

PART 64—MISCELLANEOUS RULES RELATING TO COMMON CARRIERS

4. The authority citation for part 64 continues to read as follows:

Authority: 47 U.S.C. 154, 47 U.S.C. 225, 47 U.S.C. 251(e)(1), 151, 154, 201, 202, 205, 218–220, 254, 302, 303, and 337 unless otherwise noted. Interpret or apply sections 201, 218, 225, 226, 227, 229, 332, 48 Stat. 1070, as amended. 47 U.S.C. 201–204, 208, 225, 226, 227, 229, 332, 501 and 503 unless otherwise noted.

5. Add subpart AA to part 64 to read as follows:

Subpart AA—Universal Emergency Telephone Number

Sec.

Sec. 64.3000. Definitions.

Sec. 64.3001. Obligation to transmit 911 calls.

Sec. 64.3002. Transition to 911 as the universal emergency telephone number.

Sec. 64.3003. Obligation for providing a permissive dialing period.

Sec. 64.3004. Obligation for providing an intercept message.

Subpart AA—Universal Emergency Telephone Number

Authority: 47 U.S.C. 151, 154(i), 154(j), 157, 160, 210, 202, 208, 214, 251(e), 301, 303, 308, 309(j), and 310.

§ 64.3000 Definitions.

(a) *911 calls.* Any call initiated by an end user by dialing 911 for the purpose of accessing an emergency service provider. For wireless carriers, all 911 calls include those they are required to transmit pursuant to § 20.18 of the Commission's rules.

(b) *Appropriate local emergency authority.* An emergency answering point that has not been officially designated as a Public Safety Answering Point (PSAP), but has the capability of receiving 911 calls and either dispatching emergency services personnel or, if necessary, relaying the call to another emergency service provider. An appropriate local emergency authority may include, but is not limited to, an existing local law enforcement authority, such as the police, county sheriff, local emergency medical services provider, or fire department.

(c) *Public Safety Answering Point (PSAP).* A facility that has been designated to receive 911 calls and route them to emergency services personnel.

(d) *Statewide default answering point.* An emergency answering point designated by the State to receive 911 calls for either the entire State or those portions of the State not otherwise served by a local PSAP.

§ 64.3001 Obligation to transmit 911 calls.

All telecommunications carriers shall transmit all 911 calls to a PSAP, to a designated statewide default answering point, or to an appropriate local emergency authority as set forth in § 64.3002.

§ 64.3002 Transition to 911 as the universal emergency telephone number.

As of December 11, 2001, except where 911 is already established as the exclusive emergency number to reach a PSAP within a given jurisdiction, telecommunications carriers shall comply with the following transition periods:

(a) Where a PSAP has been designated, telecommunications carriers shall complete all translation and routing necessary to deliver 911 calls to a PSAP no later than September 11, 2002.

(b) Where no PSAP has been designated, telecommunications carriers shall complete all translation and routing necessary to deliver 911 calls to the statewide default answering point no later than September 11, 2002.

(c) Where neither a PSAP nor a statewide default answering point has been designated, telecommunications carriers shall complete the translation and routing necessary to deliver 911 calls to an appropriate local emergency authority, within nine months of a request by the State or locality.

(d) Where no PSAP nor statewide default answering point has been designated, and no appropriate local emergency authority has been selected by an authorized state or local entity, telecommunications carriers shall identify an appropriate local emergency authority, based on the exercise of reasonable judgment, and complete all translation and routing necessary to deliver 911 calls to such appropriate local emergency authority no later than September 11, 2002.

(e) Once a PSAP is designated for an area where none had existed as of December 11, 2001, telecommunications carriers shall complete the translation and routing necessary to deliver 911 calls to that PSAP within nine months of that designation.

§ 64.3003 Obligation for providing a permissive dialing period.

Upon completion of translation and routing of 911 calls to a PSAP, a statewide default answering point, to an appropriate local emergency authority, or, where no PSAP nor statewide default answering point has been designated and no appropriate local emergency authority has been selected by an authorized state or local entity, to an

appropriate local emergency authority, identified by a telecommunications carrier based on the exercise of reasonable judgment, the telecommunications carrier shall provide permissive dialing between 911 and any other seven-or ten-digit emergency number or an abbreviated dialing code other than 911 that the public has previously used to reach emergency service providers until the appropriate State or local jurisdiction determines to phase out the use of such seven-or ten-digit number entirely and use 911 exclusively.

§ 64.3004 Obligation for providing an intercept message.

Upon termination of permissive dialing, as provided under § 64.3003, telecommunications carriers shall provide a standard intercept message announcement that interrupts calls placed to the emergency service provider using either a seven-or ten-digit emergency number or an abbreviated dialing code other than 911 and informs the caller of the dialing code change.

RIN 2137-AD61

Pipeline Safety: Pipeline Integrity Management in High Consequence Areas (Repair Criteria)

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Final rule.

SUMMARY: This final rule finalizes repair provisions for hazardous liquid pipelines. These provisions were initially proposed in the previous rulemaking action which addressed requirements for pipeline integrity management programs in high consequence areas for operators owning or operating 500 or more miles of hazardous liquid or carbon dioxide pipeline (Integrity Management rule.) In the Integrity Management rule, we requested comment on the repair and mitigation provisions, because the provisions were substantially modified from those originally proposed in the notice of proposed rulemaking. This final rule also makes several non-substantive corrections and clarifications to other provisions of the Integrity Management rule.

DATES: This rule is effective May 29, 2001, except for paragraph (h) of § 195.452 which takes effect February 13, 2002. The incorporation by reference of certain publications in this rule is approved by the Director of the Federal Register as of February 13, 2002.

FOR FURTHER INFORMATION CONTACT: Mike Israni, (202) 366-4571, or by e-mail: mike.israni@rspa.dot.gov, regarding the remediation provisions in paragraph (h) or any other provisions of the integrity management rule; or the Dockets Facility (202) 366-9329, for copies of this final rule or other material in the docket. All materials in this docket may be accessed electronically at <http://dms.dot.gov>. General information about the RSPA/Office of Pipeline Safety (OPS) programs may be obtained by accessing OPS's Internet homepage at <http://ops.dot.gov>.

SUPPLEMENTARY INFORMATION:

Background

On December 1, 2000, RSPA published a final rule (65 FR 75378) that prescribed integrity management
