

John King, Acting Chief, Coastal Programs Division (N/ORM3), Office of Ocean and Coastal Resource Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland, 20910, tel. 301-713-3155 extension 195, e-mail john.king@noaa.gov; or on the internet at: <http://www.ocrm.nos.noaa.gov/czm/6217/>.

FOR FURTHER INFORMATION CONTACT: Chris Rilling, NOAA, 301-713-3155 (x198); or Stacie Craddock, EPA, 202-566-1204.

SUPPLEMENTARY INFORMATION: NOAA and EPA have prepared a Findings Document for each coastal nonpoint program submitted for approval. The Findings Documents were prepared by NOAA and EPA to provide the rationale for the agencies' decision to approve each State and Territory coastal nonpoint program. Proposed Findings Documents, Environmental Assessments, and Findings of No Significant Impact prepared for the coastal nonpoint programs submitted by Ohio and Georgia were made available for public comment in the **Federal Register** on September 28, 2001 (66 FR 49643). No public comments were received on the programs.

In accordance with the National Environmental Policy Act (NEPA), NOAA has also prepared a Record of Decision on each program. The Record of Decision: (1) States what the decision was; (2) identifies all alternatives considered, specifying the alternative considered to be environmentally preferable; and (3) states whether all practicable means to avoid or minimize environmental harm from the alternative selected have been adopted.

In March 1996, NOAA published a programmatic environmental impact statement (PEIS) that assessed the environmental impacts associated with the approval of State and Territory coastal nonpoint programs. The PEIS forms the basis for the environmental assessments NOAA has prepared for each State and Territorial coastal nonpoint program submitted to NOAA and EPA for approval. In the PEIS, NOAA determined that the approval and conditional approval of coastal nonpoint programs will not result in any significant adverse environmental impacts and that these actions will have an overall beneficial effect on the environment. Because the PEIS served only as a "framework for decision" on individual State and Territorial coastal nonpoint programs, and no actual decision was made following its publication, NOAA has prepared a NEPA Record of Decision on each

individual State and Territorial program submitted for review.

Dated: May 28, 2002.

Acting Assistant Administrator for Ocean Services and Coastal Zone Management, National Oceanic and Atmospheric Administration.

Diane C. Regas,

The completion of the profile will require several subsequent meetings of this AP.

Although other non-emergency issues not on the agenda may come before the AP for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during these meetings. Actions of the AP will be restricted to those issues specifically identified in the agendas and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act (Magnuson-Stevens Act), provided the public has been notified of the Council's intent to take action to address the emergency.
