

Since there are no adversely affected workers of the subject firm, the continuation of the certification would serve no purpose and the certification has been terminated.

Signed at Washington, DC, this 28th day of August 2000.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

Vinson Timber Products, Inc., A/K/A Trout Creek Lumber Products, Trout Creek, MT; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on July 21, 2000, applicable to workers of Vinson Timber Products, Inc., Trout Creek, Montana. The notice will be published soon in the **Federal Register**.

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of dimension lumber (studs and 5/4 lumber). Findings show that workers separated from employment at Vinson Timber Products, Inc. had their wages reported under a separate unemployment insurance (UI) tax account for Trout Creek Lumber Products, Trout Creek Montana.

The intent of the Department's certification is to include all workers of Vinson Timber Products, Inc. who were adversely affected by increased imports. Accordingly, the Department is amending the certification to reflect this matter.

The amended notice applicable to TA-W-37,713 is hereby issued as follows:

All workers of Vinson Timber Products, Inc., also known as Trout Creek Lumber Products, Trout Creek, Montana who became totally or partially separated from employment on or after May 12, 1999 through July 21, 2002 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC this 23rd day of August, 2000.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

Employment Standards Administration

Proposed Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment Standards Administration is soliciting comments concerning the proposed extension collection of the following information collection: Application for Farm Labor Contractor and Farm Labor Contractor Employee Certificate of Registration (WH-530). Copies of the proposed information collection request can be obtained by contacting the office listed below in the addressee section of this Notice.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before November 17, 2000.

ADDRESSES: Ms. Patricia A. Forkel, U.S. Department of Labor, 200 Constitution Ave., NW., Room S-3201, Washington, DC 20210, telephone (202) 693-0339 (this is not a toll-free number), fax (202) 693-1451.

SUPPLEMENTARY INFORMATION:

I. Background

Section 101(a) of the Migrant and Seasonal Workers Protection Act (MSPA) provides that no person shall engage in any farm labor contracting activity unless such person has a certificate of registration from the Secretary of Labor specifying which farm labor contracting activities such

person is authorized to perform. Further, Section 102(b) of MSPA provides that a farm labor contractor shall not hire, employ or use any individual to perform farm labor contracting activities unless such individual has a certificate of registration as a farm labor contractor, or a certificate of registration as an employee of a farm labor contractor employer, which authorizes the activity for which the individual is hired, employed or used.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The Department of Labor seeks the extension of approval to collect this information in order to provide the means for a farm labor contractor or a farm labor contractor employee to obtain a certificate authorizing farm labor employment under the Act.

SUPPLEMENTARY INFORMATION:

I. Background

The Covered Employment and Wages (ES-202) Program is a Federal/State cooperative effort which compiles monthly employment data, quarterly wage data, and business identification information from employers subject to State Unemployment Insurance (UI) laws. These data are collected from State Quarterly Contribution Reports submitted to State Employment Security Agencies (SESAs). The States send micro-level employment and wages data, supplemented with the names, addresses, and business identification information of these employers, to the BLS. These States' data are used to create the BLS business establishment sampling frame, known as the Business Establishment List. This file represents the best source of detailed industrial and geographical data on employers and is used as the sampling frame for most BLS surveys. The Business Establishment List includes individual employers' employment and wages data along with associated business identification information that is maintained by each State to administer the UI program as well as the Unemployment Compensation for Federal Employees (UCFE) program.

The ES-202 Report, produced for each calendar quarter, is a summary of these employer (micro-level) data by industry at the county level. Similar data for Federal Government employees covered by the UCFE Program also are included in each State report. These data are submitted by all 50 States, the District of Columbia, Puerto Rico, and the Virgin Islands to the BLS which then summarizes these macro-level data to produce totals for the States and the Nation. The ES-202 Report provides a virtual census of nonagricultural employees and their wages, with about 47 percent of the workers in agriculture covered as well.

For employers having only a single physical location (worksite) in the State and, thus, operating under a single assigned industrial and geographical code, the data from the States' UI accounting files are sufficient for statistical purposes. Such data, however, are not sufficient for statistical purposes for those employers having multiple establishments or engaged in different industrial activities within the State. In such cases, the employer's Quarterly Contributions Report reflects only Statewide employment and wages and is not disaggregated by establishment or worksite. Although data at this level are sufficient for many purposes of the UI Program, more

detailed information is required to create a sampling frame and to meet the needs of several ongoing Federal/State statistical programs. As a result of the Multiple Worksite Report, improved establishment identification data elements have been incorporated into and maintained on the Business Establishment List. Establishment identification data elements that are included in the Business Establishment List are a physical location address, secondary name (trade name, division, subsidiary, etc.), and reporting unit description (store number, plant name or number, etc.) for each worksite of multi-establishment employers.

Employers with more than one establishment reporting under the same UI account number within a State are requested to complete the Multiple Worksite Report if the sum of the employment in all of their secondary establishments is ten or greater. The primary worksite is defined as the establishment with the greatest number of employees. Upon receipt of the first Multiple Worksite Report form, each employer is requested to supply business location identification information. Thereafter, this reported information is computer printed on the Multiple Worksite Report each quarter. The employer is requested to verify the accuracy of this business location identification information and to provide only the employment and wages for each worksite for that quarter. By using a standardized form, the reporting burden on many large employers, especially those engaged in multiple economic activities at various locations across numerous States, has been reduced.

Comparable to the Multiple Worksite Report, the function of the Report of Federal Employment and Wages is to collect employment and wage data for each installation of federal agencies. The Report of Federal Employment and Wages aids in the development and maintenance of business identification information by installation. The Report of Federal Employment and Wages was modeled after the Multiple Worksite Report and is used only to collect data from Federal agencies covered by the UCFE program.

No other standardized report is available to collect current establishment-level employment and wages data by SESAs each quarter from the private sector nor from State and local governments. Also, no other standardized report currently is available to collect installation-level federal employment and wages data each quarter by SESAs.
