

duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting "non-hour cost" burden to respondents or recordkeepers resulting from the collection of information. We have not identified non-hour cost burdens for this information collection. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you without charge upon request.

Public Comment Policy. We will make copies of the comments available for public review, including names and addresses of respondents, during regular business hours at our offices in Lakewood, Colorado. Individual respondents may request that we withhold their home address from the public record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the rulemaking record a respondent's identity, as allowable by law. If you request that we withhold your name and/or address, state this prominently at the beginning of your comment. However, we will not

consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

MMS Information Collection Clearance Officer: Jo Ann Lauterbach, (202) 208-7744.

Dated: February 8, 2002.

Milton K. Dial,

Acting Associate Director for Minerals Revenue Management.

BILLING CODE 4310-MR-P

DEPARTMENT OF THE INTERIOR

National Park Service

Delaware Water Gap; National Recreation Area, New Jersey and Pennsylvania

AGENCY: National Park Service, Interior.

ACTION: Notice of realty action.

SUMMARY: With this notice the National Park Service is notifying the public of an adjustment to the boundary of the Delaware Water Gap National Recreation Area to include certain lands within the boundary of the Recreation Area.

ADDRESSES AND INFORMATION: The maps on which these tracts are depicted are Segments 5 and 83. These maps were prepared by the National Park Service, Land Resources Program Center, Philadelphia, Pennsylvania. Detailed information concerning this boundary revision, including precise legal descriptions, Land Protection Plans, environmental assessments and cultural reports are available at the Superintendent's office at Delaware Water Gap National Recreation Area, River Road, Bushkill, PA 18324 (570-588-2435); or the National Park Service, Land Resources Program Center, Northeast Region, 200 Chestnut Street, Philadelphia, Pennsylvania 19106.

SUPPLEMENTARY INFORMATION: Sec. 3(b), of Pub. L. 89-158, (authorizing Act), 79 Stat. 613, as amended, authorizes the Secretary of the Interior to make adjustments in the boundary of the area by publication of the amended description thereof in the **Federal Register** and acquire, by such means as he may deem to be in the public interest, including an exchange of excluded for included lands or interests therein with or without the payment or receipt of money to equalize the values, additional lands and interests therein

included in the area by reason of the boundary adjustment.

In accordance with the Department of the Interior Departmental Manual, 245 DM 1.1 C.(7), the Director is delegated the Secretary's authority to carry out the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 4601-1-4 through 1-11) and Sections 6 and 7 of Executive Order 11200 including the reporting requirements found in Title 16 U.S.C., Sections 4601-6a(h) and 4601-10d.

The Director, under Director's Order #3: Delegation of Authority, Section 15, 4 states " * * * and field directors are authorized to perform the appraisal and land acquisition functions as established in Public Law 91-646, title III (42 U.S.C. 4651-4655) and implemented by 49 CFR 24.

The boundaries mentioned above are specified in Section 2(a) of the authorizing Act as "lands and interests therein within the boundaries of the area, as generally depicted on the drawing entitled, 'Proposed Tocks Island National Recreation Area,' dated and numbered September 1962, NRA-TI-7100."

In a subsequent notice of Establishment published in the **Federal Register**, Vol. 42, No. 109, June 7, 1977, the Secretary of the Interior gave notice of the establishment of the Recreation Area. In this notice, he stated that "adjustments may be subsequently made in the boundaries of the area by publication of the amendments to the boundary description thereof in the **Federal Register** as provided in the authorizing act".

In a further Notice of Revision of Park Boundaries published in the **Federal Register**, Vol. 56, No. 132, Wednesday, July 10, 1991, the Regional Director, Mid-Atlantic Region, gave notice of a boundary revision as provided in the authorizing act.

Notice is hereby given that the boundary of the Delaware Water Gap National Recreation Area has been revised pursuant to the above Act, to include the following tracts:

Tract No.	Acreage
8306	0.20 FEE
570	0.66 FEE
572	3.12 ROW

Tract 8306 was inadvertently omitted from the boundary revision published in the **Federal Register**; Vol. 56, No. 132 dated July 10, 1991, mentioned above. This tract of land is completely surrounded on three sides by park land already within the boundary. The fourth side of this tract is bounded by State Highway

51001 (Milford Road). With the inclusion of this tract the boundary is uninterrupted on the West side of Milford Road for more than a mile.

A revision to the boundary to include Tracts 570 and 572 will allow for an exchange of lands between the United States of America and Union Motor Lodge, Incorporated. The park will receive a wooded parcel of land which is contiguous with the existing boundary, and also use of an access road that parallels the fairway. The park proposed to exchange Tract 571, a 0.38 of an acre parcel of land that no longer contains values for which the park was established.

The inclusion of the above-mentioned tracts will allow for proper management of park lands.

Dated: December 20, 2001.

Pat Phelan,

Acting Regional Director, Northeast Region.

BILLING CODE 4310-70-P

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Keechelus Dam Safety of Dams Modification, Yakima Project, Washington

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of Availability of the Record of Decision for the Keechelus Dam Safety of Dams Modification, Yakima Project, Washington.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, as amended, the Department of the Interior, Bureau of Reclamation (Reclamation), has prepared a Record of Decision identifying the alternative to be implemented for the Keechelus Dam Safety of Dams Modification Project, located in the Yakima River basin in central Washington. The project is the subject of the Final Environmental Impact Statement (FEIS), INT-FES-01-29, **Federal Register** Notice of Availability, dated September 25, 2001 (66 FR 49039, Sep. 25, 2001).

The decision is to proceed with the preferred alternative to modify Keechelus Dam along the existing alignment to correct identified safety deficiencies as documented in the FEIS. In addition, Reclamation will seek funding under existing authorities to conduct a feasibility study for fish passage at all of the storage dams which are part of the Yakima Project.

ADDRESSES: Copies of the ROD are available for public inspection and review at the following locations:

- Bureau of Reclamation, U.S. Department of the Interior, Room 7455, 18th and C Streets NW., Washington, DC 20240.

- Bureau of Reclamation, Denver Office Library, Denver Federal Center, Building 67, Room 167, Denver, Colorado 80225.

- Bureau of Reclamation, Pacific Northwest Regional Office, 1150 North Curtis Road, Suite 100, Boise, Idaho 83706-1234.

- Bureau of Reclamation, Upper Columbia Area Office, 1917 Marsh Road, Yakima, Washington 98901.

Internet

The ROD is also available on the Internet at: <http://www.pn.usbr.gov/>.

FOR FURTHER INFORMATION CONTACT: Mr. Dave Kaumheimer at (509) 575-5848, extension 232. Those wishing to obtain a copy of the ROD in the form of a printed document may contact Mr. Kaumheimer.

SUPPLEMENTARY INFORMATION: Keechelus Dam was completed in 1917 as part of Reclamation's Yakima Project, storing Yakima River water in central Washington for irrigation as part of 443,400 acres of prime farmland and for flood control. Recent investigations have shown that the wooden railroad trestle, used to deliver earth material and rocks while constructing the dam, has deteriorated, forming vertical paths where earthen materials within the dam can move, leaving voids in the dam. Examination of the seepage problems indicates the material is internally unstable and is subject to failure, with an associated potential for loss of life and property downstream. Because of the deficiencies identified, Keechelus Lake has been operated at a restricted pool elevation 7 feet below the normal full pool elevation of 2517 feet since November 1998, with increased

monitoring and surveillance at the dam. This was identified as the No Action alternative in the FEIS, and elevation 2510 was used in comparing impacts of the other alternatives.

The Safety of Dams Act of 1978 (Pub. L. 95-578) and amendments of 1984 (Pub. L. 98-404) authorize the Secretary of the Interior to analyze existing Reclamation dams for changes in the state-of-the-art criteria and additional hydrologic and seismic data developed since the dams were constructed. For dams where a safety concern exists, the Secretary is authorized to modify the structure to ensure its continued safety. Section 3 of the Safety of Dams Act states that construction authorized by the Act shall be for dam safety and not for specific purposes of providing additional conservation storage capacity or developing benefits over and above those provided by the original dams and reservoirs.

Dated: January 18, 2002.

J. William McDonald,

Regional Director, Pacific Northwest Region.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Potholes Reservoir Resource Management Plan

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability of the Record of Decision for the Potholes Reservoir Resource Management Plan, Grant County, Washington.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, as amended, the Department of the Interior, Bureau of Reclamation (Reclamation), has prepared a Record of Decision identifying the alternative to be implemented for the Potholes Reservoir Resource Management Plan. This project is the subject of the Final Environmental Impact Statement (FEIS), INT-FES-01-40, **Federal Register** Notice of Availability, dated December 12, 2001 (66 FR 64272, Dec. 12, 2001). Reclamation's decision is to implement the Preferred Alternative (Alternative B) and associated environmental commitments (mitigation measures) as described in the FEIS. Implementing this alternative will support the recreational interests of visitors to the area while protecting the natural and cultural environment.
