

Notices

Federal Register

Vol. 65, No. 198

Thursday, October 12, 2000

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

AFRICAN DEVELOPMENT FOUNDATION

Board of Directors Meeting; Sunshine Act

TIME: 9 a.m. to 1 p.m.

PLACE: ADF Headquarters.

DATE: Friday, October 13, 2000.

STATUS: Open.

Agenda

9:00 a.m.—Chairman's Report

9:30 a.m.—President's Report

10:30 a.m.—New Business

11:00 a.m.—Executive Session (Closed)

1:00 p.m.—Adjournment

If you have any questions or comments, please direct them to Dick Day, Coordinator, Office of Policy, Planning and Outreach, who can be reached at (202) 673-3916.

Nathaniel Fields,

President.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Docket No. L.S.-00-09]

Notice of Request for Extension and Revision of Currently Approved Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), this notice announces the Agricultural Marketing Service's (AMS) intention to request an extension for and revision to a currently approved information collection for the Seed Service Testing Program.

DATES: Comments on this notice must be received by December 11, 2000 to be assured of consideration.

Additional Information or Comments:

Richard C. Payne, Chief, Seed Regulatory and Testing Branch (SRTB), Livestock and Seed Program, AMS, Room 209, Building 306, BARC-E., Beltsville, Maryland 20705-2325, telephone (301) 504-9430, Fax (301) 504-8098.

SUPPLEMENTARY INFORMATION:

Title: Seed Service Testing Program.

OMB Number: 0581-0140.

Expiration Date of Approval: July 31, 2001.

Type of Request: Extension and revision of currently approved information collection.

Abstract: This information collection is necessary to conduct voluntary seed testing on a fee for service basis. The AMA of 1946, as amended, 7 U.S.C. 1621 *et seq.* authorizes the Secretary to inspect and certify the quality of agricultural products and collect such fees as reasonable to cover the cost of service rendered.

The purpose of the voluntary program is to promote efficient, orderly marketing of seeds, and assist in the development of new and expanding markets. Under the program, samples of agricultural and vegetable seeds submitted to the Agricultural Marketing Service are tested for factors such as purity and germination at the request of the applicant for the service. In addition, grain samples, submitted at the applicant's request, by the Grain Inspection, Packers and Stockyards Administration are examined for the presence of certain weed and crop seed. A Federal Seed Analysis Certificate is issued giving the test results. Most of the seed tested under this program is scheduled for export. Many importing countries require a Federal Seed Analysis Certificate on U.S. seed.

The only information collected is information needed to provide the service requested by the applicant. This includes information to identify the seed being tested, the seed treatment (if treated with a pesticide), the tests to be performed, and any other appropriate information required by the applicant to be on the Federal Seed Analysis Certificate.

The number of seed companies applying for the seed testing service has decreased from 92 to 65 during the past

3 years due to consolidation of the seed industry. Even though the number of seed companies applying for the service has decreased, the number of samples received for testing has increased slightly. Therefore, the average burden for information collection has increased for seed companies applying for the service.

The information in this collection is used only by authorized AMS employees to track, test, and report test results to the applicant.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average .25 hours per response.

Respondents: Applicants for seed testing service.

Estimated Number of Respondents: 65.

Estimated Number of Responses per Respondent: 24.1.

Estimated Total Annual Burden on Respondents: 392 hours.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical or other technological collection techniques or other forms of information technology. Comments may be sent to Richard C. Payne, Chief, Seed Regulatory and Testing Branch, L.S., AMS, USDA, Room 209, Building 306, BARC-E., Beltsville, Maryland 20705-2325 or by E-mail to richard.payne2@usda.gov. All comments received will be available for public inspection during regular business hours at the same address.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Dated: October 4, 2000.

Barry L. Carpenter,

Deputy Administrator, Livestock and Seed Program.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Docket No. LS-00-08]

Notice of Request for Extension and Revision of Currently Approved Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), this notice announces the Agricultural Marketing Service's (AMS) intention to request an extension for and revision to a currently approved information collection for the Federal Seed Act Labeling and Enforcement.

DATES: Comments on this notice must be received by December 11, 2000 to be assured of consideration.

Additional Information or Comments: Richard C. Payne, Chief, Seed Regulatory and Testing Branch (SRTB), Livestock and Seed Program, AMS, Room 209, Building 306, BARC-E., Beltsville, Maryland 20705-2325, telephone (301) 504-9430, Fax (301) 504-8098.

SUPPLEMENTARY INFORMATION:

Title: Federal Seed Act Program.

OMB Number: 0581-0026.

Expiration Date of Approval: July 30, 2001.

Type of Request: Extension and revision of currently approved information collection.

Abstract: This information collection and recordkeeping requirements are necessary to conduct the FSA (7 U.S.C. 1551, *et seq.*) program with respect to certain testing, labeling, and recordkeeping requirements of agricultural and vegetable seeds in interstate commerce.

The FSA, Title II, is a truth-in-labeling law that regulates agricultural and vegetable planting seed in interstate commerce. Seed subject to the FSA must be labeled with certain quality information and it requires information to be truthful. The Act prohibits the interstate shipment of falsely advertised seed and seed containing noxious-weed seeds that are prohibited from sale in

the State into which the seed is being shipped.

Besides providing farmers and other seed buyers with information necessary to make an informed choice and protect the buyer from buying mislabeled seed, the FSA promotes fair competition within the seed industry. It also encourages uniformity in labeling, aiding the movement of seed between the States. Because seed moving in interstate commerce must be labeled according to the FSA, most State laws have seed labeling requirements similar to those of the FSA, causing more uniformity of State laws.

Although anyone can submit a complaint to the SRTB, the FSA is primarily enforced through cooperative agreements with the States. State seed inspectors inspect and sample seed where it is being sold. They send a sample of the seed and a copy of the labeling to the State seed laboratory where the sample is tested and the analysis compared with the label. When violations are found, State personnel may take corrective action such as issuing a stop sale order to keep the seed from being sold until it is correctly labeled or otherwise disposed of. They may also take action against the shipper or labeler of the seed. The action a State may take against a shipper in another State is limited. Therefore, violations involving interstate shipments may be turned over to AMS for Federal action.

AMS investigates the complaints. The investigation normally involves check testing the State's official sample and possibly the shipper's file sample at the Testing Section. The shipper's records are checked to establish that there was a violation of the FSA, responsibility for the violation, and the cause of the mislabeling, if possible. The investigation will help the shipper find and correct the problem causing the violation and help AMS to determine the appropriate regulatory action.

No unique forms are required for this information collection. The FSA requires seed in interstate commerce to be tested and labeled. Once in a State, seed must comply with the testing and labeling requirements of the State seed law. The same test and labeling required by the FSA nearly always satisfies the State's testing and labeling requirements. Also the receiving, sales, cleaning, testing, and labeling records required by the FSA, are records that the shipper would normally keep in good business practice.

The information obtained under this information collection is the minimum information necessary to effectively carry out the enforcement of the FSA.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 2.08 hours per response.

Respondents: Interstate shippers and labelers of seed.

Estimated Number of Respondents: 2,997.

Estimated Number of Responses per Respondent: 5.90.

Estimated Total Annual Burden on Respondents: 37,215 hours.

Comments are invited on: (1) Whether the proposed collections of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to Richard C. Payne, Chief, Seed Regulatory and Testing Branch, LS, AMS, USDA, Room 209, Building 306, BARC-E., Beltsville, Maryland 20705-2325 or by E-mail to richard.payne2@usda.gov. All comments received will be available for public inspection during regular business hours at the same address.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Dated: October 4, 2000.

Barry L. Carpenter,

Deputy Administrator, Livestock and Seed Program.
