Notice of Intent To Repatriate Cultural Items in the Possession of the Haffenreffer Museum of Anthropology, Brown University, Bristol, RI

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given under the Native American Graves Protection and Repatriation Act, 43 CFR 10.10 (a)(3), of the intent to repatriate cultural items in the possession of the Haffenreffer Museum of Anthropology, Brown University, Bristol, RI that meet the definition of "unassociated funerary object" under Section 2 of the Act.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these cultural items. The National Park Service is not responsible for the determinations within this notice.

The 180 cultural items consist of beads, lithic arrowheads, bottles, spoons, other metal objects and fragments, mat and blanket fragments, a pipe, and pipe fragments.

Around 1918, Rudolf Haffenreffer began collecting Burr's Hill human remains and objects by purchase from local collectors and by exchange with the Museum of the American Indian (Heye Foundation).

Burr's Hill is believed to be located on the southern border of Sowams, a Wampanoag village. Sowams is identified in historic documents of the 17th and 18th centuries as a Wampanoag village, and was ceded to the English in 1653 by Massasoit and his eldest son Wamsutta (Alexander). Based on the presence of European trade goods and types of cultural items, these cultural items have been dated to between A.D. 1600-1710. Based on accession records and condition of the cultural items, these cultural items have been determined to be grave goods.

Based on the above-mentioned information, officials of the Haffenreffer Museum of Anthropology have determined that, pursuant to 43 CFR 10.2 (d)(2)(ii), these 180 cultural items are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual. Officials of the Haffenreffer Museum of Anthropology also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these items and the Wampanoag Repatriation Confederation, representing the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag (a non-Federally recognized Indian group), and the Assonet Band of the Wampanoag Nation

(a non-Federally recognized Indian group). This notice has been sent to officials of the Wampanoag Repatriation Confederation, representing the Wampanoag Tribe of Gay Head, the Mashpee Wampanoag (a non-Federally recognized Indian group), and the Assonet Band of the Wampanoag Nation (a non-Federally recognized Indian group), the Narragansett Indian Tribe of Rhode Island, and the Council of Seven/Royal House of Pokanoket/Pokanoket Tribe/Wampanoag Nation (a non-Federally recognized Indian group). Representatives of any other Indian tribe that believes itself to be culturally affiliated with these unassociated funerary objects should contact Thierry Gentis, NAGPRA Coordinator, Haffenreffer Museum of Anthropology, Mount Hope Grant, Bristol, RI 02805, telephone (401) 253-8388, facsimile (401) 253-1198, before November 1, 2000. Repatriation of these unassociated funerary objects to the Wampanoag Repatriation Confederation, representing the Wampanoag Tribe of Gay Head, the Mashpee Wampanoag (a non-Federally recognized Indian group), and the Assonet Band of the Wampanoag Nation (a non-Federally recognized Indian group) may begin after that date if no additional claimants come forward.

Dated: September 21, 2000.

John Robbins,

Assistant Director, Cultural Resources Stewardship and Partnerships.

Notice of Intent To Repatriate Cultural Items in the Possession of the Rhode Island Historical Society, Providence, RI

AGENCY: National Park Service.

ACTION: Notice.

Notice is hereby given under the Native American Graves Protection and Repatriation Act, 43 CFR 10.10 (a)(3), of the intent to repatriate cultural items in the possession of the Rhode Island Historical Society, Providence, RI that meet the definition of "unassociated funerary object" under Section 2 of the Act.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency

that has control of these cultural items. The National Park Service is not responsible for the determinations within this notice.

The four cultural items are two latten spoons and two small copper bells.

In 1800, these four cultural items were recovered from burials during excavations conducted by person(s) unknown at the Burr's Hill site, Warren, RI. In 1835, these cultural items were purchased by the Rhode Island Historical Society from "Chesebrough." Museum documentation identifies these spoons as having come from an Indian interment. No further documentation is present.

Burr's Hill is believed to be located on the southern border of Sowams, a Wampanoag village. Sowams is identified in historical documents of the 16th and 17th centuries as a Wampanoag village, and was ceded to the English in 1653 by Massasoit and his eldest son Wamsutta (Alexander). Sporadic finds and excavations have been made at this site since the middle of the 19th century through the early 20th century. Based on the presence of European trade goods and types of cultural items, these cultural items have been dated to between A.D. 1600–1710. Based on accession records and condition of the cultural items, these cultural items have been determined to be grave goods.

Based on the above-mentioned information, officials of the Rhode Island Historical Society have determined that, pursuant to 43 CFR 10.2 (d)(2)(ii), these four cultural items are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of an Native American individual. Officials of the Rhode Island Historical Society also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these items and the Wampanoag Repatriation Confederation, representing the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag (a non-Federally recognized Indian group), and the Assonet Band of the Wampanoag Nation (a non-Federally recognized Indian group). This notice has been sent to officials of the Wampanoag Repatriation Confederation, the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag (a non-Federally recognized Indian group), the Assonet Band of the Wampanoag Nation (a non-Federally

recognized Indian group), the Narragansett Indian Tribe of Rhode Island, and the Council of Seven/Royal House of Pokanoket/Pokanoket Tribe/Wampanoag Nation (a non-Federally recognized Indian group). Representatives of any other Indian tribe that believes itself to be culturally affiliated with these unassociated funerary objects should contact Linda Eppich, Chief Curator, The Rhode Island Historical Society, 110 Benevolent Street, Providence, RI 02906, telephone (401) 331–8575, before November 1, 2000. Repatriation of these unassociated funerary objects to the Wampanoag Repatriation Confederation, representing the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag (a non-Federally recognized Indian group), and the Assonet Band of the Wampanoag Nation (a non-Federally recognized Indian group) may begin after that date if no additional claimants come forward.

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from Iowa in the Possession of the State Historical Society of Iowa, Des Moines, IA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.2 (d)(1), of the completion of an inventory of human remains and associated funerary objects in the possession of the State Historical Society of Iowa, Keyes Collection, Des Moines, IA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by the Office of the State Archaeologist of Iowa professional staff in consultation with representatives of the Three Affiliated Tribes of the Fort Berthold Reservation, North Dakota.

In 1934 and 1939, human remains representing 10 Mill Creek individuals were excavated from site 13PM1, Broken Kettle, Plymouth County, northwestern Iowa, by Ellison Orr, under the direction of Charles R. Keyes. No known individuals were identified. The 89 associated funerary objects include clamshells, pottery fragments, a chert flake, and a fire-cracked rock.

In 1939, human remains representing nine individuals were excavated from the Kimball site, 13PM4, Plymouth County, northwestern Iowa, by Ellison Orr, under the direction of Charles R. Keyes. No known individuals were identified. No associated funerary objects are present.

In 1934, human remains representing six individuals were excavated from site 13PM127, Ossuary 2, Plymouth County, northwestern Iowa, by Ellison Orr, under the direction of Charles R. Keyes. No known individuals were identified. No associated funerary objects are present.

The human remains and associated funerary objects included in this notice were recovered from excavations undertaken by Charles R. Keyes and Ellison Orr in northwestern Iowa between 1934 and 1939. They now form part of the Charles R. Keyes Archaeological Collection. Based on archeological and biological evidence, and similarities in material culture, these sites and remains have been identified as belonging, or probably belonging, to the Mill Creek cultural group that occupied this area in the 12th and 13th centuries. The Mandan and Hidatsa peoples are believed to be possibly culturally affiliated with the Mill Creek based on tenuous continuities of material culture and historical documents.

Based on the above-mentioned information, officials of the State Historical Society of Iowa have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of 25 individuals of Native American ancestry. Officials of the State Historical Society of Iowa also have determined that, pursuant to 43 CFR 10.2 (d)(2), the 89 objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the State Historical Society of Iowa have
