 1999 (64 FR 44518); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.5 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/operators of Secondary Lead Smelters

Estimated Number of Respondents: 23.

Frequency of Response: 1/yr/
respondent.

Estimated Total Annual Hour Burden: 35.

Estimated Total Annualized Capital and Operating & Maintenance Cost Burden: \$0.00.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1128.06 and OMB No. 2060-0080 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, Office of Environmental Information, Collection Strategies Division (2822), 1200 Pennsylvania, NW, Washington, DC 20460;
and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: January 20, 2000.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities: Submission for OMB Review; Comment Request, NSPS Performance for Equipment Leaks of VOC from Onshore Natural Gas Processing Plants, and NSPS Natural Gas Processing: SO₂ Emissions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NSPS, 40 CFR part 60, subpart KKK, Standards of Performance for Equipment Leaks of VOC from Onshore Natural Gas Processing Plants, and NSPS, 40 CFR part 60, subpart LLL, Standards of Performance for Natural Gas Processing: SO₂ Emissions. The OMB Control Number is 2060-0120 and expiration date 03/31/00. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before February 28, 2000.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Sandy Farmer at EPA by phone at (202) 260-2740, by E-Mail at Farmer.Sandy@epamail.epa.gov or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1086.06. For technical questions about the ICR, contact Dan Chadwick at (202) 564-7054.

SUPPLEMENTARY INFORMATION:

Title: NSPS Subpart KKK Standards of Performance for Equipment Leaks of VOC from Onshore Natural Gas Processing Plants, and NSPS Subpart LLL Standards of Performance for Natural Gas Processing: SO₂ Emissions. (OMB Control No. 2060-0120; EPA ICR No. 1086.06) expiring 03/31/00. This is a request for extension of a currently approved collection.

Abstract: Owners/operators of Onshore Natural Gas Processing Plants

subject to subparts KKK and LLL must notify EPA of construction, modifications, startups, shutdowns, malfunctions, and initial performance tests dates and results. Owners/operators subject to these standards must make one-time-only reports of notification of the date of construction or reconstruction and notification of the anticipated and actual startup dates. Owner/operators subject to these standards must also report on the notification of any physical or operational change that may cause emission increases and are also required to maintain records of the occurrence and duration of any startup, shutdown or malfunction in the operation of an affected facility, or any period in which the monitoring system is inoperable.

Facilities subject to subpart KKK must provide information on leaks, including the date when the leak was detected, the repair method used and other pertinent details. Facilities subject to subpart LLL must submit information on excess SO₂ emissions. Large facilities subject to subpart LLL must install, calibrate, maintain and operate SO₂ Continuous Emission Monitors. These facilities would also have to submit the results of initial performance tests. Owners/operators of all affected facilities must report semiannually on the operating information contained in the records. This information is collected and used to ensure that the standards for VOC and SO₂ emissions are being met.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 08/16/99 (64 FR 44518) and no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 102 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and

requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Owners/operators of natural gas processing plants (KKK) and Owners/operators for Onshore Natural Gas Processing (LLL).

Estimated Number of Respondents:

558.

Frequency of Response: Semiannually or as needed.

Estimated Total Annual Hour Burden: 114,036 hours.

Estimated Total Annualized Capital, OM Cost Burden: \$74,100.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1086.06 and OMB Control No. 2060-0120 in any correspondence.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; National Volatile Organic Compound Emission Standards for Consumer Products

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management

and Budget (OMB) for review and approval: "Reporting and Recordkeeping Requirements for National Volatile Organic Compound Emission Standards for Consumer Products," EPA No. 1764.02, OMB No. 2060-0348, expires March 31, 2000. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before February 28, 2000.

FOR FURTHER INFORMATION CONTACT:

Sandy Farmer at EPA by phone at (202) 260-2740, by email at

farmer.sandy@epamail.epa.gov, or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1764.02. For technical questions about the ICR contact Bruce Moore at 919-541-5460.

SUPPLEMENTARY INFORMATION:

Title: National Volatile Organic Compound Emission Standards for Consumer Products, OMB No. 2060-0348, EPA No. 1764.02, expires March 31, 2000. This is a request for an extension of a currently approved collection.

Abstract: The information collection includes initial reports and periodic recordkeeping necessary for EPA to ensure compliance with Federal standards for volatile organic compounds in consumer products. Respondents are manufacturers, distributors, and importers of consumer products. Responses to the collection are mandatory under 40 CFR part 59, subpart C—National Volatile Organic Compound Emission Standards for Consumer Products. The EPA is required under section 183(e) of the Clean Air Act (Act) to regulate VOC emissions from the use of consumer and commercial products. Pursuant to section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation on March 23, 1995 (60 FR 15264). Consumer products were included in Group I of the list, and standards were promulgated on September 11, 1998.

In the Administrator's judgment, VOC emissions from the use of consumer products contribute to ground-level ozone formation in ozone non-attainment areas. The reports and recordkeeping activities required under the rule enable the EPA to determine whether or not consumer products manufactured or imported for use in the U.S. meet the VOC content limits. Minimal reporting is required. Initial reporting consists of information needed

by EPA to (1) identify the universe of manufacturers and importers subject to the rule; (2) determine the date of manufacture of products; (3) ascertain the location of formulation and batch records for purposes of compliance assurance; and (4) have on record a responsible company official as a primary contact. Notification of the use of revised date codes enables EPA to have access to the most current codes. All information submitted to the EPA for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in 40 CFR part 2, subpart B—Confidentiality of Business Information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR, chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on June 18, 1999 (64 FR 32856); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 79 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Manufacturers, distributors, and importers of consumer products.

Estimated Number of Respondents: 375.

Frequency of Response: Initial notification and on occasion.

Estimated Total Annual Hour Burden: 29,695 hours.

Estimated Total Annualized Capital, Operating/Maintenance Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any
