

Agenda for the Meetings

- Opening Remarks and Presentation of Meeting Procedures.
- Briefing on Background for the Planned Modification of the Class B Airspace Area at the George Bush Intercontinental Airport/Houston, TX.
- Public Presentations and Discussions.
- Closing Comments.

Issued in Washington, DC, on July 15, 2002.

Ellen Crum,

Acting Manager, Airspace and Rules Division.

[FR Doc. 02-18619 Filed 7-23-02; 8:45 am]

BILLING CODE 4910-13-P

POSTAL SERVICE**39 CFR Part 111****Metal Strapping Materials on Pallets**

AGENCY: Postal Service.

ACTION: Proposed rule.

SUMMARY: The Postal Service proposes revisions to the *Domestic Mail Manual* that would exclude the use of metal strapping or metal banding material to secure pallets of mail, whether an individual pallet of mail, a pallet composed of several individual pallets stacked to form a single unit, or a pallet with a pallet box containing mail. These proposed revisions would also exclude metal buckles, seals, or other devices used to secure the ends of nonmetal strapping material used on pallets of mail. These proposed revisions would not change current approved methods or other materials for securing the mail to pallets.

Many mailers and the Postal Service are concerned about safety with the continued use of metal materials, as well as environmental issues, such as recycling. During the past 10 years, most pallet mailers and mailing operations have eliminated metal materials in favor of less expensive materials. For example, polyester, the most rigid of all strapping materials, has very good breaking strength, has only a 1-2 percent elongation, retains tension well, and has excellent recyclability properties. Although steel is the strongest of strapping materials, it is expensive, can be dangerous to work with, and difficult to recycle.

DATES: Submit comments on or before August 23, 2002.

ADDRESSES: Mail or deliver written comments to the Manager, Mail Preparation and Standards, U.S. Postal Service Headquarters, 1735 N Lynn Street, Suite 3025, Arlington, VA 22209-6038. Copies of all written

comments will be available for inspection and photocopying between 9 a.m. and 4 p.m., Monday through Friday, at the Postal Service Headquarters Library, 475 L'Enfant Plaza SW., 11th Floor North, Washington, DC. Comments may also be submitted via fax to 703-292-4058, ATTN: O.B. Akinwale.

FOR FURTHER INFORMATION CONTACT: O.B. Akinwale at (703) 292-3643.

SUPPLEMENTARY INFORMATION: Current Postal Service standards for mail palletization in *Domestic Mail Manual* (DMM) M041, whether for individual pallets, stacked pallets, or pallet boxes, affords mailers flexibility in choices to secure mail to a pallet. For an individual pallet, mailers may choose to use only straps or bands, only plastic stretchwrap or shrinkwrap, or a combination of straps or bands and plastic wrapping material. These various materials and methods may be used for individual pallets as long as the materials and methods are strong enough to secure the mail and maintain the integrity of the pallet load during transport and handling. For several pallets stacked to form a single unit, mailers must secure the pallets with at least two straps or bands. Stretchwrap and similar plastic covering materials are not permitted for securing these pallets into a single unit. For a pallet box, mailers are required to secure the pallet only if the pallet and the pallet box containing the mail are to be transported by the Postal Service, or the weight of the mail in the box is not sufficient to hold the box in place on the pallet during transport and processing.

Metal straps, bands, buckles, or seals used to secure the ends of other nonmetal strapping material, can create serious safety hazards to personnel and equipment preparing, processing, and distributing the mail. In addition, the accumulation and disposal of metal strapping materials can create additional hazardous situations and environmental concerns. It should be noted that current Postal Service standards for packaging mail prohibit the use of metal or wire for securing mail into packages, and the standards for tray mail specify the use of plastic straps for securing tray sleeves and lids.

The Postal Service is committed to integrating safety into all postal operations, not only for its employees but also for its customers. Serious injuries, such as deep cuts, can occur when metal bands are applied, often when removed. In addition, the Postal Service is committed to conservation initiatives and supports

environmentally sound practices. In keeping with these two commitments, the Postal Service believes that eliminating the use of metal straps or bands on palletized mail would improve employee and customer safety and promote better resource conservation.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. of 553 (b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comment of the following proposed revisions to the *Domestic Mail Manual*, incorporated by reference in the *Code of Federal Regulations*. See 39 CFR 111.1.

List of Subjects in 39 CFR Part 111

Administrative practice and procedure, Postal Service.

PART 111—[AMENDED]

1. The authority citation for 39 CFR part 111 continues to read as follows:

Authority: 5 U.S.C. 552(a); 39 U.S.C. 101, 401, 403, 404, 414, 3001-3011, 3201-3219, 3403-3406, 3621, 3626, 5001.

2. Revise the following sections of the *Domestic Mail Manual* (DMM) as set forth below:

Domestic Mail Manual (DMM)

* * * * *

M Mail Preparation and Sortation**M000 General Preparation Standards**

* * * * *

M040 Pallets**M041 General Standards**

* * * * *

1.0 PHYSICAL CHARACTERISTICS

* * * * *

1.3 Securing Pallets

[Revise 1.3 to read as follows:]

Except for stacked pallets under 3.1 and pallet boxes under 4.3, each loaded pallet of mail must be prepared to maintain the integrity of the mail and the entire pallet load during transport and handling using one of the following methods:

a. Securing with at least two straps or bands of appropriate material. Wire or metal bands, straps, buckles, seals, and similar metal fastening devices may not be used.

b. Wrapping with stretchable or shrinkable plastic.

c. Securing with at least two straps or bands of appropriate material and wrapping with stretchable or shrinkable plastic. Wire or metal bands, straps,

buckles, seals, and similar metal fastening devices may not be used.

* * * * *

3.0 STACKING PALLETS

[Revise the heading of 3.1 to read as follows:]

3.1 Physical Characteristics

Pallets may be stacked two, three, or four tiers high if:

[Revise item d to read as follows:]

* * * * *

d. The stack of pallets is secured with at least two straps or bands of appropriate material to maintain the integrity of the stacked pallets during transport and handling. Wire or metal bands, straps, buckles, seals, and similar metal fastening devices may not be used. The stack of pallets may not be secured together with stretchable or shrinkable plastic.

* * * * *

4.0 PALLET BOXES

* * * * *

4.3 Securing

[Revise the introductory text in 4.3 to read as follows:]

Pallet boxes must be secured to the pallet with strapping, banding, stretchable, plastic, shrinkwrap, or other material (Wire or metal bands, straps, buckles, seals, and similar metal fastening devices may not be used.) that ensures that the pallet can be safely unloaded from vehicles, transported, and processed as a single unit to the point where the contents are distributed with the load intact if:

* * * * *

An appropriate amendment to 39 CFR 111 to reflect the changes will be published if the proposal is adopted.

Stanley F. Mires,

Chief Counsel, Legislative.

BILLING CODE 7710-12-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52 and 81

[Docket OR-01-006b; FRL-7241-1]

Approval and Promulgation of State Implementation Plans and Designation of Areas for Air Quality Planning Purposes: Oregon; Medford Carbon Monoxide Nonattainment Area

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) proposes to approve revisions to Oregon's State Implementation Plan (SIP) which were submitted on May 31, 2001. These revisions consist of: the 1993 carbon monoxide (CO) base/attainment year emissions inventory for Medford, Oregon and the revised Medford CO maintenance plan. EPA also proposes to approve Oregon's request for redesignation of Medford from nonattainment to attainment for CO.

DATES: Written comments must be received by August 23, 2002.

ADDRESSES: Written comments should be addressed to Connie Robinson, EPA, Region 10, Office of Air Quality (OAQ-107), at the address listed below.

Copies of the State's request and other information supporting this action are available for inspection during normal business hours at the following locations: EPA, Region 10, Office of Air Quality (OAQ-107), 1200 Sixth Avenue, Seattle, Washington 98101, and State of Oregon Department of Environmental Quality, 811 SW Sixth Avenue, Portland, Oregon 97204-1390.

FOR FURTHER INFORMATION CONTACT: Connie Robinson, EPA, Region 10, Office of Air Quality (OAQ-107), Seattle, Washington, (206) 553-1086.

SUPPLEMENTARY INFORMATION: In the Final Rules section of this **Federal Register**, the EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. If no adverse comments are received in response to this action, no further activity is contemplated.

If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any

parties interested in commenting on this action should do so at this time. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, we may adopt as final those provisions of the rule that are not the subject of an adverse comment.

For additional information, see the Direct Final rule which is located in the Rules section of this **Federal Register**.

Dated: June 25, 2002.

Ronald A. Kreizenbeck,

Acting Regional Administrator, Region 10.
