The purpose of this notice is to allow an additional 30 days for public comment.

5 CFR 1320.5 (General requirements) Reporting and Recordkeeping Requirements: Final Rule requires that the agency inform the potential persons who are to respond to the collection of information that such persons are not required to respond unless it displays a currently valid OMB control number.

Proposed Collection: Title: Evaluation of the NIDCD Partnership Program. Type of Information Collection Request: NEW. Need and Use of Information Collection: The NIDCD was established to support biomedical and behavioral research and research training in

The proposed survey will yield data about: (1) reasons for participation in the program; (2) satisfaction of participants with the program and (3) how participation in the program has lead to the pursuit of a career in the health field. This survey will track the Partnership Program's success at increasing the number of women and minorities who are scientists. **Frequency of Response:** One. **Affected Public:** Individuals. **Type of Respondent:** Partnership Program Participants. The annual reporting burden is as follows: **Estimated Number of Respondents:** 76; **Estimated Number of Responses per Respondent:** 1; **Average Burden Hours Per Response:** 0.5; and **Estimated Total Annual Burden Hours Requested:** 38. The annualized cost to respondents is estimated at: \$380. There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.

Note: The following table is acceptable for the Respondent and Burden Estimate Information, if appropriate, instead of the text as shown above.

Type of respondents	Estimated number of respondents	Estimated number of responses per respondent	Average burden hours per response	Estimated total annual burden hours requested

Follow up survey of participant	60	1	0.5	30
Total	76			38

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for fulfillment of the NIDCD mission, including whether the information will have practical utility; (2) the accuracy of the estimate of the burden of the proposed data collection, including the validity of the methodology; (3) ways to enhance the quality, utility, and clarity of the

data collection and (4) ways to minimize the burden of the collection of information on the respondents, including appropriate use of automated collection techniques and information technology.
