OFFICE OF PERSONNEL
MANAGEMENT

5 CFR Part 532

RIN 3206-AJ64

Prevailing Rate Systems; Redefinition
of the Scranton-Wilkes-Barre, PA,
Appropriated Fund Wage Area

AGENCY: Office of Personnel
Management.

ACTION: Proposed rule.

SUMMARY: The Office of Personnel Management is issuing a proposed rule to redefine Tioga County, Pennsylvania, from the Scranton-Wilkes-Barre, PA, appropriated fund Federal Wage System (FWS) wage area to the Rochester, New York, FWS wage area. This redefinition would reflect economic trends in the area that indicate a linkage exists between Tioga County and the Rochester wage area and would more accurately conform to the regulatory criteria we use to define FWS wage areas.

DATES: We must receive comments by September 3, 2002.

ADDRESSES: Send or deliver comments to Donald J. Winstead, Assistant Director for Compensation Administration, Workforce Compensation and Performance Service, Office of Personnel Management, Room 7H31, 1900 E Street NW., Washington, DC 20415-8200, or FAX: (202) 606-4264.

FOR FURTHER INFORMATION CONTACT: Chenty I. Carpenter at (202) 606-2838; FAX at (202) 606-4264; or e-mail at cicarpen@opm.gov.

SUPPLEMENTARY INFORMATION: The Office of Personnel Management (OPM) is proposing to redefine Tioga County, Pennsylvania, from the Scranton-Wilkes-Barre, PA, Federal Wage System (FWS) wage area to the Rochester, NY, FWS wage area. Tioga County is currently an area of application in the Scranton-Wilkes-Barre wage area. This change is necessary because economic

trends indicate more linkage between Tioga County and the Rochester survey area than to the Scranton-Wilkes-Barre survey area.

OPM considers the following regulatory criteria under 5 CFR 532.211 when defining FWS wage area boundaries:

- (i) Distance, transportation facilities, and geographic features;
- (ii) Commuting patterns; and
- (iii) Similarities in overall population, employment, and the kinds and sizes of private industrial establishments.

Based on our analysis of the regulatory criteria for defining appropriated fund FWS wage areas, we find that Tioga County would be more appropriately defined as part of the Rochester wage area. The distance criterion favors the Rochester wage area more than the Scranton-Wilkes-Barre wage area. The commuting patterns criterion favors the Rochester wage area. An additional factor we considered is that Tioga County is adjacent to the Rochester survey area, but not to the Scranton-Wilkes-Barre survey area. This change would affect about 10 employees in the Department of the Army and 1 employee in the Department of the Interior. These employees would be placed on the wage schedule for the Rochester wage area on the first day of the first applicable pay period beginning on or after 30 days following publication of the final regulations.

The Federal Prevailing Rate Advisory Committee (FPRAC), the national labor-management committee that advises OPM on FWS pay matters, reviewed and concurred by consensus with this change. Based on its review of the regulatory criteria for defining FWS wage areas, FPRAC recommended no other changes in the geographic definitions of the Rochester or Scranton-Wilkes-Barre FWS wage areas.

Regulatory Flexibility Act

I certify that these regulations would not have a significant economic impact on a substantial number of small entities because they would affect only Federal agencies and employees.

Prevailing Rate Systems; Change in Federal Wage System Survey Job

AGENCY: Office of Personnel
Management.

ACTION: Proposed rule with request for
comments.

SUMMARY: The Office of Personnel Management is issuing a proposed rule that would permit the Department of Defense to survey the Maintenance Mechanic job on an optional basis rather than having to seek OPM's permission when it wants to add that job to appropriated fund wage surveys. Currently, OPM's regulations contain required and optional survey jobs. If a particular job does not appear on either list, but is needed for a survey, an agency must request OPM's written approval. The Federal Prevailing Rate Advisory Committee (FPRAC) established a Survey Job Work Group to review wage survey job descriptions in general, and it recommended making the Maintenance Mechanic job an optional job. The FPRAC agreed with the Work Group's recommendation, which will save time and facilitate the survey process.

DATES: Comments must be received on or before September 3, 2002.

ADDRESSES: Send or deliver comments to Donald J. Winstead, Assistant Director for Compensation Administration, Workforce Compensation and Performance Service, Office of 1 Personnel Management, Room 7H31, 1900 E Street NW., Washington, DC 20415-8200, or FAX: (202) 606-4264.

FOR FURTHER INFORMATION CONTACT: Chenty I. Carpenter, (202) 606-2848, FAX: (202) 606-0824, or e-mail cicarpen@opm.gov.

SUPPLEMENTARY INFORMATION: The Federal Prevailing Rate Advisory Committee (FPRAC), the national labor-

management committee responsible for advising the Office of Personnel Management (OPM) on matters concerning the pay of Federal Wage System (FWS) employees, established a Survey Job Work Group (SJWG) to review the survey job descriptions used by Federal agencies during FWS local wage surveys to determine prevailing rates of pay for FWS employees. The SJWG reviewed many FWS jobs and found that the Maintenance Mechanic survey job description should be changed, to better reflect the industry standard wording for the job. The SJWG also decided that it would be beneficial to add the Maintenance Mechanic survey job to the list of optional survey jobs. The SJWG recommended these changes to FPRAC because adding the Maintenance Mechanic survey job to the list of optional jobs would allow the Department of Defense (DOD) the opportunity to survey the job at its discretion, without having to ask OPM for prior approval. This change would allow DOD more planning time when conducting surveys, and the changed job description, when surveyed, may provide DOD with more job matches. FPRAC agreed with the Work Group's recommendations.

I certify that this regulation would not have a significant economic impact on a substantial number of small entities because it would affect only Federal agencies and employees.
