"Two-year institutions of higher education (IHEs)" are defined as those IHEs or branches of IHEs that are public or private nonprofit organizations and confer at least a two-year formal award (certificate, diploma, or associate's degree), or have a two-year program creditable toward a baccalaureate degree or higher award.

2. "High-risk drinking" is defined as those situations that may involve but not be limited to: Binge drinking (commonly defined as five or more drinks on any one occasion); underage drinking; drinking and driving; situations when one's condition is already impaired by another cause, such as depression or emotional stress; or combining alcohol and medications, such as tranquilizers, sedatives, and antihistamines.

General

In making awards under this grant program, the Secretary may take into consideration the geographic distribution of the projects in addition to the rank order of applicants.

Contingent upon the availability of funds, the Secretary may make additional awards in FY 2001 from the rank-ordered list of nonfunded applications from this competition.

Note: This notice does not solicit applications. A notice inviting applications under this competition will be published in

the **Federal Register** concurrently with or following the publication of the notice of final priorities. The notice inviting applications will specify the date and time by which applications for this competition must be received by the Department. Applications received after that time will not be eligible for funding. Postmarked dates will not be accepted.

Absolute Priorities: Under 34 CFR 75.105(c)(3) and the Safe and Drug-Free Schools and Communities Act of 1994, the Secretary proposes to give an absolute preference to applications that meet one or both of the following priorities, and would fund under this competition only those applications that meet one or both of the following absolute priorities:

Absolute Priority #1—Develop or Enhance, Implement, and Evaluate Campus-Based Strategies to Prevent High-Risk Drinking by College Student Athletes, First-Year Students, or Students Attending Two-Year Institutions

Under this proposed priority, applicants would be required to propose projects that develop or enhance, implement, and evaluate strategies to prevent high-risk drinking by college student athletes, first-year students, or students attending two-year institutions of higher education. Grant applicants would be required to:

(1) Identify the target population and provide a justification for its selection;

(2) Provide evidence that a needs assessment has been conducted on campus to document prevalence rates related to high-risk drinking by the population selected;

(3) Set measurable goals and objectives for the proposed project and provide a description of how progress toward achieving goals will be measured annually;

(4) Design and implement prevention strategies, using student input and participation, that research has shown to be effective in preventing high-risk drinking by the target population;

(5) Use a qualified evaluator to design and implement an evaluation of the project using outcomes-based (summative) performance indicators related to behavioral change and process (formative) measures that assess and document the strategies used; and

(6) Demonstrate the ability to start the project within 60 days after receiving Federal funding in order to maximize the time available to show impact within the grant period.

Absolute Priority #2—Develop or Enhance, Implement, and Evaluate Campus-Based Strategies to Prevent Violent Behavior by College Students

Under this proposed priority, applicants would propose projects that would develop or enhance, implement, and evaluate strategies to prevent violent behavior by college students. Grant applicants would be required to:

(1) Provide evidence that a needs assessment has been conducted on campus to document prevalence rates related to violent behavior;

(2) Set measurable goals and objectives for the proposed project and provide a description of how progress toward achieving goals will be measured annually;

(3) Design and implement prevention strategies, using student input and participation, that research has shown to be effective in preventing violent behavior among college students;

(4) Use a qualified evaluator to design and implement an evaluation of the project using outcomes-based (summative) performance indicators related to behavioral change and process (formative) measures that assess and document the strategies used; and

(5) Demonstrate the ability to start the project within 60 days after receiving Federal funding in order to maximize the time available to show impact within the grant period.
