The nine (9) settling parties collectively have agreed to pay \$645,749 to the Hazardous Substances Trust Fund subject to the contingency that EPA may elect not to complete the settlement if comments received from the public during this comment period disclose facts or considerations which indicate the proposed settlement is inappropriate, improper, or inadequate. Monies collected from the *de minimis* parties will be applied towards past and future response costs incurred by EPA or PRPs performing work at or in connection with the Site. The settlement includes a 60% premium to cover the risk of cost overruns or increased costs to address conditions at the Site previously unknown to EPA but discovered after the effective date of the Consent Order. The settlement also includes a reservation of rights by EPA, pursuant to which EPA reserves its rights to seek recovery from the settling *de minimis* parties of response costs incurred by EPA in connection with the Site to the extent such costs exceed \$25 million.

EPA is entering into this agreement under the authority of section 122(g) of CERCLA, 42 U.S.C. 9622(g). Section 122(g) authorizes early settlements with *de minimis* parties to allow them to resolve their liabilities at Superfund Sites without incurring substantial transaction costs. Under this authority, EPA proposes to settle with potentially responsible parties in connection with the Malvern TCE Superfund Site, each of whom is responsible for .75 percent or less of the volume of hazardous substance sent to the Site. As part of this *de minimis* settlement, EPA will grant the nine settling *de minimis* parties a covenant not to sue or take administrative action against any of the nine settling PRPs for reimbursement of response costs or injunctive relief pursuant to sections 106 and 107 of CERCLA, 42 U.S.C. 9606 and 9607, or for injunctive relief pursuant to section 7003 of the Resource Conservation and Recovery Act, 42 U.S.C. 6973, with regard to the Site. EPA issued this settlement offer to the *de minimis* parties on May 29, 2001.

The Environmental Protection Agency will receive written comments relating to this settlement for thirty (30) days from the date of publication of this Notice. A copy of the proposed Administrative Order on Consent can be obtained from Joan A. Johnson, U.S. Environmental Protection Agency, Region III, Office of Regional Counsel, 1650 Arch Street, Philadelphia, Pennsylvania, 19103-2029, or by contacting Joan A. Johnson at (215) 814-2619.

GENERAL SERVICES ADMINISTRATION

Notice of Public Meeting and Intent To Prepare an Environmental Assessment

The General Services Administration (GSA) announces its intent to prepare an Environmental Assessment (EA) for the proposed development of a new Census Bureau building at the Suitland Federal Center (SFC), and to conduct a public meeting to discuss the project. The proposed Census Bureau building will consolidate and replace the Census Bureau's current office space located at its existing headquarters in Federal Office Building-3 (F.O.B.-3) at the SFC, and at overflow facilities in F.O.B.-4 at the SFC and at other locations in Prince George's County. GSA plans to build the new Census Bureau facility because the space requirements of the Census Bureau exceed the current capacity at their existing headquarters building and because working conditions at the existing Census Bureau facilities are inadequate.

GSA will prepare the EA pursuant to section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, as amended, as implemented by the Council on Environmental Quality (40 CFR parts 1500-1508), Section 106 of the National Historic Preservation Act of 1966, as amended, and in accordance with GSA's environmental policies and procedures set forth in the NEPA Desk Guide (GSA Order ADM 1095.1F Environmental Considerations in Decisionmaking). The environmental assessment will determine whether GSA's decision to build a new Census Bureau Building at the SFC would significantly affect the quality of the human environment, and hence require an environmental impact statement (EIS), or a finding of no significant impact (FONSI) under NEPA.

The Proposed Action is the development of new and improved space to house the Census Bureau. The project alternatives will include (A) a new building for the Census Bureau and demolition of FOB-3, (B) a new building for the Census Bureau that allows FOB-3 to remain for another use, and (C) a no action alternative that would not include a new building for the Census Bureau.

The EA will evaluate the effects of the project alternatives on land use, socio-economic, transportation, cultural, and natural resources. The EA will consider the potential for short-term, long-term, and cumulative impacts.

The Census Bureau project represents Phase 2 of the SFC development plan. As such, the EA will be tiered from the
