

Office Box 2890, Room 6139-S, Washington, DC 20013-2890. Telephone number: (202) 720-5023. The standards are also available, and can be downloaded from the Internet, at: http://www.ftw.nrcs.usda.gov/practice_std.html.

SUPPLEMENTARY INFORMATION: Section 343 of the Federal Agriculture Improvement and Reform Act of 1996, requires NRCS to make available for public review and comment proposed revisions to conservation practice standards used to carry out the highly erodible land and wetland provisions of the law. For the next 30 days, NRCS will receive comments on the proposed changes. Following that period, a determination will be made by NRCS regarding disposition of those comments, and a final determination of change will be made.

Signed in Washington, DC, on May 13, 2002.

Bruce I. Knight,

Chief, Natural Resources Conservation Service.

BILLING CODE 3410-16-P

DEPARTMENT OF AGRICULTURE

Rural Utilities Service

Georgia Transmission Corporation; Notice of Finding of No Significant Impact

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of finding of no significant impact.

SUMMARY: Notice is hereby given that the Rural Utilities Service (RUS) has made a finding of no significant impact (FONSI) with respect to a request from Georgia Transmission Corporation for assistance from RUS to finance the construction of a 230 kV electric transmission line in Colquitt, Brooks, and Lowndes Counties, Georgia.

FOR FURTHER INFORMATION CONTACT: Bob Quigel, Environmental Protection Specialist, Engineering and Environmental Staff, RUS, Stop 1571, 1400 Independence Avenue, SW., Washington, DC 20250-1571, telephone (202) 720-0468, fax (202) 720-0820, e-mail at bquigel@rus.usda.gov.

SUPPLEMENTARY INFORMATION: Georgia Transmission Corporation proposes to construct approximately 37.5 miles of 230 kV transmission line from Georgia Power Company's East Moultrie Substation to Georgia Power Company's West Valdosta Substation. The East Moultrie Substation is located northeast

of Moultrie approximately ¾ miles west of the intersection of State Road 35 and J.O. Stewart Road. The West Valdosta Substation is located on Snake Nation Road west of Valdosta approximately 0.4 miles west of the intersection of Snake Nation Road and Shiloh Road (County Road 775). The transmission line will traverse through southwestern Colquitt County, Georgia, the northeast corner of Brooks County, Georgia, and western Lowndes County, Georgia. Single pole and H-frame structures will be used to support the transmission line conductors and shield wires. Where single pole structures are used, the width of the right-of-way will be 100 feet. Normally, where the proposed right-of-way parallels a road, the centerline will be located approximately 9 feet outside the road right-of-way and the transmission line easement will extend another 50 feet. Where H-frame structures are used, primarily to cross large center-pivot irrigation systems, the width of the right-of-way will be 125 feet. Approximately 286 single pole concrete structures will be used for the majority of this project. Four concrete H-frame structures, typically with steel crossarms, will be used to span large center-pivot irrigation systems. Typical pole structures for this project will be approximately 95 feet in height. The conductors will be approximately 1⅓ inches in diameter. Three-eighths inch diameter shield wire will be used for lightning protection.

Copies of the FONSI are available for review at, or can be obtained from, RUS at the address provided herein or from Mr. Vince Howard, Georgia Transmission Corporation, 2100 East Exchange Place, Tucker, Georgia 30085-2088, telephone (770) 270-7635. Mr. Howard's e-mail address is vince.howard@gatrans.com.

Dated: May 23, 2002.

Blaine D. Stockton,

Assistant Administrator, Electric Program, Rural Utilities Service.

Corrections to Notice of Amended Final Determination of Sales of Less Than Fair Value and Antidumping Duty Order: Certain Softwood Lumber Products from Canada and Notice of Amended Final Affirmative Countervailing Duty Determination and Notice of Countervailing Duty Order: Certain Softwood Lumber Products from Canada

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: May 30, 2002.

FOR FURTHER INFORMATION CONTACT:

Regarding the Antidumping Investigation, contact Constance Handley at (202) 482-0631 or Charles Riggle at (202) 482-0650, Office of AD/CVD Enforcement V, Import Administration, International Trade Administration, U.S. Department of Commerce, Room 4012, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230. Regarding the Countervailing Duty Investigation, contact Eric B. Greynolds at (202) 482-6071, Office of AD/CVD Enforcement VI, at the address set forth above.

SUPPLEMENTARY INFORMATION:

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions of the Tariff Act of 1930, as amended by the Uruguay Round Agreements Act effective January 1, 1995 (the Act). In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations codified at 19 CFR Part 351 (2000).

Correction to Scope of Antidumping and Countervailing Duty Orders

On May 22, 2002, the Department of Commerce published its Notice of Amended Final Determination of Sales at Less than Fair Value and Antidumping Duty Order: Certain Softwood Lumber Products from Canada, 67 FR 36068, and its Notice of Amended Final Affirmative Countervailing Duty Determination and Notice of Countervailing Duty Order: Certain Softwood Lumber Products from Canada, 67 FR 36070 (Softwood Lumber Orders). In the "Scope of the Order" sections of the Softwood Lumber Orders, we inadvertently omitted certain language in the exclusion of softwood lumber products contained in

single family home packages or kits. See item (6)B of the "Scope of the Order" sections of the Softwood Lumber Orders, 67 FR at 36068 and 67 FR at 36071, respectively. We correct and amend the "Scope of the Order" sections by replacing item (6)B with the following language:

B. The package or kit must contain all necessary internal and external doors and windows, nails, screws, glue, sub floor, sheathing, beams, posts, connectors, and if included in the purchase contract, decking, trim, drywall and roof shingles specified in the plan, design or blueprint.

This notice is published pursuant to sections 706(a) and 736(a) of the Act and 19 CFR 351.211.

Dated: May 24, 2002

Bernard T. Carreau,

Acting Assistant Secretary for Import Administration.

Application for Duty-Free Entry of Scientific Instrument

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW, Washington, DC.

Docket Number: 02-017. *Applicant:* Emory University, Department of Biology, 2006 Rollins Research Center, 1510 Clifton Road, Atlanta, GA 30322. *Instrument:* Micromanipulator Assembly for Slice Physiology Setup. *Manufacturer:* Luigs & Neumann, Germany. *Intended Use:* The instrument is intended to be used to do electrophysiological studies using rat brain slices. The experiments consist of preparing slices of rat brain, putting them under the microscope and inserting microelectrodes into single

nerve cells. Once the microelectrode is inserted, a fluorescent dye will be injected into the cell body to visualize fine dendritic processes. The microscope will then be moved to focus on one of the visualized fine processes, and a second electrode can be inserted into the same cell. The main objective of this research is to understand neuronal activity and information processing in the mammalian brain. In particular, nerve cells in brain structures involved in motor control will be studied. In addition, the instrument will be used for educational purposes in the course Bio. 498. Application accepted by Commissioner of Customs: May 14, 2002.

Gerald A. Zerdy,

Statutory Import Programs Staff.

The University of Akron; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW, Washington, DC.

Docket Number: 02-009. *Applicant:* The University of Akron, Akron, OH 44325. *Instrument:* Shielded Room (Low Field Cage). *Manufacturer:* Magnetic Measurements Ltd., United Kingdom. *Intended Use:* See notice at 67 FR 18862, April 17, 2002.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. *Reasons:* The foreign instrument provides: (1) A cage design allowing visibility of students making measurements inside, (2) very low (about 1% of ambient field) magnetic field space over a large area (up to 2 cubic meters) allowing room for several instruments and (3) ability to actively compensate for a changing magnetic field in the building using a 3-axis fluxgate magnetometer with a sensitivity of 3nT. A domestic manufacturer of similar equipment advised May 16, 2002 that (1) these capabilities are

pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

Notice of Public Scoping and Preparation of an Environmental Impact Statement for a Middle Fork Nooksack River Habitat Conservation Plan

AGENCY: National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Commerce; Fish and Wildlife Service, Interior.

ACTION: Notice of intent.

SUMMARY: Pursuant to the National Environmental Policy Act, this notice advises the public that the Fish and Wildlife Service and National Marine Fisheries Service (Services) intend to gather information necessary to prepare an Environmental Impact Statement (Statement). The Statement will examine the proposed approval of a Habitat Conservation Plan (Plan) and issuance of an incidental take permit (Permit) to take threatened species in accordance with the Endangered Species Act of 1973, as amended (Act). The Permit applicant is the City of Bellingham (City). The application is related to water withdrawals from the Middle Fork Nooksack River and Lake Whatcom, and related activities located in Whatcom County, Washington. The applicant intends to request Permits for chinook salmon, bull trout, and Dolly varden, which are listed as threatened under the Act. The City also plans to seek coverage for coho salmon and eight other currently unlisted fish and wildlife species under specific provisions of the Permit, should these
