II. Background

The first official Tribal Pesticide Program Council (TPPC) meeting was held in January 2000 in Washington, DC. The TPPC was founded, based on tribal needs, views and goals, to provide Tribes with a voice in national pesticide policy and issues. Native Ecology Initiative (NEI), a non-profit organization, was awarded the EPA cooperative agreement to form the TPPC. The formation of the TPPC has

created a strong mechanism for communication between tribes and EPA, which has led to a more effective way for tribal members to share with EPA staff their real world experience with pesticide issues in Indian country.

Summary of Terms and Conditions of Proposed General Permit

A. Facility Coverage. The draft permit would cover Concentrated Animal Feeding Operations (CAFOs as defined in 40 CFR 122.23(b)) in Arizona and in Indian Country lands as set forth in Part II Section A of the permit. CAFOs which have received notice to apply for an individual permit from EPA would not be eligible for coverage under the draft permit. EPA may, pursuant to 40 CFR 122.23(c), designate an animal feeding operation as a CAFO if EPA determines that the operation is a significant contributor of pollution to the waters of the United States. Facilities that are designated as CAFOs under that provision may be eligible for coverage under this permit. An owner or operator of a CAFO eligible for coverage under the general permit may apply for an individual permit rather than seek coverage under the general permit.

An owner or operator of a CAFO seeking coverage under the general permit would be required to submit a Notice of Intent (NOI) to EPA, and to the Arizona Department of Environmental Quality (ADEQ) or the appropriate Indian Tribe. A NOI for an existing CAFO would have to be submitted within 180 days after the effective date of the permit. An owner or operator seeking coverage for a new facility would be required to submit a NOI, and additional information identified in Appendix C of the permit, at least
