

a cover sheet for submissions of information under TSCA sections 4, 8(d) and 8(e). The cover sheet facilitates submission of information by displaying certain basic data elements, permitting EPA more easily to identify, log, track, distribute, review and index submissions, and to make information publicly available more rapidly and at reduced cost, to the mutual benefit of both the respondents and EPA. The information collection request referenced in this notice applies to the use of this form/cover sheet.

Responses to the collection of information are voluntary. Respondents may claim all or part of a document confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on October 1, 1999 (64 FR 53377). EPA received no comments on this ICR during the comment period.

Burden Statement: The annual public reporting burden for this collection of information is estimated to average 0.5 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Frequency of Collection: On occasion.
Estimated No. of Respondents: 1,830.
Estimated Total Annual Burden on Respondents: 915 hours.

Estimated Total Annual Non-Labor Costs: \$0.

Changes in Burden Estimates: The total burden associated with this ICR has decreased from 1,348 hours in the previous ICR to 915 for this ICR. This decrease in burden represents an adjustment resulting from a net decrease in the number of submissions expected.

According to the procedures prescribed in 5 CFR 1320.12, EPA has submitted this ICR to OMB for review and approval. Any comments related to the renewal of this ICR should be submitted within 30 days of this notice, as described above.

Title: Information Collection Request: The SunWise School Program EPA ICR No. 1904.01. This is a new collection.

Abstract: The goal of the SunWise School Program is to teach children and their care givers how to protect

themselves from overexposure to the sun. The SunWise School Program recognizes the challenge of measuring the progress and evaluating the effectiveness of an environmental and public health education program where the ultimate goal is to reduce risk and improve public health. Therefore, the continual and careful evaluation of program effectiveness through surveying is necessary to monitor progress and refine the program. Surveys to be developed and administered include: (1) Student survey to identify current sun safety knowledge and behaviors among students; (2) Parent survey to compare findings with those of their children as well as to draw comparisons with the benchmarks established in other national surveys; (3) Teacher questionnaire for measuring their receptivity to the educational component of the Program; and (4) School administrator questionnaire to show receptivity to the SunWise School Program and its standards. The data will be analyzed and results will indicate the Program's effect on participants' sun-protection attitudes and behaviors. Responses to the collection of information are voluntary. SUPPLEMENTARY INFORMATION: The following information collection activity has been submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA is asking OMB to approve this ICR for three years.

Title: Data Call-Ins for the Special Review and Registration Review Programs.

ICR Numbers: EPA ICR No. 0922.06; OMB Control No. 2070-0057.

ICR Status: This ICR involves a collection activity that is currently approved and is scheduled to expire on September 30, 2000, and a new collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to a collection of information that is subject to approval under the Paperwork Reduction Act, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's information collections appear on the collection instruments or instructions, in the **Federal Register** notices for related rulemakings and ICR notices, and, if the collection is contained in a regulation, in a table of OMB approval numbers in 40 CFR part 9.

Abstract: The EPA is responsible for the registration of pesticides as mandated by FIFRA. The information

collection document discusses activities for the Special Review Program and the new Registration Review Program. The Special Review Program has been a part of the existing ICR activities for sometime while the new Registration Review Program is an addition to the ICR. Currently, as part of the on-going administrative process under section 6 of FIFRA, registrants are required to submit additional information to EPA regarding unreasonable adverse effects on the environment from the use of the pesticide. EPA may also determine that additional information is needed from the registrant to maintain an existing registration. When the Agency identifies a hazard or a potential hazard from the use of a pesticide that was not known at the time of registration, this information collection is used in the Special Review Program to determine whether regulatory actions are needed.

The Registration Review Program was created by the Food Quality Protection Act in 1996. Under the new Registration Review Program, EPA must periodically review all pesticide registrations (see section 3(g) of FIFRA). Therefore, continued registration of all pesticides, regardless of whether a hazard or potential hazard is identified, requires that the Agency obtain additional data, if necessary, and assess the information necessary for it to determine whether a registration should continue.

Burden: Under the PRA, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. The ICR provides a detailed explanation of this estimate, which is only briefly summarized in this notice:

Respondents/Affected Entities: Pesticide Registrants.

Estimated Number of Respondents: 68.

Frequency of Response: One time and only as needed.

Estimated Total/Average Number of Responses: 1.5 to 8.
