SUPPLEMENTARY INFORMATION: *Title:* EPA Landfill Methane Outreach Program (EPA ICR No. 1849.01). This is a new collection.

Abstract: The Landfill Methane Outreach Program (LMOP) is an EPA-sponsored voluntary program that encourages landfill owners, communities, and project developers to implement methane recovery technologies to utilize the methane as a source of fuel and to reduce emissions of methane, a potent greenhouse gas. The Landfill Methane Outreach Program further encourages utilities and other energy customers to support and promote the use of landfill methane at their facilities. The Landfill Methane Outreach Program signs voluntary Memoranda of Understanding (MOU) with these organizations to enlist their support in promoting cost-effective landfill gas utilization. The information collection includes one-time completion and submission of the MOU, and one-time and periodic completion and submission of information forms that include basic information on the organizations that sign the MOU and landfill methane projects in which they are involved. The primary purpose of the information collection is to evaluate the success of the LMOP in reducing methane emissions from landfills. Responses to the information collection

are voluntary. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 2/14/2000 (65 FR 7390); no comments were received.

Respondents/Affected Entities: Local agencies and municipalities that own landfills, State agencies, Manufacturers and suppliers of equipment/knowledge to capture and utilize landfill gas, utility companies, End users of energy from the landfill.

Estimated Number of Respondents: 310 (average over 3 years).

Frequency of Response: Annually and on occasion.

Estimated Total Annual Hour Burden: 1,484 hours.

Estimated Total Annualized Capital and Operating & Maintenance Cost Burden: \$670.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. I. Background

AT&T Corp., a telecommunications company incorporated in the State of New York and located at 32 Avenue of the Americas, New York, New York 10013-2412 failed to prepare SPCC plans for twenty-four facilities. AT&T Corp. disclosed, pursuant to the EPA "Incentives for Self-Policing: Discovery, Disclosures, Correction and Prevention of Violations" ("Audit Policy"), 60 FR 66,706 (December 22, 1995), that they failed to prepare SPCC plans for twenty-four facilities where they stored diesel oil in above ground storage tanks, in violation of the CWA section 311(b)(3) and 40 CFR part 112. EPA determined that AT&T Corp. met the criteria set out in the Audit Policy for a 100% waiver of the gravity component of the penalty. As a result, EPA waived the gravity based penalty (\$137,500.00) and proposed a settlement penalty amount of (\$24,078.00). This is the amount of the economic benefit gained by AT&T Corp., attributable to their delayed compliance with the SPCC regulations. AT&T Corp. has agreed to pay this amount in civil penalties. EPA and AT&T Corp. negotiated and signed an administrative consent agreement, following the Consolidated Rules of Procedure, 40 CFR section 22.13, on October 19, 2000 (*In Re: AT&T Corp.*, Docket No. MM-HQ-2001-0004). This consent agreement is subject to public notice and comment under CWA section 311(b)(6), 33 U.S.C. section 1321(b)(6).

Under CWA section 311(b)(6)(A), 33 U.S.C. 1321 (b)(6)(A), any owner, operator, or person in charge of a vessel, onshore facility, or offshore facility from which oil is discharged in violation of the CWA section 311 (b)(3), 33 U.S.C. 1321 (b)(3), or who fails or refuses to comply with any regulations that have been issued under CWA section 311(j), 33 U.S.C. 1321(j), may be assessed an administrative civil penalty of up to \$137,500 by EPA. Class II proceedings under CWA section 311(b)(6) are

conducted in accordance with 40 CFR part 22.

The procedures by which the public may comment on a proposed Class II penalty order, or participate in a Clean Water Act Class II penalty proceeding, are set forth in 40 CFR 22.45. The deadline for submitting public comment on this proposed final order is November 27, 2000. All comments will be transferred to the Environmental Appeals Board ("EAB") of EPA for consideration. The powers and duties of the EAB are outlined in 40 CFR 22.04(a). Pursuant to CWA section 311(b)(6)(C), EPA will not issue an order in this proceeding prior to the close of the public comment period.
