

scheduled quantity at an hourly rate that exceeds $\frac{1}{24}$ th of such scheduled quantity. FT-H service will be available on an open access, non-discriminatory basis to all shippers who meet the eligibility requirements for such service.

Tennessee states that under Rate Schedule FT-H, Tennessee will transport natural gas for a shipper up to a specified daily transportation quantity (TQ) and allow the shipper to take delivery of its scheduled quantity up to a specified maximum hourly delivery quantity (MHQ). Under Rate Schedule FT-H, the MHQ must be no less than $\frac{1}{18}$ th of the TQ and no greater than $\frac{1}{4}$ th of the TQ. Tennessee will provide the FT-H service only after it determines that it has sufficient uncommitted capacity to perform the service requested by a shipper. The FT-H service will not degrade the firm primary rights of any of Tennessee's existing firm shippers. Rate Schedule FT-H service will have the same scheduling and curtailment priority as Tennessee's other firm transportation services.
