SUPPLEMENTARY INFORMATION:

Title: Information Collection Request for Evaluation of PrintSTEP, EPA ICR Number 1941.01. This is a new collection.

Abstract: Information will be collected for evaluation of the PrintSTEP pilot program. The evaluation aims to systematically identify the impacts the program has had on three types of stakeholders: printers, community residents, and the state government agencies administering the program.

Specifically, the evaluation will determine the extent to which the 7 goals of the pilot program are met. The goals are: enhanced environmental protection; increased use of pollution prevention practices; simplified regulatory process for printers; improved efficiency of administration for state governments; enhanced public involvement; participants' realize benefits and are motivated to participate in PrintSTEP; and, cost effectiveness for all stakeholders.

This broad set of expected outcomes will require a range of distinct data collection and analysis activities. Data will be gathered from printer's program applications, from telephone interviews, from in-person interviews and possibly from focus groups. Data will be collected before implementation, a short time after program implementation, and at the end of the pilot. Responses to the collection of information are voluntary. Names of persons providing information will be not recorded. More information is available in the final draft of the Evaluation Strategy which can be accessed at http://www.epa.gov/ooaujeag/sectors/pdf/pgm_eval.pdf.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d),

soliciting comments on this collection of information was published on March 14, 2000, 65 FR 13748. No comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 15 minutes per response for 530 of the respondents and 2.75 hours for 480 of the respondents. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Printers and Community Members.

Estimated Number of Respondents: 158 Printers, 131 Community Members.

Frequency of Response: Printers—annually; Community Members—1 time only.

Estimated Total Annual Hour Burden: 2,000 hours.

Estimated Total Annualized Capital, Operating/Maintenance Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1941.01 in any correspondence.

Dated: September 18, 2000.

SUPPLEMENTARY INFORMATION:

Title: NSPS Subpart K, Storage Vessels for Petroleum Liquids for Which Construction, Reconstruction, or Modification Commenced after June 11, 1973, and Prior to May 19, 1978, OMB Control No. 2060-0442, EPA ICR No. 1797.02, expiring November 30, 2000.

This is a request for extension of a currently approved collection.

Abstract: The New Source Performance Standards (NSPS) for Storage Vessels for Petroleum Liquids, subpart K was proposed on June 11, 1973 and promulgated on March 8, 1974 (39 FR 9308). These performance standards apply to storage vessels of petroleum liquids for which construction, reconstruction, or modification commenced after June 11, 1973, and prior to May 19, 1978. Facilities subject to this subpart are not exceeding 246,052 liters (65,000 gallons), and commences construction or modification after March 8, 1974, and prior to May 19, 1978; and storage vessel that has a capacity greater than 246,052 liters (65,000 gallons), and commences construction or modification after June 11, 1973, and prior to May 19, 1978. There are approximately 220 respondents, reporting on approximately 5,500 petroleum storage vessels that are subject to this standard.

The Subpart K standards require the owner/operator to document the activities of, the storage period, the maximum true vapor pressure, and the type of petroleum liquid stored. This information is recorded only when a petroleum liquid is changed in the storage vessel. Under the standard, the data collected by the affected industry must be retained at the facility for a minimum of two years, and made available to the Administrator either on request or by inspection.

The information generated by the recordkeeping and reporting requirements described above will be used by the Agency to ensure that facilities affected by the NSPS continue to operate in compliance with the NSPS. Notification of construction, reconstruction and startup will indicate to enforcement personnel when a new affected facility has been constructed and, therefore, is subject to the current NSPS subpart Kb standards. The information collected from the recordkeeping and reporting requirements is also used for targeting inspections, and is of sufficient quality to be used as evidence in court. Information is required to be collected and maintained as follows: records are required to be retained for 2 years, section 60.2; owner/operator shall maintain a record of the petroleum liquid stored, the period of storage and the maximum true vapor pressure of that liquid during the respective storage period, section 60.113; filing a report for construction/reconstruction, section 60.7(a)(1) and filing a report on a

physical or operational change, section 60.7(a)(4).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on April 18, 2000, (65 FR 20813). No comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 170 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/Operators of Storage Vessels for Petroleum Liquids.

Estimated Number of Respondents: 220.

Frequency of Response: Occasionally.

Estimated Total Annual Hour Burden: 678 hours.

Estimated Total Annualized Capital and O&M Cost Burden: \$ 0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1797.02 and OMB Control No. 2060-0442 in any correspondence.

Clean Water Act Class II: Proposed Administrative Settlement, Penalty Assessment and Opportunity To Comment Regarding NEXTLINK Communications, Inc.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has entered into a consent agreement with NEXTLINK Communications, Inc. and its subsidiaries to resolve violations of the Clean Water Act ("CWA"), and its implementing regulations. NEXTLINK failed to prepare Spill Prevention Control and Countermeasure ("SPCC") plans for eleven facilities where they stored diesel oil in above ground tanks. EPA, as authorized by CWA section 311(b)(6), 33 U.S.C. 1321(b)(6), has assessed a civil penalty for these violations. The Administrator, as required by CWA section 311(b)(6)(C), 33 U.S.C. 1321(b)(6)(C), is hereby providing public notice of, and an opportunity for interested persons to comment on, this consent agreement and proposed final order.

DATES: Comments are due on or before October 25, 2000.
