AGENCY: Department of the Interior, National Park Service, Glacier National Park.

ACTION: Notice and request for comment.

SUMMARY: The National Park Service (NPS) is proposing to conduct research regarding the potential socio-economic impacts associated with reconstruction of Going-to-the-Sun Road in Glacier National Park. One component of this work is a proposal to conduct two surveys.

The Potential Visitor Survey will be conducted among potential visitors to Glacier National park. Potential visitors are those that have expressed interest in visiting Glacier National Park by making contact with a tourism development office managed or funded by the State of Montana. Survey respondents will be asked contingent behavior questions regarding travel to Glacier National Park if travel were hampered on Going-to-the-Sun Road. The survey will be conducted by telephone, mail or email, depending on data availability from the tourism development offices.

The Local Business Survey will be conducted among businesses in a local area (three counties in Montana plus a portion of Alberta, Canada) that are directly or indirectly impacted by tourism. Survey respondents will be asked questions regarding the seasonality of their business activity and employment, the impact of tourism and Glacier National Park on their business activity, potential socio-economic impacts, and mitigation strategies. The survey will be conducted by mail.

	Estimated numbers of	
	Burden	Responses hours
Potential Visitor Survey	400	67
Local Business Survey	1,500	375
Total	1,900	442

Under the provisions of the Paperwork Reduction Act of 1995 and 5 CFR part 1320, Reporting and Record Keeping Requirements, the National Park Service (NPS) is soliciting comments on the need for gathering the information in the proposed surveys. The NPS is also asking for comments on the practical utility of the information being gathered; the accuracy of the burden hour estimate; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden to respondents, including use of automated information collection techniques or other forms of information technology.

The NPS goal in conducting these surveys is to help describe and quantify potential socio-economic impacts of reconstruction alternatives for Going-to-the-Sun Road in Glacier National Park.

DATES: Public comments will be accepted on or before December 22, 2000.

Send Comments To: Fred Babb, Project Management, Glacier National Park, P.O. Box 128; West Glacier, MT 59936. fred_babb@nps.gov.
