

The limits set forth above are subject to adjustment pursuant to the current bilateral agreement between the Governments of the United States and Ukraine.

These limits may be revised if Ukraine becomes a member of the World Trade Organization (WTO) and the United States applies the WTO agreement to Ukraine.

Products in the above categories exported during 2002 shall be charged to the applicable category limits for that year (see directive dated November 29, 2001) to the extent of any unfilled balances. In the event the limits established for that period have been exhausted by previous entries, such products shall be charged to the limits set forth in this directive.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,
James C. Leonard III,
Chairman, Committee for the Implementation of Textile Agreements.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcement of Import Restraint Limits for Certain Cotton and Man-Made Fiber Textiles and Textile Products Produced or Manufactured in the United Arab Emirates

October 9, 2002.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing limits.

EFFECTIVE DATE: January 1, 2003.

FOR FURTHER INFORMATION CONTACT: Roy Unger, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port, call (202) 927-5850, or refer to the U.S. Customs website at <http://www.customs.gov>. For information on embargoes and quota re-openings, refer to the Office of Textiles and Apparel website at <http://otexa.ita.doc.gov>.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854);

Executive Order 11651 of March 3, 1972, as amended.

The import restraint limits for textile products, produced or manufactured in the United Arab Emirates and exported during the period January 1, 2003 through December 31, 2003 are based on limits notified to the Textiles Monitoring Body pursuant to the Uruguay Round Agreement on Textiles and Clothing (ATC).

In the letter published below, the Chairman of CITA directs the Commissioner of Customs to establish limits for the 2003 period. The 2003 levels for Categories 315 and 361 are zero.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notices 66 FR 65178, published on December 18, 2001). Information regarding the 2003 CORRELATION will be published in the **Federal Register** at a later date.

James C. Leonard III,
Chairman, Committee for the Implementation of Textile Agreements.

Intent To Prepare a Draft Environmental Impact Statement for Potential Multipurpose Projects for Ecosystem Restoration, Flood Damage Reduction, and Recreation Development Within and Along the Clear and West Forks of the Trinity River in Fort Worth, Tarrant County, TX

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: A resolution by the United States Senate Committee on Environment and Public Works dated April 22, 1988, requested that the Board of Engineers review the report of the Chief of Engineers on the Trinity River and Tributaries, TX, House Document No. 276, Eighty-Ninth Congress, and other pertinent reports, with a view to determining the advisability of modifying the recommendations contained therein, with particular reference to providing improvements in the interest of flood protection, environmental enhancement, water quality, recreation, and other allied purposes in the Upper Trinity River Basin with specific attention on the Dallas-Fort Worth Metroplex. An initial assessment based on the resolution guidance indicates a Federal interest in continuing with more detailed studies for these purposes. In accordance with the National Environmental Policy Act, a Draft Environmental Impact Statement (DEIS) will be prepared to evaluate and compare ecosystem restoration, flood damage reduction, and recreation alternatives within and along the Clear Fork and West Fork of the Trinity River in the Central City area of Fort Worth, TX. The DEIS will also assess the impacts to the quality of the human environment associated with each alternative. The study area will be bound by Interstate Highway 30 on the Clear Fork, Rockwood Park on the upstream end of the West Fork, Northeast 28th Street on Marine Creek, a tributary of the West Fork, and Riverside Drive on the downstream end of the West Fork. The construction and implementation of Benbrook Lake, Eagle Mountain Lake, Lake Worth, the Fort Worth Floodway project, and subsequent flood control projects, along with urbanization and development activities, have significantly degraded the terrestrial and aquatic habitat along and within the Trinity River. Consequently, ecosystem restoration

measures will be developed and evaluated to address the degraded habitats. In addition, recreation measures will be developed and evaluated as complements to proposed ecosystem restoration measures. Although preliminary findings indicate that flood damage reduction opportunities would be limited, the floodway and the interior drainage in the study area will be evaluated for flood damage reduction opportunities and consistency with past improvements. Flood damage reduction measures will address the loss of the authorized level of flood protection for the area.

DATES: A public meeting will be held on October 29, 2002 from 6:30 p.m. to 8:30 p.m. at the YWCA (Grand Ballroom), 512 West 4th Street, Fort Worth, TX 76102

FOR FURTHER INFORMATION CONTACT: Questions pertaining to the proposed action and DEIS can be answered by: Ms. Marcia R. Hackett, CESWF-PM-C, U.S. Army Corps of Engineers, Fort Worth District, P.O. Box 17300, Fort Worth, TX 76102-0300, (817) 886-1787.

SUPPLEMENTARY INFORMATION: The Fort Worth Floodway was authorized by Section 2 of Public Law No. 14, 79th Congress, 2nd Session, approved March 2, 1945. The project, which was completed in September 1957, entailed the construction and/or strengthening of levees and the widening and straightening of the Clear Fork channel from Lancaster Street to its confluence with the West Fork and the West Fork channel from White Settlement Road to Riverside Drive, along with allied features such as removal of debris from the floodway, reconstruction and alteration of roads, bridges and public utilities, modifying channel diversions, and constructing drainage facilities. The Flood Control Act of 1960 provided for an extension upstream of the floodway project on the West Fork from White Settlement Road to just downstream of Meandering Road. Construction on the West Fork extension was initiated in March 1965 and completed in June 1971. Similar flood control features were authorized by the Flood Control Act dated October 23, 1962, for an extension of the Clear Fork of the Trinity River between the existing Fort Worth Floodway and State Highway 183. Construction of the Clear Fork Extension was initiated in January 1966 and completed in September 1971.

Alternatives for ecosystem restorations, flood damage reduction, and recreation will be developed and evaluated based on ongoing fieldwork and data collection and past studies
