

dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. The rule may affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit in a portion of San Juan Harbor from July 11, 2000 to October 31, 2000. This special local regulation will not have a significant economic impact on a substantial number of small entities because this rule will be in effect sporadically, and vessel traffic can pass safely around the regulated area.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub.L. 104-121), we want to assist small entities in understanding this rule so that they can better evaluate its effects on them and participate in the rulemaking process. If the rule would affect your small business, organization, or government jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed under **FOR FURTHER INFORMATION CONTACT** for assistance in understanding and participating in this rulemaking. We also have a point of contact for commenting on actions by employees of the Coast Guard. Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247).

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act (44 U.S.C. 3501-3520).

Federalism

We have analyzed this rule under Executive Order 13132 and have determined that this rule does not have implications for federalism under that Order.

The Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) governs

the issuance of Federal regulations that require unfunded mandates. An unfunded mandate is a regulation that requires a State, local, or tribal government or the private sector to incur direct costs without the Federal Government's having first provided the funds to pay those unfunded mandate costs. This rule will not impose an unfunded mandate.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or safety that may disproportionately affect children.

Environment

The Coast Guard has considered the environmental impact of this rule and concluded that under figure 2-1, paragraph 34(g) of Commandant Instruction M16475.1C, this rule is categorically excluded from further environmental documentation because it is establishing a temporary safety zone.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, and Safety measures, Waterways.

For the reasons discussed in the Preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED AREAS AND LIMITED NAVIGATION AREAS

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 49 CFR 1.46 and 33 CFR 1.05-1(g), 6.04-1, 6.04-6, and 160.5.

2. Temporary § 165.T00-065 is added to read as follows:

§ 165.T00-065 Safety Zone; San Juan Harbor, Puerto Rico.

(a) *Regulated Area.* A temporary safety zone is established within a 1500-foot radius surrounding the drill boat *Apache*, operating at the entrance to San Juan Harbor in the approximate position of 18° 28.3691' N, 066° 07.6889' W, when the vessel is conducting drilling or blasting.

(b) *Regulations.* (1) In accordance with the general regulations in § 165.23 of this part, entry into, anchoring, mooring or transiting in this zone is prohibited when the vessel *Apache* is displaying the flashing blue strobe light, unless authorized by the Coast Guard Captain of the Port.

(2) Notifications of blasting or drilling operations will be broadcast via VHF-FM radio Channel 16 beginning 2 hours prior to drilling or blasting operations.

(c) *Dates.* This section is effective at 7 a.m., Atlantic Standard Time, on July 11, 2000, and expires at 11:59 p.m., Atlantic Standard Time, October 31, 2000.

Dated: July 11, 2000.

J. Servidio,

Commander, U.S. Coast Guard, Captain of the Port, San Juan, Puerto Rico.

[FR Doc. 00-18555 Filed 7-20-00; 8:45 am]

BILLING CODE 4910-15-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[CA 184-0245a; FRL-6734-5]

Revisions to the California State Implementation Plan, Ventura County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is taking direct final action to approve revisions to the Ventura County Air Pollution Control District's portion of the California State Implementation Plan (SIP). These revisions concern volatile organic compound (VOC) emissions from degreasers. We are approving local rules that regulate these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: This rule is effective on September 19, 2000 without further notice, unless EPA receives adverse comments by August 21, 2000. If we receive such comment, we will publish a timely withdrawal in the **Federal Register** to notify the public that this rule will not take effect.

ADDRESSES: Mail comments to Andy Steckel, Rulemaking Office Chief (AIR-4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

You can inspect copies of the submitted SIP revisions and EPA's technical support document (TSD) at our Region IX office during normal business hours. You may also see copies of the submitted SIP revisions at the following locations:

Environmental Protection Agency, Air Docket (6102), Ariel Rios Building, 1200 Pennsylvania Avenue, NW., Washington DC 20460.

California Air Resources Board, Stationary Source Division, Rule

Evaluation Section, 2020 "L" Street, Sacramento, CA 95812.

Ventura County Air Pollution Control District, 669 County Square Dr., 2nd Fl., Ventura, CA 93003-5417.

FOR FURTHER INFORMATION CONTACT:

Yvonne Fong, Rulemaking Office (AIR-4), U.S. Environmental Protection Agency, Region IX, (415) 744-1199.

SUPPLEMENTARY INFORMATION:

Throughout this document, "we," "us" and "our" refer to EPA.

Table of Contents

- I. The State's Submittal
 - A. What rules did the State submit?
 - B. Are there other versions of these rules?

C. What is the purpose of the submitted rules?

II. EPA's Evaluation and Action.

- A. How is EPA evaluating the rules?
- B. Do the rules meet the evaluation criteria?

C. Public comment and final action.

III. Background information.

A. Why were these rules submitted?

IV. Administrative Requirements

I. The State's Submittal

A. What Rules Did the State Submit?

Table 1 lists the rules we are approving with the dates that they were adopted by the local air agency and submitted by the California Air Resources Board (CARB).

TABLE 1.—SUBMITTED RULES

Agency	Rule #	Rule Title	Adopted	Submitted
VCAPCD	74.6.1	Cold Cleaners	07/09/96	10/18/96
VCAPCD	74.6.2	Batch Loaded Vapor Degreasers	07/09/96	10/18/96
VCAPCD	74.6.3	Conveyorized Degreasers	07/09/96	10/18/96

On December 19, 1996, these rule submittals were found to meet the completeness criteria in 40 CFR part 51 appendix V, which must be met before formal EPA review.

B. Are There Other Versions of These Rules?

There are no previous versions of these rules in the SIP, although the VCAPCD adopted earlier versions of these rules on December 10, 1991, and CARB submitted them to us on June 19, 1992. While we can act on only the most recently submitted versions, we have reviewed materials provided with previous submittals.

C. What Is the Purpose of the Submitted Rules?

Rules 74.6.1, 74.6.2, and 74.6.3 set equipment and operating requirements for cold cleaners, batch loaded vapor degreasers, and conveyorized degreasers. These requirements ensure that these sources will be operated in a way which limits VOC emissions. The TSD has more information about these rules.

II. EPA's Evaluation and Action

A. How Is EPA Evaluating the Rules?

Generally, SIP rules must be enforceable (see section 110(a) of the Act), must require Reasonably Available Control Technology (RACT) for major sources in nonattainment areas (see section 182(a)(2)(A)), and must not relax existing requirements (see sections

110(l) and 193). The VCAPCD regulates an ozone nonattainment area (see 40 CFR part 81), so Rules 74.6.1, 74.6.2, and 74.6.3 must fulfill RACT.

Guidance and policy documents that we used to define specific enforceability and RACT requirements include the following:

1. Portions of the proposed post-1987 ozone and carbon monoxide policy that concern RACT, 52 FR 45044, November 24, 1987.

2. "Issues Relating to VOC Regulation Cutpoints, Deficiencies, and Deviations; Clarification to Appendix D of November 24, 1987 **Federal Register** Notice," (Blue Book), notice of availability published in the May 25, 1988 **Federal Register**.

3. The Control Technique Guideline (CTG) entitled, "Control of Volatile Organic Emissions from Solvent Metal Cleaning" (November 1977; EPA-450/2-77-022)

4. The California Air Resources Board (CARB) document entitled, "Determination of Reasonably Available Control Technology and Best Available Control Technology for Organic Solvent Cleaning and Degreasing Operations" (July 18, 1991).

B. Do the Rules Meet the Evaluation Criteria?

We believe these rules are consistent with the relevant policy and guidance regarding enforceability, RACT, and SIP relaxations. The TSD has more information on our evaluation.

C. Public Comment and Final Action

As authorized in section 110(k)(3) of the Act, EPA is fully approving the submitted rules because we believe they fulfill all relevant requirements. We do not think anyone will object to this, so we are finalizing the approval without proposing it in advance. However, in the Proposed Rules section of this **Federal Register**, we are simultaneously proposing approval of the same submitted rules. If we receive adverse comments by August 21, 2000, we will publish a timely withdrawal in the **Federal Register** to notify the public that the direct final approval will not take effect and we will address the comments in a subsequent final action based on the proposal. If we do not receive timely adverse comments, the direct final approval will be effective without further notice on September 19, 2000. This will incorporate these rules into the federally enforceable SIP.

III. Background Information

A. Why Were These Rules Submitted?

VOCs help produce ground-level ozone and smog, which harm human health and the environment. Section 110(a) of the CAA requires states to submit regulations that control VOC emissions. Table 2 lists some of the national milestones leading to the submittal of these local agency VOC rules.

TABLE 2.—OZONE NONATTAINMENT MILESTONES

Date	Event
March 3, 1978	EPA promulgated a list of ozone nonattainment areas under the Clean Air Act as amended in 1977. 43 FR 8964; 40 CFR 81.305.
May 26, 1988	EPA notified Governors that parts of their SIPs were inadequate to attain and maintain the ozone standard and requested that they correct the deficiencies (EPA's SIP-Call). See section 110(a)(2)(H) of the pre-amended Act.
November 15, 1990	Clean Air Act Amendments of 1990 were enacted. Pub. L. 101-549, 104 Stat. 2399, codified at 42 U.S.C. 7401-7671q.
May 15, 1991	Section 182(a)(2)(A) requires that ozone nonattainment areas correct deficient RACT rules by this date.

IV. Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. This action merely approves state law as meeting federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that these rules will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because these rules approve pre-existing requirements under state law and do not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4). For the same reason, these rules also do not significantly or uniquely affect the communities of tribal governments, as specified by Executive Order 13084 (63 FR 27655, May 10, 1998). These rules will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because they merely approve state rules implementing a federal standard, and do not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. These rules also are not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because they are not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be

inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rules in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. These rules do not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing these rules and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rules in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by September 19, 2000. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality

of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: June 28, 2000.

Nora L. McGee,

Acting Regional Administrator, Region IX.

Part 52, chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart F—California

2. Section 52.220 is amended by adding paragraph (c)(241)(i)(C)(2) to read as follows:

§ 52.220 Identification of plan.

* * * * *

(c) * * *

(241) * * *

(i) * * *

(C) * * *

(2) Rules 74.6.1, 74.6.2, and 74.6.3, adopted on July 9, 1996.

* * * * *
