## OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

### Notice of Meeting of the Industry Sector Advisory Committee on Small and Minority Business (ISAC-14)

**AGENCY:** Office of the United States  
Trade Representative.

**ACTION:** Notice of a partially opened  
meeting.

**SUMMARY:** The Industry Sector Advisory  
Committee on Small and Minority  
Business (ISAC-14) will hold a meeting  
on April 22, 2002, from 9 a.m. to 3:45  
p.m. The meeting will be opened to the  
public from 9 a.m. to 10:15 a.m. and  
from 12:30 p.m. to 3:45 p.m. The  
meeting will be closed to the public  
from 10:15 a.m. to 12:30 p.m.

**DATES:** The meeting is scheduled for  
April 22, 2002, unless otherwise  
notified.

**ADDRESSES:** The meeting will be held in  
Training Room A of the Ronald Reagan  
Federal Building located at 14th Street  
and Constitution Avenue, NW.,  
Washington, DC.

**FOR FURTHER INFORMATION CONTACT:**  
Sylvia Prosak, (principal contact), or  
Pam Wilbur/Kelly Parsons (alternate) at  
(202) 482-4792, Department of  
Commerce, 14th Street and Constitution

Avenue, NW., Washington, DC 20230 or  
myself on (202) 395-6120.

**SUPPLEMENTARY INFORMATION:** During the  
opened portion of the meeting the  
following agenda items will be  
discussed:

- Election of ISAC-14 Chair and Vice  
Chairs;
- Security and Ethics Briefings for  
ISAC-14 members;
- Briefing on congressionally led  
SME Trade Working Group;
- Update from U.S. Customs Service  
on current topics of interest to Small  
Business;
- Update on recent activities of the  
APEC Small Business Working Group;
- Update on the Free Trade  
Agreement of the Americas (FTAA);  
and,
- Update on the African Growth and  
Opportunity Act (AGOA).

**Elizabeth A. Gianini,**

*Assistant U.S. Trade Representative for  
Intergovernmental Affairs and Public Liaison.*

**BILLING CODE 3190-01-M**

## OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

### Exclusion of Particular Products From Actions Under Section 203 of the Trade Act of 1974 With Regard to Certain Steel Products; and Conforming Changes to the Harmonized Tariff Schedule of the United States

**AGENCY:** Office of the United States  
Trade Representative.

**ACTION:** Notice.

**SUMMARY:** Pursuant to authority granted  
to the United States Trade  
Representative (USTR) in Presidential  
Proclamation 7529 of March 5, 2002 (67  
FR 10553), the USTR has found that  
particular products should be excluded  
from actions under section 203 of the  
Trade Act of 1974 (19 U.S.C. 2253)  
(Trade Act) with regard to certain steel  
products, and is modifying subchapter  
III of chapter 99 of the Harmonized  
Tariff Schedule of the United States  
(HTS) as set forth in the annex to this  
notice to implement these exclusions.

**EFFECTIVE DATE:** March 20, 2002.

**FOR FURTHER INFORMATION CONTACT:**  
Office of Industry, Office of the United  
States Trade Representative, 600 17th  
Street, NW, Room 501, Washington DC,  
20508. Telephone (202) 395-5656.

**SUPPLEMENTARY INFORMATION:** On  
October 22, 2001, the ITC issued  
affirmative determinations under  
section 202(b) of the Trade Act (22  
U.S.C. 2252(b)) that (1) carbon and alloy  
steel slabs, plate (including cut-to-  
length plate and clad plate), hot-rolled  
sheet and strip (including plate in coils),  
cold-rolled sheet and strip (other than  
grain-oriented electrical steel), and  
corrosion-resistant and other coated  
sheet and strip; (2) carbon and alloy hot-  
rolled bar and light shapes; (3) carbon  
and alloy cold-finished bar; (4) rebar; (5)  
carbon and alloy welded tubular  
products (other than oil country tubular  
goods); (6) carbon and alloy flanges,  
fittings, and tool joints; (7) stainless  
steel bar and light shapes; and (8)

stainless steel rod are being imported in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industries producing those products. The Commissioners voting were equally divided with respect to the determination under section 202(b) of the Trade Act as to whether increased imports of (9) carbon and alloy tin mill products; (10) tool steel, all forms; (11) stainless steel wire; and (12) stainless steel flanges and fittings are being imported in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industries producing those products.

On March 5, 2002, the President issued Proclamation 7529, which established increases in duty and a tariff-rate quota (safeguard measures) pursuant to section 203 of the Trade Act on imports of ten steel products described in paragraph 7 of that proclamation. See 67 FR 10553 (March 7, 2002). Effective with respect to goods entered, or withdrawn from warehouse for consumption, on or after 12:01 a.m., EST, on March 20, 2002, Proclamation 7529 modifies the HTS so as to provide for such increased duties and a tariff-rate quota. Proclamation 7529 also delegated to the USTR the authority to consider requests for exclusions of particular products submitted in accordance with the procedures set out in 66 FR 54321, 54322–54323 (October 26, 2001) and, upon publication in the **Federal Register** of a notice of his finding that a particular product should be excluded, to modify the HTS provisions created by the Annex to that proclamation to exclude such particular product from the pertinent safeguard measure.

I have further considered exclusion requests for certain products designated as X-036, X-045, X-082, X-142, X-171.1, X-171.2, X-184, and X-192. I find that the exclusion of the steel products described in subdivisions (b)(i) through (b)(liv) of U.S. note 11 to subchapter III of chapter 99 of the HTS, as amended in the Annex to this notice, from the safeguard measures established in Proclamation 7529 would not undermine the goals of those safeguard measures. Therefore, I find that these products should be excluded from those safeguard measures. Accordingly, under authority vested in the USTR by Proclamation 7529, I modify the HTS provisions created by the Annex to Proclamation 7529 as set forth in the annex to this notice, which shall be embodied in the HTS with respect to goods entered, or withdrawn from

warehouse for consumption, on or after March 20, 2002.

**Robert B. Zoellick,**  
*United States Trade Representative.*

#### Annex

The HTS is modified as set forth in this annex, with bracketed matter included to assist in the understanding of the modifications. The following provisions supersede matter now in the Harmonized Tariff Schedule of the United States (HTS). The new subheading and superior text thereto being inserted by this notice are set forth in columnar format, and material in such columns is inserted in the columns of the HTS designated “Heading/Subheading”, “Article Description”, “Rates of Duty 1 General”, “Rates of Duty 1 Special”, and Rates of Duty 2”, respectively.

Effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after 12:01 a.m., EST, on March 20, 2002, the HTS is modified as follows:

(1) U.S. note 11 to subchapter III of chapter 99 of the HTS is modified:

(a) In subdivision (b)(xxvii), by redesignating subdivision (B) as subdivision (C), and inserting the following new subdivision (B) in alphabetical sequence:

“(B) certain batch annealed and temper-rolled cold-rolled continuously cast steel products (including tin mill black plate), meeting the following characteristics: chemical composition (in percent by weight) of carbon not over 0.08, silicon not over 0.04, manganese not over 0.40, phosphorus not over 0.03, sulfur not over 0.03 and aluminum from 0.010–0.071; thickness tolerance of  $\pm 5$  percent (aim  $\pm 4$  percent), guaranteed inside of 15 mm from mill edges; width tolerance of  $-0/+7$  mm; hardness of Hv 85–110; tensile strength 275N/mm<sup>2</sup> or more; elongation 36 percent or more; grain equiaxed; grain size minimum 8.5; Lankford value greater than 1.2; and delta r value less than  $\pm 0.2$ ; or”

(b) in subdivision (b)(xxxii), by redesignating subdivision (B) and (C) as (C) and (D), respectively, and inserting the following new subdivision (B) in alphabetical sequence:

“(B) non-oriented, high silicon, magnetic steel flat-rolled steel products with the following characteristics: silicon density gradient of between 4 percent by weight (center) and 6.5 percent by weight (surface); thickness from 0.05–0.30 mm; width 20–600 mm; chemical composition (in percent by weight): carbon 0.010 maximum, manganese 0.15 maximum, phosphorus 0.015 maximum, sulfur 0.005 maximum, silicon 4.0 or more but not over 7.0 and aluminum 0.004 maximum; mechanical properties: hardness of 380–420 HV (micro vickers); magnetic properties: strikethrough: saturation

induction over 1.85 Tesla; and core loss: strikethrough W1/10k less than 20.4W/kg or W.5/20k less than 24.0 W/kg;”

(c) by inserting the following new subdivisions in numerical sequence at the end of subdivision (b):

“(l) hot-rolled flat-rolled steel, designated as X-082, in coils, either in widths not over 1,168.4 mm then having coil weights of 21.43 kg per mm of width and greater and entered in an aggregate annual quantity not to exceed 200,000 metric tons, or in widths over 1,168.4 mm but not over 1,244.6 mm then having coil weights of 19.64 kg per mm of width or more and entered in an aggregate annual quantity not to exceed 50,000 metric tons, all the foregoing widths having a width tolerance of not more than 12.00 mm; having a camber tolerance of not more than 15 mm per 1000 cm, in thicknesses ranging from 1.80 mm to 3.00 mm with thickness tolerances of  $\pm 0.05$  mm, and with a maximum flatness deviation measured as not to exceed 2.5 percent steepness ratio (defined as height over the wave length); the foregoing goods having the following chemical compositions and widths:

(A) Of a width from 733 to 1,244.6 mm, inclusive, and containing by weight 0.010–0.08 percent of carbon, 0.16–0.30 percent of manganese, 0.025 percent maximum of silicon, 0.020 percent maximum of phosphorus, 0.020 percent maximum of sulfur, 0.008 percent maximum of nitrogen and 0.02–0.08 percent of aluminum;

(B) of a width from 915 to 1,244.6 mm, inclusive, and containing by weight 0.08–0.13 percent of carbon, 0.30–0.60 percent of manganese, 0.035 percent maximum of silicon, 0.025 percent maximum of phosphorus, 0.025 percent maximum of sulfur, 0.008 percent maximum of nitrogen and 0.02–0.07 percent of aluminum;

(C) of a width from 762 to 1,244.6 mm, inclusive and containing by weight 0.13–0.17 percent of carbon, 0.30–0.60 percent of manganese, 0.035 percent maximum of silicon, 0.025 percent maximum of phosphorus, 0.025 percent maximum of sulfur, 0.010 percent maximum of nitrogen and 0.02–0.07 percent of aluminum; or

(D) of a width from 733 to 1,244.6 mm, inclusive, and containing by weight 0.010 percent maximum of carbon, 0.10–0.20 percent of manganese, 0.030 percent maximum of silicon, 0.020 percent maximum of phosphorus, 0.020 percent maximum of sulfur, 0.007 percent maximum of nitrogen, 0.02–0.075 percent of aluminum and 0.15 percent maximum of titanium;

all the foregoing certified by the importer of record to be used for rerolling in a reversing cold reduction mill, with a reduction in thickness during the cold rolling process of at least 40 percent;

(li) hot-rolled flat-rolled steel products, in coils, measuring 5.0 mm  $\times$  533.5 mm per coil; having the chemical composition (in percent by weight) carbon 0.11 percent–0.17 percent, silicon not over 0.10 percent, manganese 0.30–0.60 percent, phosphorus not over 0.025 percent, sulfur not over 0.025 percent, molybdenum 0.20–0.50 percent, vanadium 0.04–0.11 percent and aluminum 0.02–0.08 percent; yield strength 400N/mm<sup>2</sup> or greater; tensile strength 490–610 N/mm<sup>2</sup> and

elongation equal to or exceeding 22 percent, the foregoing designated as X-142;

(lii) products designated as X-171, as described below:

(A) electrolytically chromium coated steel, single reduced, temper T-5 CA, from 0.279 mm to 0.300 mm in thickness, in widths equal to 1065.213 mm (ordered) or widths equal to 1071.563 mm (actual); or

(B) ultra-wide electrolytically tin-plated drawn and ironed ("D&I") steel, single

reduced, T-4 CA, from 0.270 mm to 0.285 mm in thickness, in widths equal to 1146.175 mm (ordered) or in widths equal to 1152.525 mm (actual);

(liii) ball-bearing steel (as defined in additional U.S. note 1(h) to chapter 72 of the tariff schedule) hot-rolled bars and rods, in coils, having a diameter less than 47.625 mm; the foregoing designated as X-184;

(liv) special flat-rolled nonalloy carbon steel products, not further worked than hot-

rolled, of a width of 160 mm or more and a thickness of 8 mm to 50 mm, inclusive, with rounded edges and corners and certified and die-stamped with the mark of a national shipbuilding classification society, the foregoing designated as X-045 or X-192."

(2) The subheadings set forth below are inserted in subchapter III of chapter 99 in numerical sequence:

"9903.72.54	[Flat-rolled....] [Goods....] Enumerated in U.S. note 11(b)(liv) to this subchapter and designated as X-045 or X-192.	No change	No change	No change
9903.72.75	[Flat-rolled....] [Goods....] Enumerated in U.S. note 11(b)(l) to this subchapter, having a width not over 1,168.4 mm, if entered in an aggregate annual quantity not to exceed 200,000 metric tons, and designated as X-082.	No change	No change	No change
9903.72.76	Enumerated in U.S. note 11(b)(l) to this subchapter, having a width over 1,168.4 mm, if entered in an aggregate annual quantity not to exceed 50,000 metric tons, and designated as X-082.	No change	No change	No change
9903.73.31	[Flat-rolled....] [Goods....] Enumerated in U.S. note 11(b)(lii) to this subchapter and designated as X-171.	No change	No change	No change
9903.73.45	[Bars....] [Goods....] Enumerated in U.S. note 11(b)(liii) to this subchapter and designated as X-184.	No change	No change	No change"

(3) The expression "or (li)" is inserted in the article description of subheading 9903.72.73 immediately after "11(b)(xxiii)."

## DEPARTMENT OF TRANSPORTATION

### Coast Guard

[USCG-2001-10998]

### Environmental Assessment and Finding of No Significant Impact for Establishment of National Coast Guard Museum

**AGENCY:** Coast Guard, DOT.

**ACTION:** Notice of availability.

**SUMMARY:** The Coast Guard announces the availability of the Final Environmental Assessment and Finding of No Significant Impact regarding its proposal to accept a gift of land for purposes of relocating the Coast Guard Museum to a site near the U.S. Coast Guard Academy in New London, Connecticut. This final environmental assessment evaluates the environmental and socioeconomic impacts of establishing the Coast Guard Museum along with the associated acquisition of property and construction of the building. The Finding of No Significant Impact records the Coast Guard's determination that the proposed acceptance of a gift of property would

have no significant impact on the environment.

**ADDRESSES:** The material referenced in this notice is available for inspection and copying at Docket Management Facility, (USCG-2001-10998), U.S. Department of Transportation, room PL-401, 400 Seventh Street SW., Washington, DC 20590-0001, and on the internet at <http://dms.dot.gov>. Written requests for copies of the Final Environmental Assessment and Finding of No Significant Impact, or requests for information, should be directed to: Commandant (G-LEL) U.S. Coast Guard Headquarters, 2100 2nd Street SW., Washington, DC 20593.

**FOR FURTHER INFORMATION CONTACT:** If you have questions on this notice, the proposed project, or the associated documents, call Frank Esposito, Coast Guard Headquarters, at 202-267-0053. If you have questions on viewing the docket, call Dorothy Beard, Chief, Dockets, Department of Transportation, at 202-366-5149.

**SUPPLEMENTARY INFORMATION:** On November 21, 2001, the Coast Guard published a notice in the **Federal Register** (66 FR 58547) requesting comments on a Draft Environmental Assessment (DEA). We subsequently extended the comment period to February 8, 2002 (67 FR 1261, January 9, 2002). The DEA reviewed the proposal to accept a gift of land for purposes of relocating the Coast Guard

Museum to a site near the U.S. Coast Guard Academy in New London, Connecticut.

The Final Environmental Assessment (FEA) has been completed. This FEA evaluates the environmental and socioeconomic impacts of establishing the Coast Guard Museum along with the associated acquisition of property and construction of the building. It also includes comments received from the public as well as regulatory and other government agencies during development of the environmental assessment. The Finding of No Significant Impact (FONSI) records the Coast Guard's determination that the proposed acceptance of a gift of property would have no significant impact on the environment.

The FEA, FONSI, and comments received during development of the environmental assessment are available for public inspection or copying at the Document Management Facility listed in **ADDRESSES**. The Docket Management Facility is open between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also find this docket on the Internet at <http://dms.dot.gov>. (Once you enter the web site, click on "Search," enter the last five digits of the docket number ("10998") in the search box, and press the Enter key.)
