SUPPLEMENTARY INFORMATION:

A. Background

This interim rule amends the FAR to convert size standards and other programs in the FAR that are based on the Standard Industrial Classification (SIC) system to the North American Industry Classification System (NAICS).

The Small Business Administration (SBA) amended its regulations to convert small business size standards from the Standard Industrial Classification (SIC) System to the North American Industry Classification System (NAICS). These new size standards were published in the **Federal Register** at 65 FR 30836, May 15, 2000, and are effective on October 1, 2000. NAICS is a new system that classifies business concerns according to how they conduct their economic activity. SBA has determined that NAICS is a better description of industries in the U.S. economy than the SIC system for purposes of establishing size standards. This interim rule adopts the NAICS-based size standards effective October 1, 2000.

This rule conforms the FAR to the final SBA size standards and converts other programs in the FAR currently based on SIC codes to NAICS codes. These programs include the Small Business Competitiveness

Demonstration Program at Subpart 19.10, the Price Evaluation Adjustment for Small Disadvantaged Business Concerns at Subpart 19.11, the Small Disadvantaged Business Participation Program at Subpart 19.12, and the Historically Underutilized Business Zone (HUBZone) Program at Subpart 19.13.

This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

The interim rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the coding changes are primarily internal to the Government. External uses of the codes under the small business subcontracting program and small disadvantaged business participation programs are primarily limited to large businesses. This rule includes implementation of SBA's final rule, and SBA has certified that the impact of the SIC to NAICS change on each business will not be substantial. Therefore, an Initial Regulatory Flexibility Analysis has not been performed. The Councils will consider comments from small entities concerning the affected FAR Parts in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C 601, *et seq.* (FAC 97–19, FAR case 2000–604), in correspondence.

C. Paperwork Reduction Act

The Paperwork Reduction Act of 1995 (Pub. L. 104–13) applies; however, this interim rule does not impose new reporting and recordkeeping requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.* This rule will require restructuring of contractors' record systems to collect data on small disadvantaged businesses under small business subcontracting plans and small disadvantaged business participation plans by NAICS rather than SIC. Because this merely involves use of a different industry classification system, this interim rule does not affect existing OMB clearances (9000–0006, 9000–0007, and 9000–0150).

D. Determination To Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense

(DoD), the Administrator of General Services (GSA), and the Administrator for the National Aeronautics and Space Administration (NASA) that urgent and compelling reasons exist to promulgate this interim rule without prior opportunity for public comment. This action is necessary because the Small Business Administration (SBA) issued a final rule on May 15, 2000, providing a new size standards listing that is based on NAICS rather than SIC codes. The SBA rule requires Federal agencies to use the new size standards, beginning October 1, 2000, to determine whether a business is a small business concern. Changes to the FAR are needed to establish policy for use of the new size standards in Government acquisitions. The required implementation date of October 1, 2000, does not permit time to issue a proposed FAR rule and evaluate public comments. However, pursuant to Public Law 98-577 and FAR 1.501, the Councils will consider public comments received in response to this interim rule in the formation of the final rule.
