SUPPLEMENTARY INFORMATION:

Title: 30 CFR Part 254, Oil-Spill Response Requirements for Facilities Located Seaward of the Coast Line.

OMB Control Number: 1010-0091.

Abstract: The Federal Water Pollution Control Act, as amended by the Oil Pollution Act of 1990 (OPA), requires that a spill-response plan be submitted for offshore facilities prior to February 18, 1993. The OPA specifies that after that date, an offshore facility may not handle, store, or transport oil unless a plan has been submitted. Regulations at 30 CFR part 254 establish requirements for spill-response plans for oil-handling facilities seaward of the coast line, including associated pipelines.

We use the information collected under 30 CFR part 254 to determine compliance with OPA by owners/operators. Specifically, MMS needs the information to:

- Determine effectiveness of the spill-response capability of owners/operators;
- Review plans prepared under the regulations of a State and submitted to MMS to satisfy the requirements of this rule to ensure that they meet minimum requirements of OPA;
- Verify that personnel involved in oil-spill response are properly trained and familiar with the requirements of the spill response plans and to witness spill-response exercises;
- Assess the sufficiency and availability of contractor equipment and materials;

- Verify that sufficient quantities of equipment are available and in working order;
- Oversee spill-response efforts and maintain official records of pollution events; and
- Assess the efforts of owners/operators to prevent oil spills or prevent substantial threats of such discharges.

Responses are mandatory. No proprietary, confidential, or sensitive information is collected.

Frequency: The frequency varies by regulatory requirement, but is mostly annual or on occasion.

Estimated Number and Description of Respondents: Primarily approximately 197 owners or operators of facilities located in both State and Federal waters

seaward of the coast line and 3 oil spill response companies.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 42,233 burden hours (refer to burden chart).

Estimated Annual Reporting and Recordkeeping "Non-Hour Cost" Burden: We have identified no non-hour cost burdens for this collection.

Comments: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Section 3506(c)(2)(A) of the PRA requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected

agencies concerning each proposed collection of information * * * Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of

information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on May 25, 2000, we published a **Federal Register** notice

(65 FR 3826) with the required 60-day comment period announcing that we would submit this ICR to OMB for approval. In addition, § 254.9 displays the OMB control number, specifies that the public may comment at anytime on the collection of information required in the 30 CFR part 254 regulations, and provides the address to which they should send comments. We have received no comments in response to those efforts. We also consulted with several respondents and adjusted some of the information collection burdens as a result of those consultations.

If you wish to comment in response to this notice, send your comments directly to the offices listed under the **ADDRESSES** section of this notice. The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by September 20, 2000.
