

be shown in such a way as to be understood by the engine crew. These aspects shall be shown by lights and/or illuminated letters or numbers.

b. Entrances to the main line can be protected by electrically locked derails if the speed limit is 15 mph or less. A transponder set shall cut in ACSES prior to movement through the derail and onto the main line. If the speed limit is greater than 15 mph, a positive stop will be required. At entrances from a signaled track, ACSES shall be cut in prior to the distant signal and a positive stop enforced at the home signal.

c. An on-board event recorder shall record, in addition to the required functions of § 229.5(g) [of FRA's Railroad Locomotive Safety Standards (49 CFR Part 229)], the time at which each transponder is encountered, the information associated with that transponder, and each use of the positive stop override. These functions may be incorporated within the on-board computer, or as a stand alone device, but shall continue to record speeds and related cab signal/ATC data, even if ACSES has failed and/or is cut out. The event recorder shall meet all requirements of § 229.135.

9. The following maximum speeds apply on the NEC in territory subject to this order:

a. In ACSES territory where all trains operating on high-speed tracks, adjacent track where the maximum authorized speed exceeds 20 mph, and tracks providing access to high-speed tracks are equipped with cab signal/ATC and ACSES, qualified and ACSES-equipped trainsets otherwise so authorized may operate at maximum speeds not exceeding 150 mph. The maximum speed over any highway-rail crossing shall not exceed 80 mph where only conventional warning systems are in place. Train speeds shall not exceed 95 mph over any highway-rail crossing where arrangements approved by the Associate Administrator for Safety incorporating four-quadrant gates and presence detection are provided and tied into the signal system, such that a train will be brought to a stop should the crossing be determined to be occupied following descent of the gates. Amtrak shall submit for approval of the Associate Administrator for Safety plans for site-specific improvements with timetables for each of the NEC crossings remaining on the NEC-North End.

b. In ACSES territory on the NEC-South End, where access to any high-speed track is prevented by switches locked in the normal position and a parallel route to the high-speed track is provided at crossovers from adjacent tracks, and where no junctions

providing direct access exist, qualified and ACSES-equipped trainsets otherwise so authorized may operate to a maximum speed not exceeding 135 mph on such track; and provisions of this order requiring other tracks and trains to be equipped with ACSES do not apply.

10. *Schedule and acceptance requirements.*

a. This order is effective *upon publication*.

b. Not later than 45 days following publication of this order, Amtrak shall deliver to the Associate Administrator for Safety, FRA, a final program and timetable for completion of pre-qualification tests, availability of on-board equipment from Amtrak's vendor, staging of installation of on-board equipment for which Amtrak takes responsibility, and testing of all wayside and on-board equipment prior to cut-in.

c. Contingent upon FRA's acceptance of the final program and timetable, and FRA's acceptance of the results of pre-qualification and pre-service tests, compliance with requirements of this order for use of ACSES on the NEC-North End is required on and after October 21, 2000.

d. Amtrak may commence operations under paragraph 9(b) of this order utilizing equipment qualified under 49 CFR Part 213, as revised, following FRA's approval of the elements of the final program, timetable and test results pertinent to the subject territory and operations.

e. Milepost implementation will occur as scheduled below:

1. Milepost 139.3 (Stonington, Connecticut) to Milepost 181.0 (Cranston, Rhode Island) on October 21, 2000.

2. Milepost 187.0 (Lawn, Rhode Island) to Milepost 218.5 (Transfer, Massachusetts) on November 13, 2000.

3. Milepost 113.3 (Nan, Connecticut) to Milepost 139.0 (High St., Rhode Island) on November 27, 2000.

4. Milepost 181.0, Cranston, Rhode Island to Milepost 187.0 (Lawn, Rhode Island) and Milepost 218.5 (Transfer, Massachusetts) to Milepost 228.0 (Cove, Massachusetts) on December 18, 2000.

5. Milepost 73.6 (Mill River, Connecticut) to Milepost 113.3 (Nan, Connecticut) on January 15, 2001.

Issued in Washington, D.C. on October 13, 2000.

John V. Wells,

Deputy Federal Railroad Administrator.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System or Relief from the Requirements of Title 49 Code of Federal Regulations Part 236

Pursuant to Title 49 Code of Federal Regulations (CFR) Part 235 and 49 U.S.C. 20502(a), the following railroads have petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR Part 236 as detailed below.

[Docket No. FRA-2000-7562]

Applicant: CSX Transportation, Incorporated, Mr. E. G. Peterson, Assistant Chief Engineer, Signal Design and Construction, 4901 Belfort Road, Suite 130 (S/C J-370), Jacksonville, Florida 32256.

CSX Transportation Incorporated seeks approval of the proposed modification of the automatic block signal system, on the main tracks, at 22nd Street, Chicago, Illinois, milepost DC-29, Blue Island Subdivision, Chicago Service Lane, consisting of the discontinuance and removal of automatic signals 44-S and 45-N.

The reason given for the proposed changes is that with the retirement of the Burlington Northern Santa Fe Railway's 26th railroad crossing at grade, removal of the signals will improve operating efficiency.

Any interested party desiring to protest the granting of an application shall set forth specifically the grounds upon which the protest is made, and contain a concise statement of the interest of the Protester in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.

All communications concerning this proceeding should be identified by the docket number and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PI-401, Washington, D.C. 20590-0001. Communications received within 45 days of the date of this notice will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9:00 a.m.-5:00 p.m.) at DOT Central Docket Management Facility, Room PI-401 (Plaza Level), 400 Seventh Street, S.W., Washington, D.C. 20590-0001. All documents in the

public docket are also available for inspection and copying on the internet at the docket facility's Web site at <http://dms.dot.gov>.

FRA expects to be able to determine these matters without an oral hearing. However, if a specific request for an oral hearing is accompanied by a showing that the party is unable to adequately present his or her position by written statements, an application may be set for public hearing.

Issued in Washington, D.C. on October 12, 2000.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

BILLING CODE 4910-06-U

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System or Relief From the Requirements of Title 49 Code of Federal Regulations Part 236

Pursuant to Title 49 Code of Federal Regulations (CFR) Part 235 and 49 U.S.C. 20502(a), the following railroads have petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR Part 236 as detailed below.

[Docket No. FRA-2000-7561]

Applicant: CSX Transportation, Incorporated, Mr. E.G. Peterson, Assistant Chief Engineer, Signal Design and Construction, 4901 Belfort Road, Suite 130 (S/C J-370), Jacksonville, Florida 32256.

CSX Transportation Incorporated seeks approval of the proposed modification of the traffic control system, on the single main track, at E.E. Harold, Kentucky, milepost CMG 93.6, on the Big Sandy Subdivision, Appalachian Division, consisting the discontinuance and removal of absolute controlled signals 202L and 202R.

The reasons given for the proposed changes are that the power-operated switch and turnout track at W.E. Harold were previously removed, the need for the signals no longer exists under current operating conditions, and removal of the signals will increase operating efficiency.

Any interested party desiring to protest the granting of an application shall set forth specifically the grounds upon which the protest is made, and contain a concise statement of the

interest of the Protestant in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.

All communications concerning this proceeding should be identified by the docket number and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PI-401, Washington, D.C. 20590-0001. Communications received within 45 days of the date of this notice will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9:00 a.m.-5:00 p.m.) at DOT Central Docket Management Facility, Room PI-401 (Plaza Level), 400 Seventh Street, S.W., Washington, D.C. 20590-0001. All documents in the public docket are also available for inspection and copying on the internet at the docket facility's Web site at <http://dms.dot.gov>.

FRA expects to be able to determine these matters without an oral hearing. However, if a specific request for an oral hearing is accompanied by a showing that the party is unable to adequately present his or her position by written statements, an application may be set for public hearing.

Issued in Washington, D.C. on October 12, 2000.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System or Relief From the Requirements of Title 49 Code of Federal Regulations Part 236

Pursuant to Title 49 Code of Federal Regulations (CFR) Part 235 and 49 U.S.C. 20502(a), the following railroads have petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR Part 236 as detailed below.

[Docket No. FRA-2000-7563]

Applicant: CSX Transportation, Incorporated, Mr. E.G. Peterson, Assistant Chief Engineer, Signal Design and Construction, 4901 Belfort Road,

Suite 130 (S/C J-370), Jacksonville, Florida 32256.

CSX Transportation Incorporated seeks approval of the proposed modification of the traffic control system, on the single main track, at Whitehouse, Kentucky, between milepost CMG 50.0 and milepost CMG 52.0, on the Big Sandy Subdivision, Appalachian Division, consisting of the following:

1. The discontinuance and removal of absolute controlled signals 94L and 94R at W.E. Whitehouse, where the power-operated switch had been previously removed;
2. The discontinuance and removal of absolute controlled signals 98L, 98R, and 98RB at E.E. Whitehouse; and
3. Conversion of the power-operated switch at E.E. Whitehouse to hand operation.

The reason given for the proposed changes is to improve operations and increase efficiency.

Any interested party desiring to protest the granting of an application shall set forth specifically the grounds upon which the protest is made, and contain a concise statement of the interest of the Protestant in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.

All communications concerning this proceeding should be identified by the docket number and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PI-401, Washington, D.C. 20590-0001. Communications received within 45 days of the date of this notice will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9:00 a.m.-5:00 p.m.) at DOT Central Docket Management Facility, Room PI-401 (Plaza Level), 400 Seventh Street, S.W., Washington, D.C. 20590-0001. All documents in the public docket are also available for inspection and copying on the internet at the docket facility's Web site at <http://dms.dot.gov>.

FRA expects to be able to determine these matters without an oral hearing. However, if a specific request for an oral hearing is accompanied by a showing that the party is unable to adequately present his or her position by written statements, an application may be set for public hearing.
