2. Evaluate the accuracy of the Agency's estimates of the burdens of the proposed collections of information.

4. Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated or electronic collection technologies or other forms of information technology, e.g., permitting electronic submission of responses.

IV. What Information Collection Activity or ICR does this Action Apply to?

EPA is seeking comments on the following ICR:

Title: Request for Contractor Access to TSCA Confidential Business Information.

ICR numbers: EPA ICR No. 1250.05, OMB No. 2070-0075.

ICR status: This ICR is currently scheduled to expire on December 31, 2000. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's information collections appear on the collection instruments or instructions, in the

Federal Register notices for related rulemakings and ICR notices, and, if the collection is contained in a regulation, in a table of OMB approval numbers in 40 CFR part 9.

Abstract: Certain employees of companies working under contract to EPA require access to CBI collected under the authority of TSCA in order to perform their official duties. The Office of Pollution Prevention and Toxics (OPPT), which is responsible for maintaining the security of TSCA CBI, requires that all individuals desiring access to TSCA CBI obtain and annually renew official clearance to TSCA CBI. As part of the process for obtaining TSCA CBI clearance, OPPT requires certain information about the contracting company and about each contractor employee requesting TSCA CBI clearance, primarily the name, Social Security Number and EPA identification badge number of the employee, the type of TSCA CBI clearance requested and the justification for such clearance, and the signature of the employee to an agreement with respect to access to and use of TSCA CBI.

Responses to the collection of information are voluntary, but failure to provide the requested information will prevent a contractor employee from obtaining clearance to TSCA CBI. EPA will observe strict confidentiality precautions with respect to the information collected on individual employees, based on the Privacy Act of 1974, as outlined in the ICR and in the collection instrument.

V. What are EPA's Burden and Cost Estimates for this ICR?

Under the PRA, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized in this notice. The annual public burden for this

collection of information is estimated to average about 1.56 hours per response. The following is a summary of the estimates taken from the ICR:

Respondents/affected entities: 432.

Frequency of response: On occasion.

Estimated total/average number of responses for each respondent: One.

Estimated total annual burden hours: 675.

Estimated total annual burden costs: \$40,727.

VI. Are There Changes in the Estimates from the Last Approval?

There is a decrease of 139 hours (from 814 hours to 675 hours) in the total estimated respondent burden compared with that identified in the information collection request most recently approved by OMB. This change reflects a lower estimate of the number of employees at contracting firms that need to obtain clearance to access TSCA CBI.

VII. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
