

We will disclose the calculations used in our analysis to parties to this proceeding within five days of the publication date of this notice. See 19 CFR 351.224(b). Any interested party may request a hearing within 30 days of publication. See 19 CFR 351.310(c). If requested, a hearing will be held 44 days after the publication of this notice, or the first workday thereafter.

Issues raised in the hearing will be limited to those raised in the respective case briefs and rebuttal briefs. Case briefs from interested parties and rebuttal briefs, limited to the issues raised in the respective case briefs, may be submitted not later than 30 days and 37 days, respectively, from the date of publication of these preliminary results. See 19 CFR 351.309(c) and (d). Parties who submit case briefs or rebuttal briefs in this proceeding are requested to submit with each argument (1) a statement of the issue and (2) a brief summary of the argument. Parties are also encouraged to provide a summary of the arguments not to exceed five pages and a table of statutes, regulations, and cases cited.

The Department will issue the final results of these administrative reviews, including the results of its analysis of issues raised in any written briefs, not later than 120 days after the date of publication of this notice.

Interested parties who wish to request a hearing or to participate if one is requested, must submit a written request to the Assistant Secretary for Import Administration, Room B-099, within 30 days of the date of publication of this notice. Requests should contain: (1) The party's name, address and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. See 19 CFR 351.310(c).

Assessment Rates

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. The Department will issue appropriate appraisement instructions directly to the Customs Service upon completion of this review. The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties. We will instruct the Customs Service to assess antidumping duties on all appropriate entries covered by this review if any importer-specific assessment rate calculated in the final results of this review is above *de minimis*. For assessment purposes, we intend to calculate importer-specific assessment rates for the subject

merchandise by aggregating the dumping margins calculated for all U.S. sales examined and dividing this amount by the total entered value of the sales examined.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Act: (1) The cash deposit rates for the reviewed companies will be those established in the final results of this review; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in these reviews, a prior review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 29.52 percent, the "All Others" rate made effective by the LTFV normal value investigation. These requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice is published in accordance with sections 751(a)(1) of the Act and 19 CFR 351.221.

Dated: October 12, 2000.

Troy H. Cribb,

Acting Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:

I. Abstract

Pursuant to 15 U.S.C. 1051 *et seq.* and Chapter 37 of the Code of Federal Regulations, the United States Patent and Trademark Office (USPTO) issues Office Actions in which it requests that applicants for trademark registration furnish information that is required for the issuance of a registration but that was not provided with the initial submission of the application for registration. The information solicited in these Office Actions may include the following: the precise nature of the goods and or services associated with the mark; the dates on which the mark was first used and first used in commerce regulable by the United States Congress; the name of a domestic representative of a foreign applicant upon whom process can be served in matters pertaining to the mark; the legal entity type of the applicant; the state of incorporation of a corporate applicant; the state of organization of an applicant that is a partnership; the citizenship of an applicant who is an individual person; the names and citizenships of the partners of an applicant that is a partnership; the complete address of the applicant; the date that the application was signed; information as to whether or not a mark is the name or likeness of an individual; requests for production of specimens showing use of the mark in

commerce; requests for substitute depictions of the mark; information as to whether or not the mark has a meaning in a foreign language or in a particular field or industry; information as to whether or not the applicant owns certain existing registrations; the statutory basis upon which registration of the mark is sought; and for collective membership marks, information as to how the applicant controls use of the mark by members of the organization.

To aid in the collection of this information and as part of the USPTO's electronic initiatives, the USPTO has developed an electronic form for providing this information. Additionally, the form may be used to present legal arguments as to why the USPTO should withdraw a statutory refusal to register a mark.

II. Method of Collection

By electronic transmission.

III. Data

OMB Number: 0651-00XX.

Form Number(s): PTO Form XX.

Type of Review: New information collection.

Affected Public: Individuals or households; businesses or other non-profit; not-for-profit institutions; farms; the Federal Government; and state, local or tribal government.

Estimated Number of Respondents: 22,000 responses per year.

Estimated Time Per Response: The USPTO estimates that the public will require 10 minutes (.17 hours) to supply the information requested in the Office Action. Completion times may vary, depending upon the nature and amount of information requested in a particular Office Action.

Estimated Total Annual Respondent Burden Hours: 3,740 hours per year.

Estimated Total Annual Respondent Cost Burden: \$900 (this represents the estimated combined average cost of a scanner and a digital camera, one of which is needed to submit a digitized image of a stylized drawing or substitute specimens. However, it is noted that the USPTO expects that very few of the responses will require the use of either a camera or a scanner). Using the professional hourly rate of \$175.00 per hour for associate attorneys in private firms, the USPTO estimates \$654,500.00 per year for salary costs associated with respondents. However, it is noted that a respondent is not required to retain an attorney to assist in responding to an Office Action.
