

ownership information of the applicant. See 47 CFR 1.919. Therefore, unless the applicant already has a current FCC Form 602 on file with the Commission, the applicant must submit one at the time the FCC Form 601 is filed. Any late-filed FCC Form 602 must contain a request for waiver of the filing requirement in 47 CFR 1.919.

18. FCC Form 602 must be filed manually (not electronically), and may be obtained from the Internet at <http://www.fcc.gov/formpage.html> or by calling the FCC's Form Distribution Center at 1-800-418-FORM (3676). For more detailed information on FCC Form 602, see "Wireless Telecommunications Bureau Answers Frequently Asked Questions Concerning Reporting of Ownership Information on FCC Form 602," *Public Notice*, DA 99-1001 (14 FCC Rcd. 8261) 1999.

Applicants that do not have a current FCC Form 602 on file should send the form to: Federal Communications Commission, 1270 Fairfield Road, Gettysburg, PA 17325-7245.

19. Filing FCC Form 602 is a *separate* requirement from, and in addition to, the ownership reporting requirements associated with filing FCC Form 601, Exhibit A, as set forth in Attachment D of the Public Notice. However, to avoid duplication, applicants may provide certain information required in Exhibit A by attaching a copy of their FCC Form 602 (in Adobe PDF Format) to their FCC Form 601 submission. Applicants are reminded, however, that an original FCC Form 602 still must be filed manually in Gettysburg, PA. For further information, see Instructions in Attachment D of the Public Notice.

I. Applications for Multiple Licenses

20. Applicants may submit one FCC Form 601 Main Form, Schedule B, and Form 602 for multiple licenses if all filing information (name and address information, all ownership and eligibility attachments, and waiver requests) associated with the application is identical. Licensing information such as market designator, channel block, and/or market name may be different (*i.e.* WXMEA001A and WXMEA001B- Boston, MA; WXMEA022A—Knoxville, TN).

21. Filers whose name and address, ownership, eligibility, and waiver requests are identical for some licenses but different for other licenses must submit a separate Form 601 and 602 for those licenses for which filing information is unique. The streamlined filing procedure described in paragraph 20 may only be used for licenses that have identical filing information.

J. Maintaining Accuracy of Information

22. Applicants are no longer required to maintain accuracy and completeness of information furnished on their FCC Form 175 and exhibits. After the auction closes, applicants are required to make all changes in the ULS system (Forms 601/602).

K. Application Processing and License Grant

23. Pursuant to 47 CFR 1.2108(b) and the Balanced Budget Act of 1997, Public Law 105-33, 111 Stat. 251 (1997), interested parties will have ten (10) days to file petitions to deny after the Commission releases a public notice announcing the FCC Forms 601 and 602 are acceptable for filing. An applicant may file an opposition to any petition to deny within five (5) days after the time for filing petitions to deny has expired. See 47 CFR 1.2108(c). The petitioner may file a reply to such opposition within five (5) days after the time for filing oppositions has expired. See 47 CFR 1.2108(c). If the Commission determines that an applicant is qualified and there is no substantial and material issue of fact concerning that determination, the Commission will issue a public notice announcing that it is prepared to grant the application conditioned upon the full and timely payment of the remaining balance of the applicant's winning bid. Once the Commission has received full payment of the applicant's winning bid, it will issue a public notice announcing grant of the license (or licenses) to the applicant.

L. Clarifications

24. Applicants should be aware that the Policy Division of the Wireless Telecommunications Bureau has issued two Errata. The first Errata, *inter alia*, makes conforming amendments to § 27.308 of the Commission's Rules, concerning technical content of applications. The second Errata, *inter alia*, makes conforming amendments to § 27.6 of the Commission's Rules, referencing the definitional criterion for the Gulf of Mexico EA.

M. Anti-collusion Rules

25. To ensure the competitiveness of the auction process, the Commission's rules prohibit applicants for the same geographic license area from communicating with each other during the auction about bids, bidding strategies, or settlements. As explained more fully in the *Auction No. 33 Procedures Public Notice*, 65 FR 21182 (April 20, 2000), this prohibition began with the filing of short-form applications and ends on the down

payment due date. The prohibition ends on the down payment due date whether or not a high bidder must supplement its upfront payment to cover its down payment. Applicants certified their compliance with § 1.2105(c) when their FCC Form 175 short-form applications were signed.

The Commission's website is <http://www.fcc.gov/Bureaus/Wireless/Orders/2000/fcc00076.pdf>.

Summary of the Public Notice

The Commission adopted a Report and Order (R&O) establishing a new WMTS. The WMTS is intended to enhance the ability of health care providers to offer high quality and cost-effective care to patients with acute and chronic health care needs. While WMTS equipment will be licensed by rule, the Commission concluded that it was necessary to designate a frequency coordinator(s) to maintain a database of all WMTS equipment identified by location, operating frequency, emission type and output power. The Commission believed that the database will provide a record of the frequencies used by each facility or device to assist parties in selecting frequencies to avoid interference. The Commission envisioned that the database would be used by users eligible for the WMTS and manufacturers to plan for specific frequency use within a geographic area.

1. *WMTS Frequency Coordinator Duties and Responsibilities.* The designated WMTS frequency coordinator(s) must be familiar with the medical telemetry user community, and must make its services available to all parties on a first-come, first-served and non-discriminatory basis. The WMTS frequency coordinator(s) must be willing to serve a five-year term, which could be renewed by the Commission. The WMTS frequency coordinator(s) will be permitted to set the fee structure associated with such frequency coordination as necessary to recoup costs. Pursuant to § 95.1113 of the Commission's Rules, a WMTS frequency

coordinator will be required to: (i) Review and process coordination requests submitted by authorized health care providers as required in 47 CFR 95.1111; (ii) maintain a database of WMTS use; (iii) notify users of potential conflicts; and (iv) coordinate WMTS operation with radio astronomy observatories and Federal Government radar systems as specified in 47 CFR 95.1119 and 95.1121.

2. Each request for designation as a WMTS frequency coordinator must be signed and indicate the name and telephone number of a contact person familiar with the request. Each request must include:

- (i) a description of the entity requesting to be a WMTS frequency coordinator and its qualifications;
- (ii) how it will prevent any conflicts of interest;
- (iii) its proposed fee structure;
- (iv) length of time before applicant will be able to begin its duties as a WMTS frequency coordinator;
- (v) a statement that the applicant will be able and willing to work with other WMTS frequency coordinators should WTB decide to designate more than one frequency coordinator, and

(vi) the geographic area(s) for which the applicant is willing to coordinate.

3. WTB will base its decision on the information provided. Preference will be given to applicants who can provide nationwide coordination. Once a decision has been made, the name(s) and address(es) of the designated WMTS coordinator(s) will be announced by *Public Notice*.

4. Requests for designation as a WMTS frequency coordinator must reference this *Public Notice*, including the DA number, and be filed with the Office of the Secretary, Federal Communications Commission, 445 12th Street, SW., TW-A325, Washington DC 20554. A copy of each filing should be sent to International Transcription Service, Inc. at 1231 20th Street, NW., Washington, DC 20036, and Jeffrey Tobias, Federal Communications Commission, Wireless Telecommunications Bureau, Public Safety and Private Wireless Division, Policy and Rules Branch, 445 12th Street, SW., 2-C828, Washington, DC 20554.
