

NRCS in South Dakota for review and comment.

SUMMARY: It is the intention of NRCS in South Dakota to issue revised conservation practice standards in Section IV of the FOTG for the following practices: Conservation Crop Rotation (328); Residue Management, No Till/Strip Till (329A); Residue Management, Mulch Till (329B); and Residue Management, Ridge Till (329C).

DATES: Comments on this notice must be received on or before September 22, 2000.

ADDRESSES: All comments concerning the proposed conservation practice standards changes should be addressed to: Dean Fisher, State Conservationist, NRCS, 200 Fourth Street SW, Huron, South Dakota 57350. Copies of these standards will be made available upon written request.

Dated: August 7, 2000.

Sandra Byrd-Hughes,

Deputy State Conservationist, Natural Resources Conservation Service, Huron, South Dakota 57350.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket No. 51-2000]

Foreign-Trade Zone 125—South Bend, IN; Application for Subzone Status; Audiovox Specialized Applications, LLC Plant (Motor Vehicle Audio/Video Products), Elkhart, Indiana

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the St. Joseph County Airport Authority, grantee of FTZ 125, requesting special-purpose subzone status for the motor vehicle audio/video products manufacturing plant of Audiovox Specialized Applications, LLC (ASA) (a subsidiary of Audiovox Corporation), located in Elkhart, Indiana. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on August 14, 2000.

The ASA plant (8 acres/130,000 sq. ft.) is located at 23319 Cooper Drive, Elkhart (Elkhart County) Indiana, about 15 miles east of South Bend, Indiana. The facility (225 employees) is used to produce and distribute foreign-made motor vehicle audio and audio-visual products, including am-fm radio/cassette players, am-fm radio/compact

disc players, compact disc players, speakers, video observation systems, TV/VCR/DVD entertainment systems; and, flip down and integrated small video screens for export and the domestic market. The finished products are used in automotive, heavy duty/construction equipment, and marine product applications (some of ASA's products may also be for consumer use). The production process involves design, assembly, testing, and warehousing. Components purchased from abroad (ranging between 60 to 95% of overall material value) used in manufacturing include: flexible wire, integrated circuits, printed circuit boards, transistors, fuses/holders, CRT sockets, tuners, DC power cords, cables, roller guides, roof pods/speaker enclosures, mounting brackets, bushings, gaskets/seals, AC adaptors, remote controls, mesh grilles, headphone/jacks/covers, plates, fasteners, speakers, antennas and leads, housings, AM-FM radio/cassettes, radios, video cassette players, compact disk players, color televisions (5, 9, 13 inch), microwave ovens, alarms, liquid crystal display modules, flexible monitors and 12" flat panel TV screens, cabinets, door locks, knobs, cam and reel gears, and idler plates (duty rate range: free-4.9%). Additional foreign-sourced finished products to be distributed domestically include: Color televisions, video cameras, public address systems, marine radios, microphones, rechargeable flashlights, installation kits, headphones, and 12 volt car vacuum cleaners (duty rate range: free-12.5%).

FTZ procedures would exempt ASA from Customs duty payments on the foreign components used in export production. On its domestic sales, the company would be able to choose the duty rates that apply to finished motor vehicle audio and audio-visual products (duty free-4.4%) for the foreign inputs noted above. On ASA's automotive original equipment sales, the motor vehicle duty rate (2.5%) may be applied to the finished automotive audio/video products that are shipped in-bond to U.S. motor vehicle assembly plants with subzone status. The application indicates that subzone status would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address

below. The closing period for their receipt is October 23, 2000. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to November 6, 2000).

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations.

Office of the Port director, U.S. Customs Service-Chicago, 610 Canal Street, Chicago, IL 60607

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 4008, 14th Street & Pennsylvania Avenue, NW, Washington, DC 20230-0002

Dated: August 14, 2000.

Dennis Puccinelli,

Executive Secretary.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Dockets 49-2000 and 50-2000]

Foreign-Trade Zone 61—San Juan, Puerto Rico, Expansion of Facilities and Manufacturing Authority—Subzone 61D, 61E, Merck, Sharp & Dohme Quimica Plants (Pharmaceuticals); Arecibo and Barceloneta, Puerto Rico

Applications have been submitted to the Foreign-Trade Zones Board (the Board) by the Puerto Rico Exports Development Corporation (PREDC) (formerly known as the Commercial and Farm Development Corporation of Puerto Rico), grantee of FTZ 61, requesting on behalf of Merck, Sharp & Dohme Quimica de Puerto Rico, Inc. (MSD), to add capacity and to expand the scope of manufacturing authority under zone procedures within Subzone 61D and 61E, at the MSD plants in Arecibo and Barceloneta, Puerto Rico. The applications were formally filed on August 10, 2000.

Subzone 61D was approved by the Board in 1995 at a single site (1 bldg./150,000 sq. ft. on 18.45 acres) located at Km. 60, Road PR-2, in the municipality of Arecibo, Puerto Rico, with authority granted for the manufacture of finished pharmaceuticals (Board Order 741, 60 FR 27272, 5/23/95). MSD is now proposing to expand acreage, add 2 buildings and expand the existing building. The proposed subzone would then include 3 bldgs. consisting of

286,000 sq. ft. (a 90% increase) on 38.18 acres.

Subzone 61E was approved by the Board in 1995 at a single site (76 bldgs./440,616 sq. ft. on 221 acres) located at Road PR-2, Km. 57, in the municipality of Barceloneta, Puerto Rico, with authority granted for the manufacture of pharmaceutical bulk chemicals and intermediates used in Merck's human and animal health products and finished animal health and agricultural chemical products for its AgVet (agricultural/veterinary) Division (Board Order 742, 60 FR 27272, 5/23/95). MSD is now proposing to add 16 buildings and expand existing buildings. The proposed subzone would then include 92 bldgs. consisting of 504,756 sq. ft. (a 15% increase) on 221 acres.

The applications also request to expand the scope of authority for manufacturing activity conducted under FTZ procedures at Subzone 61D and Subzone 61E to include additional general categories of inputs that have recently been approved by the Board for other pharmaceutical plants. They include chemically pure sugars, empty capsules for pharmaceutical use, protein concentrates, natural magnesium phosphates and carbonates, gypsum, anhydrite and plasters, petroleum jelly, paraffin and waxes, sulfuric acid, other inorganic acids or compounds of nonmetals, ammonia, zinc oxide, titanium oxides, fluorides, chlorates, sulfates, salts of oxometallic acids, radioactive chemical elements, compounds of rare earth metals, acyclic hydrocarbons, derivatives of phenols or peroxides, acetals and hemiacetals, phosphoric esters and their salts, diazo-compounds, glands for therapeutic uses, wadding, gauze and bandages, pharmaceutical glaze, hair preparations, lubricating preparations, albumins, prepared glues and adhesives, catalytic preparations, diagnostic or laboratory reagents, prepared binders, acrylic polymers, self-adhesive plates and sheets, other articles of vulcanized rubber, plastic cases, cartons, boxes, printed books, brochures and similar printed matter, carboys, bottles, and flasks, stoppers, caps, and lids, aluminum foil, tin plates and sheets, taps, cocks and valves, and medical instruments and appliances.

FTZ procedures would exempt MSD from Customs duty payments on the foreign components used in export activity. On its domestic sales, the company would be able to elect the duty rates that applies to finished products (primarily duty-free for finished pharmaceuticals and up to 14.6% for intermediates) for the foreign materials noted above (duty rates ranging from

duty-free to 14.5%). The application indicates that the expanded use of FTZ procedures will help improve MSD's international competitiveness.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is October 23, 2000. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to November 6, 2000).

Copies of the applications will be available for public inspection at the following locations:

U.S. Department of Commerce, Export Assistance Center, 525 F.D. Roosevelt Ave., Suite 905, San Juan, PR 00918
Office of the Executive Secretary,
Foreign-Trade Zones Board, Room 4008, U.S. Department of Commerce, 14th Street and Pennsylvania Avenue, NW, Washington, DC 20230.

Dated: August 14, 2000.

Dennis Puccinelli,
Executive Secretary.

Brake Rotors from the People's Republic of China: Notice of Extension of Time Limits for the Preliminary and Final Results of the Fourth New Shipper Antidumping Duty Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On June 29, 2000, the two respondents in this proceeding agreed to waive the time limits in order that the Department of Commerce may conduct the fourth new shipper review concurrent with the third annual administrative review of the antidumping duty order on brake rotors from the People's Republic of China. Therefore, in accordance with 19 CFR 351.214(j)(3) and 351.213(h)(1), we intend to issue the preliminary results of the fourth new shipper review not later than 245 days after the last day of the anniversary month of the order and the final results 120 days after the date on which notice of the preliminary results are published in the **Federal Register**.

EFFECTIVE DATE: August 23, 2000.

FOR FURTHER INFORMATION CONTACT:

Brian Smith or Brian Ledgerwood, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-1766 or (202) 482-3836, respectively.

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce ("the Department") regulations are to 19 CFR part 351 (April 2000).

SUPPLEMENTARY INFORMATION: On June 2, 2000, in accordance with 19 CFR 351.214(d) and 351.213(b), the Department initiated the fourth new shipper review and third administrative review of the antidumping duty order on brake rotors from the People's Republic of China ("PRC"), respectively. (See 65 FR 35322 and 65 FR 35320, respectively.) On June 29, 2000, Hongfa Machinery (Dalian) Co., Ltd. ("Hongfa") and Luoyang Haoxiang Brake Disc Factory ("Luoyang") agreed to waive the time limits in order that the Department, pursuant to 19 CFR 351.214(j)(3), may conduct the fourth new shipper review concurrent with the third annual administrative review of this order for the period April 1, 1999 through March 31, 2000. Because the date which is 245 days after the last day of the anniversary month falls on a weekend, we intend to issue the preliminary results, in accordance with 19 CFR 351.214(j)(3) and 351.213(h)(1), on the following business day, January 2, 2001. We also intend to publish the final results 120 days after the date on which notice of the preliminary results is published in the **Federal Register**.

This notice is in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.214(d).

Dated: August 16, 2000.

Richard Moreland,
Deputy Assistant Secretary, Import Administration.
