

practices) that are developed or adopted by voluntary consensus standards bodies. The NTTAA directs EPA to provide Congress, through OMB, explanations when the Agency decides not to use available and applicable voluntary consensus standards.

This direct final rule provides an extension of deadline for use of certain analytical test methods for the RFG program until such time as a notice-and-comment rulemaking to establish performance-based analytical test methods is completed. Today's action does not establish new technical standards or analytical test methods, although it does update existing alternative ASTM test methods to their current versions. To the extent that this action allows the use of standards developed by voluntary consensus bodies (such as ASTM) this direct final rule furthers the objectives of the NTTAA. The Agency plans to address the objectives of the NTTAA more broadly in the upcoming rulemaking to establish performance-based analytical test methods.

#### *I. Submission to Congress and the General Accounting Office*

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2). This direct final rule will be effective October 16, 2000.
