SUPPLEMENTARY INFORMATION: In accordance with 5 CFR 1320.12(a), BLM

is required to provide 60-day notice in the **Federal Register** concerning a collection of information contained in BLM Form 5510-1, Free Use Application and Permit (43 CFR 5510) to solicit comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. BLM will receive and analyze any comments sent in response to this notice and include them with its request for approval from the OMB under 44 U.S.C. 3501 *et seq.*

The Secretary of the Interior has, under the authority of the Act of July 23, 1955, the discretion to permit the free use of vegetative or mineral materials for use other than commercial or industrial purposes or resale. The Secretary of the Interior also has the discretion to permit the free use of vegetative or mineral materials under certain circumstances, to mining claimants.

BLM uses the information provided by the applicant(s) to: maintain an inventory of vegetative and mineral information and to adjudicate your rights to vegetative and mineral resources. If BLM did not collect this information, your application may be rejected, as a permit must be filed before removal (43 CFR 5511.2-3) and the BLM must monitor the authorized uses of public lands.

Based on BLM's experience administering the activities described above, the public reporting burden for the information collected is estimated to average 30 minutes per response. The respondents are the general public. The frequency of response is once per application for a permit. The number of responses per year is estimated to total 450. The estimated total annual burden on new respondents is about 225 hours. BLM is specifically requesting your comments on its estimate of the amount of time that it takes to prepare a response. BLM's estimate is 30 minutes per response, which includes the time for reviewing instructions, gathering

and maintaining the data, and completing and reviewing the form.

BLM will summarize all responses to this notice and include them in the request for Office of Management and Budget approval. All comments will also become a matter of public record.

Dated: August 16, 2000.

Shirlean Beshir,

BLM Information Clearance Officer.

FOR FURTHER INFORMATION CONTACT: Tom Roberts, WO-220, 202-452-7769.

SUPPLEMENTARY INFORMATION: In accordance with 5 CFR 1320.12(a), the BLM is required to provide a 60 day notice in the **Federal Register** concerning a collection of information contained in BLM Form 4120-7 (43 CFR 4120.3) to solicit comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of the information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. BLM will analyze any comments received in response to this notice and include them with its request for approval from the OMB under 44 U.S.C. 3501 *et seq.*

The Taylor Grazing Act (TGA) of 1934 (43 U.S.C. 315 *et seq.*), the Federal Land Policy and Management Act (FLPMA) of 1976 (43 U.S.C. 1701 *et seq.*) provide the authority for the BLM to administer the livestock grazing program consistent with land use plans, multiple use objectives, sustained yield, environmental values, economic considerations, and other factors. Sections 4 and 15 of the TGA and Regulations in 43 CFR 4120.3-3 allow permittees the opportunity to construct and maintain rangeland improvements on the public lands. The regulations were on February 21, 1964 (49 FR 6452) and last amended on February 22, 1995 (60 FR 9964). Form 4120-7, Range Improvement Permit is an approved form used to request and approve a rangeland improvement project.

The BLM authorizes rangeland improvement projects to facilitate handling livestock while they are using the public lands as an important and integral part of grazing use administration. The information provided by the permittees and lessees is used by BLM to review requests for privately funded rangeland improvement projects for compatibility with multiple use objectives and land use plans, develop appropriate conditions and specifications, and to approve or reject the applications. The

name and address is used to determine if the applicant is a grazing permittee in compliance with 43 CFR 4120.3-3(a). Applicants also specify if they will construct a new improvement or obtain a permit to maintain an existing improvement. A brief purpose or justification is stated to determine the compatibility with multiple use plans. The applicant identifies the specific location to determine land ownership and if needed, a plat is provided on the reverse to delineate linear improvements such as fences or pipelines. An estimate of cost or value is recorded in the event of land ownership changes that require appraisal of private assets for reimbursement of permittees for the present worth of improvements in accordance with 43 CFR 4120.3-6(c). The BLM completes administrative codes for its records systems, prepares special terms and conditions as appropriate, assigns a completion date for construction, signs approval and makes inspection of the completed rangeland improvement. A copy of the approved permit is retained to document in BLM files.

Because of the variations in size and complexity of rangeland improvement projects, BLM estimates the public reporting burden for this information collection at some 60 applications filed once that may take as little as 10 minutes to complete, while others may take as long as 30 minutes with an average of 20 minutes burden for each with an annual burden of 20 hours.

Any interested member of the public may request and obtain a copy of the BLM Form 4120-7 without charge by contacting the person identified under **FOR FURTHER INFORMATION CONTACT.**

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will also be a matter of public record.

Dated: August 16, 2000.

Shirlean Beshir,

BLM Information Clearance Officer.
