support purposes (such as evaluation) other than administration.

### E. Dollar Range and Length of Grants

Awards to expand existing or establish new labor-management committees will be for a period of up to 18 months. If successful progress is made during this initial budget period and all grant funds are not obligated within the specified period, these grants may be extended for up to six months. No continuation awards will be made.

The dollar range of awards is as follows:

—Up to \$65,000 over a period of up to 18 months for company/plant committees or single department public sector applicants;

—Up to \$125,000 per 18-month period for area, industry, and multidepartment public sector committee applicants.

Applicants are reminded that these figures represent maximum Federal funds only. If total costs to accomplish the objectives of the application exceed the maximum allowable Federal funding level and its required grantee match, applicants may supplement these funds through voluntary contributions from other sources. Applicants are also strongly encouraged to consult with their local or regional FMCS field office to determine what kinds of training may be available at no cost before budgeting for such training in their applications. A list of our field leadership team and their phone numbers is included in the application

# F. Cash Match Requirements and Cost Allowability

All applicants must provide at least 10 percent of the total allowable project costs in cash. Matching funds may come from state or local government sources or private sector contributions, but may generally not include other Federal funds. Funds generated by grant-supported efforts are considered "project income," and may not be used for matching purposes.

It will be the policy of this program to reject all requests for indirect or overhead costs as well as "in-kind" match contributions. In addition, grant funds must not be used to supplant private or local/state government funds currently spent for committee purposes. Funding requests from existing committees should focus entirely on the costs associated with the expansion efforts. Also, under no circumstances may business or labor officials participating on a labor-management committee be compensated out of grant

funds for *time* spent at committee meetings or *time* spent in committee training sessions. Applicants generally will not be allowed to claim all or a portion of *existing* full-time staff as an expense or match contribution. For a more complete discussion of cost allowability, applicants are encouraged to consult the FY2002 FMCS Financial and Administrative Grants Manual, which will be included in the application kit.

# G. Application Submission and Review Process

The Application for Federal Assistance (SF-424) form must be signed by both a labor and management representative. In lieu of signing the SF-424 form representatives may type their name, title, and organization on plain bond paper with a signature line signed and dated, in accordance with block 18 of the SF-424 form. Applications must be postmarked or electronically transmitted no later than June 28, 2002. No applications or supplementary materials will be accepted after the deadline. It is the responsibility of the applicant to ensure that the U.S. Postal Service or other carrier correctly postmarks the application. An original application containing numbered pages, plus three copies, should be addressed to the Federal Mediation and Conciliation Service, Labor-Management Grants Program, 2100 K Street, NW., Washington, DC 20427. FMCS will not consider videotaped submissions or video attachments to submissions.

After the deadline has passed, all eligible applications will be reviewed and scored preliminarily by one or more Grant Review Boards. The Board(s) will recommend selected applications for rejection or further funding consideration. The Director, Labor-Management Grants Program, will finalize the scoring and selection process. The individual listed as contact person in Item 6 on the application form will generally be the only person with whom FMCS will communicate during the application review process. Please be sure that person is available between June and September of 2002.

All FY2002 grant applicants will be notified of results and all grant awards will be made before October 1, 2002.

Applications submitted after the June 28 deadline date or fail to adhere to eligibility or other major requirements will be administratively rejected by the Director, Labor-Management Grants Program.
