Request for Comments

We encourage you to participate in this meeting by attending it or by submitting comments and related material to the docket. If you do submit comments or related material, please include your name and address, identify this notice [USCG 2000-8079], and the reason for each comment. You may submit your comments and material by mail, delivery, fax, or electronic means to the Docket Management Facility at the address under ADDRESSES; but please submit your comments and material by only one means. The Coast Guard will consider the comments received from this initial meeting, and those submitted to the docket, to evaluate the need for subsequent meetings, which may examine various factors in more detail. Please submit all comments and attachments in an unbound format, no larger than 81/2 by 11 inches, suitable for copying and electronic filing to the Docket Management Facility at the address under ADDRESSES. If you want acknowledgement of receipt of your comments, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received whether submitted in writing to the docket or presented during the meeting.

Background and Purpose

Many factors determine the nature of spills into our nation's waterways and coastal areas. One such factor is future growth. Larger ships with greater fuel capacities may use our navigable waters. Increasing demand for petro-chemicals may exert pressures on the transport system. Offshore production of crude oil from remoter areas will grow as the price of oil rises. Transport of oil through aging pipelines near or under our waterways will pose increasing risk of spills into aquatic and marine environments. Further, with the phasing-in of double-hull requirements for tankships and tank barges over the next several years, the Coast Guard suspects that both the methods of waterborne transport of oil and the risks associated with these methods will change. All of this will affect the environmental services and leadership that the Coast Guard provides.

The Coast Guard, the public, and industry have engaged in numerous partnerships, and conducted many studies, over the past ten years; these certainly point the way toward a reasonable and coherent environmental agenda to fit the future. This meeting will examine ideas generated by these efforts, as well as explore emerging

trends. It will be the first step in reconciling the expectations of both the public and industries engaged in marine transport. An agenda will be provided at the meeting based on the following questions.

Questions: Your responses to the following questions are solicited. Please submit your responses as noted above under ADDRESSES.

- 1. What source do you see as presenting the biggest risk of oil pollution?
- 2. How do you see that risk changing over the next ten years?
- 3. How do you see the waterborne transport of oil changing over the next ten or twenty years?
- 4. What best practices for prevention, if any, from what industry or company, should we urge for uniform application throughout the waterborne transport of oil?
- 5. Should the Coast Guard concentrate its efforts toward preventing oil pollution on vessels and management, or on measures external to the vessel, such as Vessel Traffic Services, port risk assessments, and the like?
- 6. Do you perceive the public as becoming less tolerant of the risks of oil pollution? If yes, how is that affecting shipping, mariners' practice, and efforts toward prevention?
- 7. How will mariners' roles change with respect to preventing oil pollution in the future?
- 8. Should the Coast Guard be equally prepared for spills from foreign sources and for those from domestic ones? If so, how should we advance preparedness for spills from foreign sources (perhaps through the International Maritime Organization or classification societies)?
- 9. Should response plans for other sources of spills mirror the response plans for vessels envisioned by OPA 90?
- 10. Should non-tank vessels have to contract resources for worst cases, as tank vessels must under OPA 90?
- 11. Should the scope of, frequency of, and criteria for spill response exercises align with those in the Preparedness for Exercise Program (PREP)?
- 12. Should Qualified Individuals for non-tank vessels meet the same standards as those required for tank vessels?
- 13. Should strategies for response to and mitigation of other sources of spills differ from those used for sources of spills identified under OPA 90? How?
- 14. What needs improvement in control of and assessment for response to spills? (These comprise modeling, remote sensing, direct-reading instruments, and field technologies.) How?
- 15. What needs improvement in cleanup methods and technologies?

(These comprise in-situ burning, dispersants, mechanical recovery, shoreline cleanup, bioremediation, and other innovations.) How?

16. How does risk of oil pollution compare with risks from other forms of pollution in terms of effect on the environment? (These may comprise hazardous materials, airborne materials, aquatic nuisance species, or others.)

17. Should we consider specific sources of funding for further improvements? (These may comprise per-barrel taxes, port tariffs, users' fees, or others.) Should the Oil Spill Liability Trust Fund or a similar source be available for preventive measures?

18. What improvements would you make to the U.S. Marine Transportation System to minimize the risk of pollution?

19. Given that the costs of improving the infrastructure of the Marine Transportation System could be significant, what portion of these costs of improvement to reduce the risk of pollution should the public bear?

DEPARTMENT OF THE TREASURY

Customs Service

List of Foreign Entities Violating Textile Transshipment and Country of Origin Rules

AGENCY: U.S. Customs Service, Department of the Treasury. **ACTION:** General notice.

SUMMARY: This document notifies the public of foreign entities which have been issued a penalty claim under section 592 of the Tariff Act of 1930, for certain violations of the customs laws. This list is authorized to be published by section 333 of the Uruguay Round Agreements Act.

DATES: This document notifies the public of the semiannual list for the 6-

month period starting October 1, 2000, and ending March 30, 2001.

FOR FURTHER INFORMATION CONTACT: For information regarding any of the operational aspects, contact Mirta Gonzalez, Seizures and Penalties Division, Office of Field Operations, (202) 927–0410. For information regarding any of the legal aspects, contact Willem A. Daman, Office of Chief Counsel, (202) 927-6900.

SUPPLEMENTARY INFORMATION:

Background

Section 333 of the Uruguay Round Agreements Act (URAA) (Public Law 103-465, 108 Stat. 4809) (signed December 8, 1994), entitled Textile Transshipments, amended Part V of title IV of the Tariff Act of 1930 by creating a section 592A (19 U.S.C. 1592a), which authorizes the Secretary of the Treasury to publish in the Federal Register, on a semiannual basis, a list of the names of any producers, manufacturers, suppliers, sellers, exporters, or other persons located outside the Customs territory of the United States, when these entities and/or persons have been issued a penalty claim under section 592 of the Tariff Act, for certain violations of the customs laws, provided that certain conditions are satisfied.

The violations of the customs laws referred to above are the following: (1) Using documentation, or providing documentation subsequently used by the importer of record, which indicates a false or fraudulent country of origin or source of textile or apparel products; (2) Using counterfeit visas, licenses, permits, bills of lading, or similar documentation, or providing counterfeit visas, licenses, permits, bills of lading, or similar documentation that is subsequently used by the importer of record, with respect to the entry into the Customs territory of the United States of textile or apparel products; (3) Manufacturing, producing, supplying, or selling textile or apparel products which are falsely or fraudulently labeled as to country of origin or source; and (4) Engaging in practices which aid or abet the transshipment, through a country other than the country of origin, of textile or apparel products in a manner which conceals the true origin of the textile or apparel products or permits the evasion of quotas on, or voluntary restraint agreements with respect to, imports of textile or apparel products.

If a penalty claim has been issued with respect to any of the above violations, and no petition in response to the claim has been filed, the name of the party to whom the penalty claim was issued will appear on the list. If a

petition or supplemental petition for relief from the penalty claim is submitted under 19 U.S.C. 1618, in accord with the time periods established by sections 171.2 and 171.61, Customs Regulations (19 CFR 171.2, 171.61) and the petition is subsequently denied or the penalty is mitigated, and no further petition, if allowed, is received within 60 days of the denial or allowance of mitigation, then the administrative action shall be deemed to be final and administrative remedies will be deemed to be exhausted. Consequently, the name of the party to whom the penalty claim was issued will appear on the list. However, provision is made for an appeal to the Secretary of the Treasury by the person named on the list, for the removal of its name from the list. If the Secretary finds that such person or entity has not committed any of the enumerated violations for a period of not less than 3 years after the date on which the person or entity's name was published, the name will be removed from the list as of the next publication of the list.

Reasonable Care Required

Section 592A also requires any importer of record entering, introducing, or attempting to introduce into the commerce of the United States textile or apparel products that were either directly or indirectly produced, manufactured, supplied, sold, exported, or transported by such named person to show, to the satisfaction of the Secretary, that such importer has exercised reasonable care to ensure that the textile or apparel products are accompanied by documentation, packaging, and labeling that are accurate as to its origin. Reliance solely upon information regarding the imported product from a person named on the list is clearly not the exercise of reasonable care. Thus, the textile and apparel importers who have some commercial relationship with one or more of the listed parties must exercise a degree of reasonable care in ensuring that the documentation covering the imported merchandise, as well as its packaging and labeling, is accurate as to the country of origin of the merchandise. This degree of reasonable care must involve reliance on more than information supplied by the named

In meeting the reasonable care standard when importing textile or apparel products and when dealing with a party named on the list published pursuant to section 592A of the Tariff Act of 1930, an importer should consider the following questions in attempting to ensure that the

documentation, packaging, and labeling is accurate as to the country of origin of the imported merchandise. The list of questions is not exhaustive but is illustrative.

(1) Has the importer had a prior relationship with the named party?

(2) Has the importer had any detentions and/or seizures of textile or apparel products that were directly or indirectly produced, supplied, or transported by the named party?

(3) Has the importer visited the company's premises and ascertained that the company has the capacity to produce the merchandise?

(4) Where a claim of an origin conferring process is made in accordance with 19 CFR 102.21, has the importer ascertained that the named party actually performed the required process?

(5) Is the named party operating from the same country as is represented by that party on the documentation, packaging or labeling?

(6) Have quotas for the imported merchandise closed or are they nearing closing from the main producer countries for this commodity?

(7) What is the history of this country regarding this commodity?

(8) Have you asked questions of your supplier regarding the origin of the product?

(9) Where the importation is accompanied by a visa, permit, or license, has the importer verified with the supplier or manufacturer that the visa, permit, and/or license is both valid and accurate as to its origin? Has the importer scrutinized the visa, permit or license as to any irregularities that would call its authenticity into question?

The law authorizes a semiannual publication of the names of the foreign entities and/or persons. On March 30, 2000, Customs published a Notice in the Federal Register (65 FR 17003) which identified 25 (twenty-five) entities which fell within the purview of section 592A of the Tariff Act of 1930.

592A List

For the period ending September 30, 2000, Customs has identified 24 (twenty-four) foreign entities that fall within the purview of section 592A of the Tariff Act of 1930. This list reflects one new entity and two removals to the 25 entities named on the list published on March 30, 2000. The parties on the current list were assessed a penalty claim under 19 U.S.C. 1592, for one or more of the four above-described violations. The administrative penalty action was concluded against the parties by one of the actions noted above as

having terminated the administrative process.

The names and addresses of the 24 foreign parties which have been assessed penalties by Customs for violations of section 592 are listed below pursuant to section 592A. This list supersedes any previously published list. The names and addresses of the 24 foreign parties are as follows (the parenthesis following the listing sets forth the month and year in which the name of the company was first published in the **Federal Register**):
