

will examine the reliability and relevance of the information used. In the investigation, the Department determined that the petition margin was fully corroborated by examining the key elements of the U.S. price and normal value calculations on which the petition margin was based and then comparing the sources used in the petition to YUSCO's reported sales databases.

Notice of Final Determination of Sales at Less Than Fair Value: Stainless Steel Plate in Coils From Taiwan, 64 FR 15493, 15497 (March 31, 1999). This petition rate was applied to YUSCO in the investigation. For purposes of this administrative review, we have reviewed the petition, information and the administrative record, and found no reason to believe that the reliability of this information should be called into question. Further, the Department finds the administrative record of this review does not contain information which indicates that the application of the petition rate would be inappropriate in the instant review. Therefore, we find that the petition rate is sufficiently reliable and relevant to YUSCO for the present review.

Where circumstances indicate that the selected margin is not appropriate as adverse facts available, the Department will disregard the margin and determine an appropriate margin. See *Fresh Cut Flowers from Mexico*; Final Results of Antidumping Duty Administrative Review, 61 FR 6812, 6814 (February 22, 1996) (where the Department disregarded the highest margin for use as adverse facts available because the margin was based on another company's uncharacteristic business expense, resulting in an unusually high margin). In this review, we are not aware of any circumstances that would render the use of the margin selected for YUSCO as inappropriate.

Preliminary Results of Review

As a result of our review, we preliminarily determine that the following margin exists for the period May 1, 2000 through April 30, 2001:

Manufacturer/Exporter	Margin(percent)
YUSCO	8.02

Any interested party may request a hearing within 30 days of publication. Any hearing, if requested, will be held 37 days after the date of publication, or the first working day thereafter. Interested parties may submit case briefs and/or written comments no later than 30 days after the date of publication. Rebuttal briefs and rebuttals to written comments, limited to issues raised in

such briefs or comments, may be filed no later than 35 days after the date of publication. The Department will publish the final results of this administrative review, which will include the results of its analysis of issues raised in any such written comments or at a hearing, within 120 days after the publication of this notice.

Assessment Rate

In the event these preliminary results are made final, we intend to assess antidumping duties on YUSCO's entries at the same rate as the dumping margin (i.e., 8.02 percent) since the margin is not a current calculated rate for the respondent, but a rate based upon total facts available pursuant to section 776(a) of the Act.

Cash Deposit

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. Upon completion of this review, the Department will issue appraisal instructions directly to the Customs Service. Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of these administrative reviews, as provided by section 751(a)(1) of the Act: (1) the cash deposit rate for YUSCO will be the rate established in the final results of this administrative review (no deposit will be required for a zero or de minimis margin, i.e., a margin lower than 0.5 percent); (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in a previous segment of this proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recent segment; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) If neither the exporter nor the manufacturer is a firm covered in this or any previous review conducted by the Department, the cash deposit rate will continue to be the "all other" rate established in the LTFV investigation, which was 7.39 percent. See Notice of Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order; *Stainless Steel Sheet and Strip in Coils from Taiwan*, 64 FR 15493 (March 31, 1999). These deposit requirements, when imposed, shall remain in effect until

publication of the final results of the next administrative review.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice is published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

January 31, 2002.

Faryar Shirzad,

Assistant Secretary for Import Administration.

International Trade Administration

[A-570-601]

Tapered Roller Bearings and Parts Thereof, Finished and Unfinished, From the People's Republic of China; Notice of Extension of Time Limit for 2000-2001 Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Extension of Time Limit.

SUMMARY: The Department of Commerce is extending the time limit for the preliminary results of the fourteenth review of the antidumping duty order on tapered roller bearings and parts thereof, finished and unfinished, from the People's Republic of China. The period of review is June 1, 2000 through May 31, 2001. This extension is made pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended by the Uruguay Round Agreements Act.

DATES: February 7, 2002.

FOR FURTHER INFORMATION CONTACT: Melani Miller or Andrew Smith, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington DC 20230; telephone (202) 482-0116 or (202) 482-1276, respectively.

Applicable Statute

Unless otherwise indicated, all citations to the statute are references to

the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 ("the Act") by the Uruguay Round Agreements Act, and all citations to the regulations are to 19 CFR Part 351 (2001).

Statutory Time Limits

Section 751(a)(3)(A) of the Act requires the Department to issue the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested and a final determination within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend these deadlines to a maximum of 365 days and 180 days, respectively.

Background

On July 23, 2001, the Department published a notice of initiation of administrative review of the antidumping duty order on tapered roller bearings and parts thereof, finished and unfinished ("TRBs") from the People's Republic of China, covering the period June 1, 2000, through May 31, 2001 (65 FR 38252). The preliminary results for the antidumping duty administrative review of TRBs from the People's Republic of China are currently due no later than March 4, 2002.

Extension of Time Limits for Preliminary Results

Due to the number of companies and complexity of the issues, it is not practicable to complete this review within the originally anticipated time limit (i.e., March 4, 2002). See Memorandum from Team to Richard W. Moreland, "Extension of Time Limit for Preliminary Results," dated, February 1, 2001. Therefore, the Department of Commerce is extending the time limit for completion of the preliminary results to not later than June 30, 2002, in accordance with section 751(a)(3)(A) of the Act.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

February 1, 2002.

Richard W. Moreland,

Deputy Assistant Secretary for AD/CVD Enforcement.

National Oceanic and Atmospheric Administration

[I.D. 010302E]

Small Takes of Marine Mammals Incidental to Specified Activities; Seismic Hazard Investigations in Washington State

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of application and proposed authorization for a small take exemption; request for comments.

SUMMARY: NMFS has received a request from the U.S. Geological Survey (USGS) for an authorization to take small numbers of marine mammals by harassment incidental to collecting marine seismic reflection data to investigate the earthquake hazard in the Straits of Georgia region of Washington State. Under the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to authorize the USGS to incidentally take, by harassment, small numbers of marine mammals in the above mentioned area during April and late May, 2002.

DATES: Comments and information must be received no later than March 11, 2002.

ADDRESSES: Comments on the application should be addressed to Donna Wieting, Chief, Marine Mammal Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3225. A copy of the application, which includes a list of references used in this document, and an Environmental Assessment (EA) may be obtained by writing to this address or by telephoning one of the contacts listed below.

FOR FURTHER INFORMATION CONTACT: Kenneth R. Hollingshead, Office of Protected Resources, NMFS, (301) 713-2055, or Brent Norberg, Northwest Regional Office, NMFS, (206) 526-6733.

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to

harassment, a notice of a proposed authorization is provided to the public for review.

Permission may be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses, and if the permissible methods of taking and requirements pertaining to the monitoring and reporting of such takings are set forth. NMFS has defined "negligible impact" in 50 CFR 216.103 as "an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival."

Subsection 101(a)(5)(D) of the MMPA established an expedited process by which citizens of the United States can apply for an authorization to incidentally take small numbers of marine mammals by harassment. The MMPA defines "harassment" as:

* * * any act of pursuit, torment, or annoyance which (a) has the potential to injure a marine mammal or marine mammal stock in the wild; or (b) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering.

Subsection 101(a)(5)(D) establishes a 45-day time limit for NMFS review of an application followed by a 30-day public notice and comment period on any proposed authorizations for the incidental harassment of small numbers of marine mammals. Within 45 days of the close of the comment period, NMFS must either issue or deny issuance of the authorization.

Summary of Request

In April and May, 2002, the USGS, in cooperation with the Geological Survey of Canada and the University of Victoria, will collect marine seismic reflection data to investigate the earthquake hazards in the Straits of Georgia. For approximately 2 to 4 days this research will be in U.S. waters and about 17 to 19 days will be in Canadian waters. Geological features around the Straits of Georgia that might produce earthquakes lie obscured beneath water, urban areas, forest, and thick glacial deposits. As a result, investigators must use sound waves that are produced by either single airguns or more usually an array of airguns to indirectly view these features. Because seismic noise from the proposed survey's airguns could potentially affect marine mammals due to disturbance by sound (i.e., acoustic
