

Administration, U.S. Department of Labor, Room N-3641, 200 Constitution Avenue, NW., Washington, DC 20210; telephone: (202) 693-2444. A copy of the Agency's Information-Collection Request (ICR) supporting the need for the information-collection requirements in the Ionizing radiation Standard is available for inspection and copying in the Docket Office, or you may request a mailed copy by telephoning Todd R. Owen at (202) 693-2444. For electronic copies of the ICR on the Ionizing radiation Standard, contact OSHA on the Internet at <http://www.osha.gov>.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing information-collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments clearly understood, and OSHA's estimate of the information burden is correct. The Occupational Safety and Health Act of the 1970 (the Act) authorizes information collection by employers as necessary or appropriate for enforcement of the act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

The information-collection requirements specified in the Ionizing radiation Standard protect employees from the adverse health effects that may result from their exposure to ionizing radiation. The information-collection requirements of the Ionizing radiation Standard include employers phoning OSHA when radiation exposure incidents expose employees over radiation limits stated in the Standard; sending written reports of radiation over exposure to OSHA; maintaining employee exposure records; and furnishing exposure records to employees upon request.

II. Proposed Actions

OSHA proposes to extend OMB's approval of the collection of information (paperwork) requirements contained in the Ionizing radiation Standard. OSHA will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB to extend the approval

of the information-collection requirements contained in the Ionizing radiation Standard.

Type of Review: Extension of currently approved information-collection requirements.

Title: Ionizing Radiation (29 CFR 1910.1096).

OMB Number: 1218-0103.

Affected Public: Business or other for-profit; Federal government; State, Local or Tribal government.

Number of Respondents: 15,859.

Frequency: On occasion.

Total Responses: 258,745.

Average Time per Response: Varies from 5 minutes to maintain radiation-exposure records to 15 minutes for employers to prepare a written report of employee overexposure for submission to OSHA.

Estimated Total Burden Hours: 42,491.

Estimated Cost (Operation and Maintenance): \$2,093,388.

III. Authority and Signature

Charles N. Jeffress, Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506) and Secretary of Labor's Order No 6-96 (62 FR 111).

Signed at Washington, D.C., on July 18, 2000.

Charles N. Jeffress,

Assistant Secretary of Labor.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules for Electronic Copies Previously Covered by General Records Schedule 20; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the

destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal.

This request for comments pertains solely to schedules for electronic copies of records created using word processing and electronic mail where the recordkeeping copies are already scheduled. (Electronic copies are records created using word processing or electronic mail software that remain in storage on the computer system after the recordkeeping copies are produced.)

These records were previously approved for disposal under General Records Schedule 20, Items 13 and 14. The agencies identified in this notice have submitted schedules pursuant to NARA Bulletin 99-04 to obtain separate disposition authority for the electronic copies associated with program records and administrative records not covered by the General Records Schedules. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a). To facilitate review of these schedules, their availability for comment is announced in **Federal Register** notices separate from those used for other records disposition schedules.

DATES: Requests for copies must be received in writing on or before September 7, 2000. On request, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums concerning a proposed schedule. These, too, may be requested. Requesters will be given 30 days to submit comments.

Some schedules submitted in accordance with NARA Bulletin 99-04 group records by program, function, or organizational element. These schedules do not include descriptions at the file series level, but, instead, provide citations to previously approved schedules or agency records disposition manuals (see **SUPPLEMENTARY INFORMATION** section of this notice). To facilitate review of such disposition requests, previously approved schedules or manuals that are cited may be requested in addition to schedules for the electronic copies. NARA will provide the first 100 pages at no cost. NARA may charge \$.20 per page for additional copies. These materials also may be examined at no cost at the National Archives at College Park (8601 Adelphi Road, College Park, MD).

ADDRESSES: To request a copy of any records schedule identified in this notice, write to the Life Cycle Management Division (NWML), National Archives and Records Administration (NARA), 8601 Adelphi Road, College Park, MD 20740-6001. Requests also may be transmitted by FAX to 301-713-6852 or by e-mail to records.mgt@arch2.nara.gov.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports and/or copies of previously approved schedules or manuals should so indicate in their request.

FOR FURTHER INFORMATION CONTACT:

Marie Allen, Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: (301) 713-7110. E-mail: records.mgt@arch2.nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs the records to conduct its business. Routine administrative records common to most agencies are approved for disposal in the General Records Schedules (GRS), which are disposition schedules issued by NARA that apply Government-wide.

On March 25, 1999, the Archivist issued NARA Bulletin 99-04, which told agencies what they must do to schedule electronic copies associated with previously scheduled program records and certain administrative records that were previously scheduled under GRS 20, Items 13 and 14. On December 27, 1999, the Archivist issued NARA Bulletin 2000-02, which suspended Bulletin 99-04 pending NARA's completion in FY 2001 of an overall review of scheduling and appraisal. On completion of this review, which will address all records, including electronic copies, NARA will determine whether Bulletin 99-04 should be revised or replaced with an alternative scheduling procedure.

However, NARA will accept and process schedules for electronic copies prepared in accordance with Bulletin 99-04 that are submitted after December 27, 1999, as well as schedules that were submitted prior to this date.

Schedules submitted in accordance with NARA Bulletin 99-04 only cover the electronic copies associated with previously scheduled series. Agencies that wish to schedule hitherto unscheduled series must submit separate SF 115s that cover both recordkeeping copies and electronic copies used to create them.

In developing SF 115s for the electronic copies of scheduled records, agencies may use either of two scheduling models. They may add an appropriate disposition for the electronic copies formerly covered by GRS 20, Items 13 and 14, to every item in their manuals or records schedules where the recordkeeping copy has been created with a word processing or electronic mail application. This approach is described as Model 1 in Bulletin 99-04. Alternatively, agencies may group records by program, function, or organizational component and propose disposition instructions for the electronic copies associated with each grouping. This approach is described as Model 2 in the Bulletin. Schedules that follow Model 2 do not describe records at the series level.

For each schedule covered by this notice the following information is provided: name of the Federal agency and any subdivisions requesting disposition authority; the organizational unit(s) accumulating the records or a statement that the schedule has agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency; the control number assigned to each schedule; the total number of schedule items; the number of temporary items (the record series proposed for destruction); a brief description of the temporary electronic copies; and citations to previously approved SF 115s or printed disposition manuals that scheduled the recordkeeping copies associated with the electronic copies covered by the pending schedule. If a cited manual or schedule is available from the Government Printing Office or has been posted to a publicly available Web site, this too is noted.

Further information about the disposition process is available on request.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-443]

In the Matter of United Illuminating Company (Seabrook Station, Unit 1); Order Approving Application Regarding Restructuring of United Illuminating Company

I

United Illuminating Company (UI) holds 17.5-percent ownership interest in Seabrook Station, Unit 1. Ten other investor-owned and municipal entities unaffiliated with UI are co-owners of Seabrook Station, Unit 1.

In connection with its ownership interest, UI is a co-holder of Facility Operating License No. NPF-86 issued by the U.S. Nuclear Regulatory Commission (NRC) pursuant to 10 CFR Part 50 on March 15, 1990, for Seabrook Station, Unit 1. Under this license, North Atlantic Energy Service Corporation, an affiliate of Northeast Utilities, has the exclusive authority to operate Seabrook Station, Unit 1. Seabrook Station is located in Rockingham County, New Hampshire.

II

Pursuant to 10 CFR 50.80, UI filed an application dated February 17, 2000, which was supplemented by letters dated March 1, April 24, April 28, and May 10, 2000 (collectively herein referred to as the application). In the application, UI informed the Commission that it was in the process of implementing a corporate restructuring under which UIL Holdings Corporation (Holdings) would become the parent corporation to, and sole owner of UI. In addition, unregulated subsidiaries of UI would become direct or indirect subsidiaries of Holdings. UI would continue to hold its respective ownership percentage of and possession only license for Seabrook Station, Unit 1. UI would remain an "electric utility" as defined in 10 CFR 50.2, engaged in the generation, transmission, and distribution of electric energy for wholesale and retail sale. No physical
