declines in sales and production at the subject firm are attributed to a worldwide slow down in the airline industry during the relevant period, which thus impacted the retrofitting aerospace interior components business. The events of September 11, 2001 further impacted the demand for the subject firm's products.

Therefore, imports from Canada or Mexico of products "like or directly competitive" with what the subject plant produced did not "contribute importantly" to the layoffs at the subject plant.

## Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, DC, this 5th day of July 2002.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing with the Director of DTAA at the U.S. Department of Labor (DOL) in Washington, D.C. provided such request is filed in writing with the Director of DTAA not later than July 29, 2002.
