

On August 21, 2000, the license for HCGS, to the extent held by PSE&G, was transferred to PSEG Nuclear Limited Liability Company (PSEG Nuclear). By letter dated September 6, 2000, PSEG Nuclear stated that they have assumed responsibility for the active items on the Hope Creek docket previously submitted by PSE&G as of the date of the transfer.

The proposed amendment would have revised the technical specifications to increase the allowable leak rate of the main steam isolation valves (MSIV) and delete the MSIV Sealing System.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on February 10, 1999 (64 FR 6707). However, by letter dated August 29, 2000, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated December 28, 1998, and the licensee's letter dated August 29, 2000, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

## OFFICE OF PERSONNEL MANAGEMENT

### Federal Employees Health Benefits Program: Medically Underserved Areas for 2001

**AGENCY:** Office of Personnel Management.

**ACTION:** Notice of medically underserved areas for 2001.

**SUMMARY:** The Office of Personnel Management (OPM) has completed its annual determination of the States that qualify as Medically Underserved Areas under the Federal Employees Health Benefits (FEHB) Program for the calendar year 2001. This is necessary to comply with a provision of the FEHB law that mandates special consideration for enrollees of certain FEHB plans who receive covered health services in States with critical shortages of primary care physicians. Accordingly, for calendar year 2001, OPM's calculations show that the following States are Medically Underserved Areas under the FEHB Program: Alabama, Idaho, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, South Carolina, South Dakota, Utah, and Wyoming. The 2001 list is identical to the 2000 list, except we have removed North Dakota from the list for calendar year 2001.

**EFFECTIVE DATE:** January 1, 2001.

**FOR FURTHER INFORMATION CONTACT:** Ingrid Burford, 202-606-0004.

**SUPPLEMENTARY INFORMATION:** FEHB law (5 U.S.C. 8902(m)(2)) mandates special consideration for enrollees of certain FEHB plans who receive covered health services in States with critical shortages of primary care physicians. The FEHB law also requires that a State be designated as a Medically Underserved Area if 25 percent or more of the population lives in an area designated by the Department of Health and Human Services (HHS) as a primary medical care manpower shortage area. Such States are designated as Medically Underserved Areas for purposes of the FEHB Program, and the law requires plan payments to all qualified providers in these States.

FEHB regulations (5 CFR 890.701) require OPM to make an annual determination of the States that qualify as Medically Underserved Areas for the

next calendar year by comparing the latest Department of Health and Human Services State-by-State population counts on primary medical care manpower shortage areas with U.S. Census figures on State resident populations.

## SECURITIES AND EXCHANGE COMMISSION

### Submission for OMB Review; Comment Request

Upon written request, copies available from: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

*Extension:* Rule 2a19-1; SEC File No. 270-294; OMB Control No. 3235-0332.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (the "Commission") has submitted to the Office of Management and Budget a request for extension of the previously approved collection of information discussed below.

Rule 2a19-1 under the Investment Company Act of 1940 (the "Act") provides that investment company directors will not be considered interested persons, as defined by section 2(a)(19) of the Act, solely because they are registered broker-dealers or affiliated persons of registered broker-dealers, provided that the broker-dealer does not execute any portfolio transactions for the company's complex, engage in any

principal transactions with the complex or distribute shares for the complex for at least six months prior to the time that the director is to be considered not to be an interested person and for the period during which the director continues to be considered not to be an interested person. The rule also requires the investment company's board of directors to determine that the company would not be adversely affected by refraining from business with the broker-dealer. In addition, the rule provides that no more than a minority of the disinterested directors of the company may be registered broker-dealers or their affiliates.

Before the adoption of Rule 2a19-1, many investment companies found it necessary to file with the Commission applications for orders exempting directors from section 2(a)(19) of the Act. Rule 2a19-1 is intended to alleviate the burdens on the investment company industry of filing for such orders in circumstances where there is no potential conflict of interest. The conditions of the rule are designed to indicate whether the director has a stake in the broker-dealer's business with the company such that he or she might not be able to act independently of the company's management.

The Commission estimates that approximately 3,200 investment companies may choose to rely on rule 2a19-1, and that each investment company may spend one hour annually compiling and keeping records related to the requirements of the rule. The total annual burden associated with the rule is estimated to be 3,200 hours.

The estimate of average burden hours is made solely for the purposes of the Paperwork Reduction Act, and is not derived from a comprehensive or even a representative survey or study of the costs of Commission rules and forms.

Complying with the collection of information requirements of the rule is necessary to obtain the benefit of relying on the rule. Rule 2a19-1 does not require the filing of any information with the Commission. To the extent that records kept in connection with this rule are made available to the Commission's staff as part of the Commission's inspection program, those records are generally kept confidential. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

Written comments regarding the above information should be directed to the following persons: (i) Desk Officer for the Securities and Exchange Commission, Office of Information and
