Public Comment

In response to the Secretary's invitation in the notice of proposed priority, seven parties submitted comments. All seven commenters supported the priority, and several provided examples of how similar training has been of benefit in the past. One commenter suggested 16 specific training topics, all of which could be addressed under the priority as written. Technical and other minor changes—

and suggested changes the Secretary is not legally authorized to make under the applicable statutory authority—are not addressed.

The Secretary has made no changes in this priority since publication of the notice of proposed priority.

Priority

Under 34 CFR 75.105(c)(3), the Secretary gives an absolute preference to applications that meet the following priority. The Secretary funds under this competition only applications that meet this absolute priority:

- A project must—
 - Provide training to Client Assistance Program (CAP) personnel on an as-needed basis, including—
 - (1) Management training on skills needed for strategic and operational planning and direction of CAP services;
 - (2) Advocacy training on skills and knowledge needed by CAP staff to assist persons with disabilities to gain access to and to use the services and benefits available under the Rehabilitation Act of 1973, as amended, with particular emphasis on new statutory and regulatory requirements;
 - (3) Systemic advocacy training on skills and knowledge needed by CAP staff to address programmatic issues of concern;
 - (4) Training and technical assistance on CAP best practices; and
 - (5) Training on skills and knowledge needed by CAP staff to perform additional responsibilities required by the Workforce Investment Act of 1998, as amended.
 - Coordinate training efforts with other training supported by the Rehabilitation Services Administration, as well as with the training supported by the Center for Mental Health Services and the Administration on Developmental Disabilities on common areas such as protection and advocacy, financial management, and trial advocacy.
 - Include both national and regional training seminars in each project year.

Goals 2000: Educate America Act

The Goals 2000: Educate America Act (Goals 2000) focuses the Nation's education reform efforts on the eight National Education Goals and provides a framework for meeting them. Goals 2000 promotes new partnerships to strengthen schools and expands the Department's capacities for helping communities to exchange ideas and obtain information needed to achieve the goals.

This final priority addresses the National Education Goal that every adult American will be literate and will

possess the knowledge and skills necessary to compete in a global economy and exercise the rights and responsibilities of citizenship. The final priority furthers the objectives of this Goal by focusing available funds on projects that improve the skills of Client Assistance Program personnel, which will improve the responsiveness of the vocational rehabilitation system to adults with disabilities and their vocational pursuits.
