

\$1.3 million respectively in present value terms using 2001 year dollars.

The estimated incremental burden for the Federal government is 10,500 hours with 4,000 of these hours for Federal Land Manager activities and the remainder for EPA activities. The estimated incremental cost in present value (2001 year dollars) is \$363,000 with \$121,000 of that for Federal Land Manager activities and the rest for EPA activities.

The burden estimates for the first ICR renewal period cover different task elements than those for the original ICR. These differences reflect the requirements of the 1999 Regional Haze Rule with respect to the scheduled events and activities in the implementation process.

II. Background

A. Purpose of the Meeting

The FIFRA SAP will meet to consider and review the proposed methodology for conducting a probabilistic children's exposure and dose assessment to wood preservatives from treated playsets and residential decks using EPA's SHEDS model. The FIFRA SAP will be asked to discuss the appropriateness of the model algorithms, the selection of model input distributions for non-chemical specific parameters (e.g., activity-related factors, exposure factors), and the statistical methods used to quantify variability and uncertainty of model inputs and outputs. To assist the FIFRA SAP in their evaluation of the SHEDS model, each FIFRA SAP member will be provided CD(s) containing a technical manual, SHEDS software, user manual, and annotated code. The FIFRA SAP will also be provided with a case study for a hypothetical low-exposure chemical and a hypothetical high-exposure chemical that will demonstrate the model interface, algorithms, inputs, and outputs.

B. The FIFRA SAP Meeting Minutes

The FIFRA SAP will prepare meeting minutes summarizing its recommendations to the Agency in approximately 60 days. The meeting minutes will be posted on the FIFRA SAP web site or may be obtained by contacting the Public Information and Records Integrity Branch at the address or telephone number listed in Unit I. of the **SUPPLEMENTARY INFORMATION**.

Butylate Tolerances are Considered to be Reassessed by EPA

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces that EPA is considering as reassessed all tolerances for residues of the herbicide butylate. The Agency has determined that no common mechanism exists among butylate and the thiocarbamates. Therefore, the Agency is not amending its previous notice which constituted EPA's report on the Food Quality Protection Act (FQPA) of 1996 tolerance reassessment progress and interim risk management decision for butylate. By itself, butylate poses no risk concerns within the limits of the existing tolerances, which will remain in effect at 0.1 part per million (ppm) for all registered commodities; however, the Agency intends to revise the commodity definitions in accordance with current Agency administrative practice. By law, EPA is required by August 2002 to reassess 66% of the tolerances in existence on August 2, 1996, or about 6,400 tolerances. The regulatory actions in this document pertain to the reassessment of seven tolerances which are counted among tolerance/exemption reassessments made toward the August 2002 review deadline.
