

**DATES:** The meetings will be held between Monday, October 16, 2000 and Tuesday, October 17, 2000. See **SUPPLEMENTARY INFORMATION** for specific dates and times.

**ADDRESSES:** The meetings will be held in Danvers, MA and Peabody, MA. See **SUPPLEMENTARY INFORMATION** for specific locations.

**FURTHER INFORMATION CONTACT:** Paul J. Howard, Executive Director, New England Fishery Management Council; (978)465-0492.

**SUPPLEMENTARY INFORMATION:**

**Meeting Dates and Agendas**

*Monday, October 16, 2000, 10:00 a.m.*—Social Sciences Advisory Committee Meeting

Location: Holiday Inn, One Newbury Street, Route 1, Peabody, MA 01960; telephone: (978) 535-4600.

The SSAC will provide guidance to the Council on proposed public meetings to gather information about the social impacts of Council management actions for the Northeast multispecies fishery since 1994.

*Tuesday, October 17, 2000, 9:30 a.m.*—Groundfish Advisory Panel Meeting.

Location: Sheraton Ferncroft, 50 Ferncroft Road, Danvers, MA 01923; telephone: (781) 245-9300

The Groundfish Advisory Panel will review management measures being developed for Amendment 13 to the Northeast Multispecies Plan and will develop advice on these measures for the Groundfish Oversight Committee. This will include a review of the area management and sector allocation approaches. In addition, they will develop suggestions for the exempted fisheries program, including details for observer coverage of exempted fisheries. If time permits, the Advisory Panel may also develop recommendations on the rebuilding programs for overfished stocks, advice on changes to closed areas and other refinements to the current management measures.

Although non-emergency issues not contained in this agenda may come before this Council (or committee) for discussion, those issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

**Special Accommodations**

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting dates.

Dated: September 25, 2000.

**Richard W. Surdi,**

*Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

**National Oceanic and Atmospheric Administration**

[I.D. 092500D]

**Pacific Fishery Management Council; Public Meeting**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public meeting.

**SUMMARY:** The Pacific Fishery Management Council's (Council) Ad-Hoc Allocation Committee will hold a meeting which is open to the public.

**DATES:** The meeting will begin on Monday, October 23, 2000, at 10 a.m., and may go into the evening until business for the day is completed. The meeting will reconvene at 8 a.m. on Tuesday, October 24, and will adjourn at approximately 5 p.m.

**ADDRESSES:** The meeting will be held at the Doubletree Hotel - Downtown Portland, 310 SW Lincoln, Portland, OR; telephone: (503) 221-0450.

*Council address:* Pacific Fishery Management Council, 2130 SW Fifth Avenue, Suite 224, Portland, OR 97201.

**FOR FURTHER INFORMATION CONTACT:** Jim Glock, Fishery Management Coordinator, telephone: (503) 326-6352.

**SUPPLEMENTARY INFORMATION:** The purpose of the meeting is to develop recommendations for allocations and other management measures involved in rebuilding plans for canary rockfish, cowcod and other overfished species. The committee will review the current catch levels of lingcod, bocaccio and canary rockfish and may propose inseason adjustments; review proposed 2001 harvest levels for all groundfish species; review draft rebuilding plans for canary rockfish and cowcod. The committee will review management options for 2001, preliminary impact

analysis and results of stakeholder meetings; develop recommendations for 2001 management and inseason management adjustments for 2000; and will provide direction to Council staff, Groundfish Management Team, Groundfish Advisory Subpanel, and other Council entities as needed. Committee recommendations will be presented to the Council at its October-November meeting.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

**Special Accommodations**

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 326-6352 at least 5 days prior to the meeting date.

Dated: September 25, 2000.

**BILLING CODE 3510-22-S**

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

[I.D. 092500A]

**Endangered Species; Permits**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Receipt of an application for a scientific research permit (1228) and for modifications to scientific research permits (1025, 1059); Issuance of a scientific research/enhancement permit (1129), and a scientific research permit (1234).

**SUMMARY:** Notice is hereby given of the following actions regarding permits for takes of endangered or threatened species for the purposes of scientific research and/or enhancement: NMFS has received a permit application from Peter Weber of Berkeley, CA (WEBER) (1228); NMFS has received applications

for modifications to existing permits from the California Department of Fish and Game, Native Anadromous Fish and Watershed Branch, Sacramento, CA (CDFG)(1025) and Carl Page of Cotati, CA (PAGE)(1059); NMFS has issued scientific research permit 1234 to Mr. Joseph Hightower, of North Carolina Cooperative Fish and Wildlife Research Unit (NCCFWR) (1234); NMFS has issued a scientific research/enhancement permit to the Washington Department of Fish and Wildlife at Olympia, WA (WDFW) (1129).

**DATES:** Comments or requests for a public hearing on any of the new applications or modification requests must be received at the appropriate address or fax number no later than 5pm eastern standard time on October 30, 2000.

**ADDRESSES:** Written comments on any of the new applications or modification requests should be sent to the appropriate office as indicated here. Comments may also be sent via fax to the number indicated for the application or modification request. Comments will not be accepted if submitted via e-mail or the Internet. The applications and related documents are available for review in the indicated office, by appointment:

Protected Resources Division, NMFS, 777 Sonoma Avenue, Room 325, Santa Rosa, CA 95404-6528 (707 575-6053).

Written comments or requests for a public hearing should be submitted to the Protected Resources Division in Santa Rosa, CA.

**FOR FURTHER INFORMATION CONTACT:** For permit 1129: Robert Koch, Portland, OR (503-230-5424, fax: 503-230-5435, e-mail: robert.koch@noaa.gov).

For permit 1234: Terri Jordan, Silver Spring, MD, (301-713-1401 x148, fax: 301-713-0376, email: Terri.Jordan@noaa.gov).

For permits 1025, 1059, and 1228: Permits Coordinator, Protected Resources Division, Santa Rosa, CA (Phone: 707-575-6053).

#### **SUPPLEMENTARY INFORMATION:**

##### **Authority**

Issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) (ESA), is based on a finding that such permits/modifications: (1) are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the

permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222-226).

Those individuals requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

#### **Species Covered in This Notice**

The following species and evolutionarily significant units (ESU's) are covered in this notice:

Sockeye salmon (*Oncorhynchus nerka*): endangered Snake River (SnR);

Chinook salmon (*O. tshawytscha*): threatened SnR spring/summer, threatened SnR fall.

Steelhead (*O. mykiss*): threatened SnR.

Endangered Sacramento River Winter-run chinook salmon (*Oncorhynchus tshawytscha*);

Endangered, Southern CA Coast (SoCC) steelhead (*Oncorhynchus mykiss*); and

Shortnose sturgeon (*Acipenser brevirostrum*).

#### **New Application Received**

WEBER (1228) requests a research permit to obtain up to 50 incidental mortalities of juvenile endangered Sacramento River Winter-run chinook salmon (*Oncorhynchus tshawytscha*) per year for 5 years from NMFS-permitted researchers. The goal of WEBER'S study is to identify geochemical markers that can be used to determine the origin and outmigration history of juvenile chinook salmon in the Sacramento-San Joaquin system. If naturally occurring markers are identified, they could benefit winter-run chinook salmon by providing additional information on their life history, threats to their survival, and limiting factors in their recovery. WEBER proposes to analyze otoliths using various methods of spectrometry.

#### **Modifications Requests Received**

CDFG requests modification 4 to permit 1025 for authorization to increase capture/handle take of juvenile, endangered Sacramento River Winter-run chinook salmon associated with extant fish population studies in the Sacramento River. ESA-listed salmonids

are observed or captured, anesthetized, handled for measurement, allowed to recover from anesthetic and then released. Modification 4 would increase the authorized annual capture/handle take of juvenile winter-run chinook salmon to 30,000. An increase in indirect mortalities to 750 is also requested. Modification 4 is requested to be valid for the duration of permit (1025), which expires on June 30, 2001.

PAGE requests modification 1 to permit 1059 for takes of adult and juvenile, endangered, Southern California Coast (SoCC) steelhead (*Oncorhynchus mykiss*) associated with presence/absence surveys, population studies, spawner surveys - including the handling and sampling of carcasses, and habitat surveys. Juvenile and adult SoCC steelhead will be trapped, measured, sampled for tissues, and released. PAGE is currently authorized to take SoCC steelhead associated with fish population and habitat studies in coastal drainages throughout California. Modification 1 of permit 1059 would decrease the observe/harass and capture/handle take of juvenile SoCC steelhead and increase the capture/handle take of adult SoCC steelhead authorized in permit 1059. The modification would also include the addition of several new study sites in coastal streams for the purpose of collecting data on the distribution and abundance of steelhead within the SoCC ESU. Modification 1 is requested to be valid for the duration of permit (1059), which expires on June 30, 2003.

#### **Permits Issued**

Notice was published on March 24, 1998 (63 FR 14069), and March 9, 1999 (64 FR 11444), that WDFW applied for a scientific research/enhancement permit. Permit 1129 was issued to WDFW on July 25, 2000. Permit 1129 authorizes WDFW annual takes of adult and juvenile, threatened, naturally produced and artificially propagated, SnR spring/summer chinook salmon associated with a hatchery supplementation program and a captive broodstock programs are for the Tucannon River spring chinook salmon population. The objectives of WDFW's supplementation and captive broodstock programs are to: (1) enhance the number of potential spawners in the natural environment; (2) preserve the genetic integrity of the stock to prevent extinction; and (3) stop the decline in run sizes and eventually, to rebuild the natural population over time. For the supplementation program, WDFW will retain a percentage of the adult salmon that return to the Tucannon River each year for broodstock and release all of the

adult salmon not retained for broodstock above the adult trap to spawn naturally. ESA-listed adult salmon retained for broodstock will be transported to WDFW's Tucannon River Fish Hatchery and/or Lyons Ferry Fish Hatchery and spawned. The resulting progeny will be reared in the hatcheries and released as smolts when ready to outmigrate to the ocean. For the captive broodstock program, ESA-listed juvenile fish will be retained in the hatcheries, reared to adulthood, and spawned in the hatchery environment as a means of protecting the genetic integrity of the run. Permit 1129 also allows a limited use of remote site incubators to reseed the uppermost reaches of the Tucannon River with spring chinook salmon eggs and fry to aid in the long-term recovery and rebuilding of the run. Annual incidental takes of endangered SnR sockeye salmon, threatened SnR fall chinook salmon, and threatened SnR steelhead associated with WDFW's hatchery operations and juvenile fish releases from WDFW's hatchery supplementation program are also authorized. Permit 1129 expires on December 31, 2003.

Notice was published on February 16, 2000 (65 FR 7854) that Mr. Joseph Hightower, of NCCFWR applied for a scientific research permit (1234). The applicant has requested a 5-month permit to take up to 10 shortnose sturgeon in the Roanoke River, North Carolina. The take is needed to answer questions regarding impacts of the Roanoke and Gaston dams on anadromous fishes are required by the Federal Energy Regulatory Commission relicensing process. No shortnose sturgeon have been recorded as being taken from the Roanoke River; however, sampling effort has been low. The North Carolina Department of Marine Fisheries captured one shortnose sturgeon in Bachelor's Bay (in western Albemarle Sound, near the mouth of the Roanoke River) in April 1998. The Final Recovery Plan for shortnose sturgeon mandates that surveys be conducted to identify and determine the status of extant populations of shortnose sturgeon. Permit 1234 was issued on September 19, 2000, authorizing take of listed species. Permit 1234 expires April 30, 2001.

Dated: September 25, 2000.

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### Adjustment of Import Limits for Certain Cotton and Wool Textile Products Produced or Manufactured in Guatemala

September 25, 2000.

**AGENCY:** Committee for the Implementation of Textile Agreements (CITA).

**ACTION:** Issuing a directive to the Commissioner of Customs increasing limits.

**EFFECTIVE DATE:** September 29, 2000.

**FOR FURTHER INFORMATION CONTACT:** Naomi Freeman, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port, call (202) 927-5850, or refer to the U.S. Customs website at <http://www.customs.gov>. For information on embargoes and quota re-openings, call (202) 482-3715.

#### SUPPLEMENTARY INFORMATION:

**Authority:** Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The current limits for Categories 347/348 and 443 are being increased for carryforward.

A description of the textile and apparel categories in terms of HTS numbers is available in the **CORRELATION:** Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 64 FR 71982, published on December 22, 1999). Also see 64 FR 54868, published on October 8, 1999.

**D. Michael Hutchinson,**

*Acting Chairman, Committee for the Implementation of Textile Agreements.*

#### Committee for the Implementation of Textile Agreements

September 25, 2000.

Commissioner of Customs,  
*Department of the Treasury, Washington, DC 20229.*

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on October 4, 1999, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textile products, produced or manufactured in Guatemala and exported during the period which began on January 1,

2000 and extends through December 31, 2000.

Effective on September 29, 2000, you are directed to increase the current limits for the following categories, as provided for under the Uruguay Round Agreement on Textiles and Clothing:

Category	Adjusted twelve-month limit <sup>1</sup>
347/348 .....	2,219,448 dozen.
443 .....	81,719 numbers.

<sup>1</sup> The limits have not been adjusted to account for any imports exported after December 31, 1999.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

D. Michael Hutchinson,

*Acting Chairman, Committee for the Implementation of Textile Agreements.*
